## **Motorsport Classic 2016 2016:**

Car Tourism Waldemar Cudny, 2017-07-05 This book examines the role of cars and the space connected with their production and presentation in tourism development. It describes the role played by experiences and experience societies formed in the 20th c in the development of contemporary tourism including tourism related to cars. The book explores the influence of experiencing unusual events such as car races, car fairs, visits to car industry museums or multifunctional spaces connected with producing and exhibiting cars e.g. Autostadt or Audi Forum on the development of a new type of tourism i.e. car tourism. This kind of tourism is novel in two ways: firstly it is a new phenomenon in science as so far it has not been thoroughly studied or described apart from various short articles. Secondly this type of tourism has developed on a large scale only in recent years mainly due to the huge investments made by powerful European car manufacturers e.g. Autostadt, Audi Forums, Porsche Museum, Lamborghini Museum etc. The book presents cars and the spaces related to them as tourist assets, sites, events and as tourist products that satisfy tourists' needs. Moreover it connects the issue of car tourism to the marketing strategies of large car manufacturers and discusses the theory of tourism space highlighting the main tourism spaces in which car tourism develops. It presents multifunctional spaces, factories, adventure centres, Autostadt in Wolfsburg, museums, car exhibitions and race tracks. In the next chapter following an introduction to the problem of events the author describes events related to car tourism including races, rallies, driving schools and car fairs. The book ends with a summarizing chapter which includes a model of the function of car tourism as a separate type of tourism as well as a discussion presenting the main features, advantages and disadvantages of car tourism in the context of the tourism space theory.

Racing Classic Motorcycles Andy Reynolds, 2019 The life of a classic motorcycle racer who was fortunate enough to ride the best classic machines between 1976-2016 at the highest level and on some of the best known courses in the world. Told in his own words this book recounts his successes, friendships and hardships and gives great insight into the world of motorcycle racing.

**The Future of Motorsports** Hans Erik Næss, Simon Chadwick, 2023-06-12 This book takes stock of the position of motorsport in the 21st century and considers how it will continue to influence sport, business, politics and society in the future. Presenting a set of thematic essays and multi-disciplinary case studies the book demonstrates that motorsport continues to play a significant role in relationships between the automotive industry, nationalism, industrialisation and capitalism as well as motorsports position as a feature of contemporary popular culture. Examining issues such as event management and legacy, environmental sustainability and greenwashing, diversity and inclusion, the rise of gaming and esports and the use of sport as political soft power around the world across multiple motorsport disciplines the book shines fascinating new light on this innovative but sometimes problematic industry. This is essential reading for all advanced students, researchers, managers, strategists, sponsors and other stakeholders working at the nexus of motorsport, business, politics and culture.
