Algorithmic Gatekeeping for Professional Communicators Arjen van Dalen, 2023-05-30

This book provides a critical study of the power trust and legitimacy of algorithmic gatekeepers The news and public information which citizens see and hear is no longer solely determined by journalists but increasingly by algorithms Van Dalen demonstrates the gatekeeping power of social media algorithms by showing how they affect exposure to diverse information and misinformation and shape the behaviour of professional communicators Trust and legitimacy are foregrounded as two crucial antecedents for the acceptance of this algorithmic power This study reveals low trust among the general population in algorithms performing journalistic tasks and a perceived lack of legitimacy of algorithmic power among professional communicators Drawing on case studies from YouTube and Instagram this book challenges technological deterministic discourse around filter bubbles and echo chambers and shows how algorithmic power is situated in the interplay between platforms audiences and professional communicators Ultimately trustworthy algorithms used by news organizations and social media platforms as well as algorithm literacy training are proposed as ways forward towards democratic algorithmic gatekeeping Presenting a nuanced perspective which challenges the deep divide between techno optimistic and techno pessimistic discourse around algorithms *Algorithmic Gatekeeping* is recommended reading for journalism and communication researchers in related fields The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Mother Trouble Miranda J. Brady, 2024-10-01 *Mother Trouble* traces white maternal angst in popular culture across a span of more than fifty years from the iconic Rosemary's Baby to anti-vaxx mom memes and HGTV shows The book narrows in on popular media to think about white maternal angst as a manifestation of feminism's unrealized possibilities and continued omissions since the second wave It interrogates intersecting systems of power which make mothers and their children the most impoverished people in the world and urges a greater appreciation in academic and popular thinking of the work that mothers do The book calls for an analytical expansion beyond gender to better address the

erasure of reproductive labour and especially that performed by migrants and people of colour It illustrates the continued marginalization of racialized mothers and the disproportionate amount of labour performed by all mothers in a society where their work is devalued Ultimately *Mother Trouble* reveals how the unease around white motherhood in the media has become a proxy for the troubles faced by all mothers

Vaccination in America Richard J. Altenbaugh, 2018-08-02 The success of the polio vaccine was a remarkable breakthrough for medical science effectively eradicating a dreaded childhood disease It was also the largest medical experiment to use American schoolchildren Richard J Altenbaugh examines an uneasy conundrum in the history of vaccination even as vaccines greatly mitigate the harm that infectious disease causes children the process of developing these vaccines put children at great risk as research subjects In the first half of the twentieth century in the face of widespread resistance to vaccines public health officials gradually medicalized American culture through mass media public health campaigns and the public education system Schools supplied tens of thousands of young human subjects to researchers school buildings became the main dispensaries of the polio antigen and the mass immunization campaign that followed changed American public health policy in profound ways Tapping links between bioethics education public health and medical research this book raises fundamental questions about child welfare and the tension between private and public responsibility that still fuel anxieties around vaccination today

