Bijdragen voor de geschiedenis der Nederlanden ,1946 *Elizabeth Stuart, Queen of Hearts* Nadine

Akkerman, 2021-11-25 The dazzling new biography of one of history's most misunderstood queens Elizabeth Stuart is one of the most misrepresented and underestimated figures of the seventeenth century. Labelled a spendthrift more interested in the theatre and her pet monkeys than politics or her children and long pitied as The Winter Queen, the direct ancestor of Elizabeth II was widely misunderstood. Nadine Akkerman's biography reveals an altogether different woman painting a vivid picture of a queen forged in the white heat of European conflict. Elizabeth Stuart, daughter of James VI and I, was married to Frederick V, Elector Palatine, in 1613. The couple were crowned King and Queen of Bohemia in 1619, only to be deposed and exiled to the Dutch Republic in 1620. Elizabeth then found herself at the epicentre of the Thirty Years War and the Civil Wars, political and military struggles that defined seventeenth century Europe. Following her husband's death in 1632, Elizabeth fostered a cult of widowhood, dressing herself and her apartments in black and conducting a long and fierce political campaign to regain her children's birthright by force if possible, wielding her pen with the same deft precision with which she once speared boars from horseback. Through deep immersion in the archives and masterful detective work, Akkerman overturns the received view of Elizabeth Stuart, showing her to be a patron of the arts and a canny stateswoman with a sharp wit and a long memory. On returning to England in 1661, Elizabeth Stuart found a country whose people still considered her their Queen of Hearts. Akkerman's biography reveals the impact Elizabeth Stuart had on both England and Europe, demonstrating that she was more than just the grandmother of George I.
