## **Neurology For Mrcp Paces Masterpass Series Paperback 2010 By Hani T S:**

**Neurology for MRCP PACES** Hani TS Benamer, 2019-06-21 Neurology has a reputation as a difficult area in the MRCP examinations with the clinical neurology stations PACES and traditional short cases being especially feared by candidates. This book aims to demystify the subject and help candidates avoid becoming bogged down in unnecessary detail and to clarify their thoughts and expression. The book is divided into three major sections covering areas of the body each organised according to the possible instructions that candidates are likely to encounter in the exam. They include summaries of essential examination steps to be undertaken, possible clinical findings, brief discussions in question and answer format and tips and pitfalls. Concise, clear and engaging, this is an essential aid for candidates preparing for the MRCP clinical neurology stations. **MRCP 2** J. B. Peiris, 2002 *Essential Revision Notes in Clinical Neurology* Hani T. S. Benamer, 2017-11-22 Neurological disorders account for 10% of consultations in primary care and 20% of acute hospital admissions, yet there is good evidence that neurophobia is common among medical students. Lost in unnecessary detail, this has led to neurology's long established reputation as a difficult subject. This book is the antidote to neurophobia. It is divided into four sections. Section I introduces the reader to clinical neurology by summarising the basic aspects of a neurological consultation, including history and examination. Section II covers neurological signs related to cranial nerves, motor and sensory system and peripheral nerve lesions. Section III comprises the major and common diseases such as headache, epilepsy, stroke, Parkinson's disease and Multiple sclerosis, and Section IV addresses other main neurological problems. The scope of this book is limited to only the most fundamental principles and omits all superfluous detail, ideal for medical students needing a concise introduction to neurology and an overview for revision. Neurology for Mrcp Jonathan D. Rohrer, Jonathan Kennedy, 2011-03-11 This book is the essential revision guide for neurology in the Membership of the Royal College of Physicians. MRCP Neurology has been rated as the most difficult subject in MRCP examinations and there has been no concise and easy to use revision guide to help candidates through the exams until now. Neurology for MRCP is written by two experienced neurologists who have taught both the written Part 1 and Part 2 and clinical PACES sections of the exam. This pioneering new book will also be useful for medical students sitting for their final examinations and for doctors who are preparing for the PLAB examination. *Neurology for Mrcp* Jonathan Kennedy, 2010 *The MRCP PACES Handbook* Samuel Blows, Saira Ghafur, Parminder K.