reportage and cobweb clearing analysis Doppelganger invites readers on a wild ride smashing through the mirror world charting a path beyond despair towards true solidarity Autism John W. Oller, Stephen Oller, 2010-10-25 Speech Language Hearing The Western Disease Claire Laurier Decoteau, 2021-06-04 Autism has become an all too common diagnosis here in the United States Typically diagnosed in early childhood Autism Spectrum Disorder ASD is identified based on developmental delays in three areas language social skills and particular behaviors But what Americans know and think about autism is shaped by our social relationship to health disease and our country's medical system The Western Disease explores the ways that Somali recent immigrants make sense of their children's diagnosis of autism Having never heard of the disease before migrating to North America they often determine that since autism doesn't exist in Somalia it must be a Western disease Many even believe it is Somalis forced migration to North America that has rendered their children vulnerable to the development of autism As Decoteau shows autism as a category identity and diagnosis does not exist in Somalia because the infrastructure for its emergence is absent When Somalis say that autism does not exist in Somalia however they mean that the disorder is Western in nature that it is caused by environmental and health conditions unique to life in North America Following Somali parents as they struggle to make sense of their children's illness and advocate for alternative care Decoteau untangles the complicated ways immigration race and class affect the Somali relationship to the disease and how this helps us understand our distinctly American approach to healthcare **Unmothering Autism** Patty Douglas, 2025-01-15 As global rates of autism diagnosis rise dominant cultural representations continue to define autism as a tragic neurological disorder And mothers as primary caregivers and advocates are centrally implicated in the impulse to find both cause and cure How should we care about autism and autistic people Unmothering Autism emerged from Patty Douglas's desire to understand a contradiction she and her two sons one autistic experienced beauty living together while their public encounters with doctors school professionals and agencies were fraught and sometimes violent In this book Douglas offers a critical history of popular and biomedical assumptions about autism expressed through shifting social constructs that blame or valorize maternal care Throughout she also intersperses her own insights and shares conversations she has had with other autism mothers Unmothering Autism theorizes an ethics of disruption reorienting us to autism and autistic people as valuable and fundamentally human It centres the previously marginalized perspectives of mothers and autistic individuals to affirm their knowledge of living well together in and through difference *Strange Trips* Lucas Richert, 2019-02-28 Drugs take strange journeys from the black market to the doctor's black bag Changing marijuana laws in the United States and Canada the opioid crisis and the rising costs of pharmaceuticals have sharpened the public's awareness of drugs and their regulation Government industry and the medical profession however have a mixed record when it comes to framing policies and generating knowledge to address drug use and misuse In *Strange Trips* Lucas Richert investigates the myths meanings and boundaries of recreational drugs palliative care drugs and pharmaceuticals as well as struggles over product innovation

consumer protection and freedom of choice in the medical marketplace Scrutinizing how we have conceptualized and regulated drugs amid the pressing and competing interests of state regulatory bodies pharmaceutical and for profit companies scientific researchers and medical professionals Richert asks how perceptions of a product shift from dangerous substance to medical breakthrough or vice versa Through close examination of archival materials accounts and records he brings substances into conversation with each other and demonstrates the contentious relationship between scientific knowledge cultural assumptions and social concerns Weaving together stories of consumer resistance and government control Strange Trips offers timely recommendations for the future of drug regulation *Set Apart* Martha

Griffin-Weis,2015-07-08 *Set Apart* A Mothers Steps to Peace traces the footsteps of a woman Maggie who gradually comes to suspect that her son Bens autism is caused by a reaction to his childhood vaccines Eventually she learns how this diagnosis will change their lives As the years pass and he grows from childhood to adulthood she grows in her love and compassion for him her fortitude in the face of adversity and her ability to leaven adversity with a sense of humor *Set Apart* tells this mothers story by describing the events of a rather normal life one with its share of joys and challenges that changes forever when the details and ramifications of Bens reality become clear As they learn how to live with that reality they experience the transformation of their lives In the end Maggie finds the peace shes been missing and the power she needs to use her experiences to achieve a meaningful purpose in this life Whether you have someone with autism in your family or you know someone who does or you simply find inspiring people who discover meaning and purpose in their lives *Set Apart* a Mothers Steps to Peace will help you to forge a bond with a mother who overcame missteps and detours and found the path to peace in her life *Focus On: 100 Most Popular American Game Show Hosts* Wikipedia contributors, **Becoming Disabled** Jan

Doolittle Wilson,2021-06-28 Using an autoethnographic approach as well as multiple first person accounts from disabled writers artists and scholars Jan Doolittle Wilson describes how becoming disabled is to forge a new consciousness and a radically new way of viewing the world In *Becoming Disabled* Wilson examines disability in ways that challenge dominant discourses and systems that shape and reproduce disability stigma and discrimination It is to create alternative meanings that understand disability as a valuable human variation that embrace human interdependency and that recognize the necessity of social supports for individual flourishing and happiness From her own disability view of the world Wilson critiques the disabling impact of language media medical practices educational systems neoliberalism mothering ideals and other systemic barriers And she offers a powerful vision of a society in which all forms of human diversity are included and celebrated and one in which we are better able to care for ourselves and each other **A History of Autism** Adam Feinstein,2011-07-07 This unique book is the first to fully explore the history of autism from the first descriptions of autistic type behaviour to the present day Features in depth discussions with leading professionals and pioneers to provide an unprecedented insight into the historical changes in the perception of autism and approaches to it Presents carefully chosen
