Racism in American Popular Media Brian D. Behnken, Gregory D. Smithers, 2015-03-24 This book examines how the media, including advertising, motion pictures, cartoons, and popular fiction, has used racist images and stereotypes as marketing tools that malign and debase African Americans, Latinos, American Indians, and Asian Americans in the United States. Were there damaging racist depictions in *Gone with the Wind* and children's cartoons such as *Tom and Jerry* and *Mickey Mouse*? How did widely known stereotypes of the Latin lover, the lazy Latino, the noble savage, and the violent warrior American Indian and the Asian as either a martial artist or immoral and tricky come about? This book utilizes an ethnic and racial comparative approach to examine the racism evidenced in multiple forms of popular media, enabling readers to apply their critical thinking skills to compare and analyze stereotypes, grasp the often subtle sources of racism in the everyday world around us, and understand how racism in the media was used to unite white Americans and exclude ethnic people from the body politic of the United States. Authors Brian D. Behnken and Gregory D. Smithers examine the popular media from the late 19th century through the 20th century to the early 21st century. This broad coverage enables readers to see how depictions of people of color, such as Aunt Jemima, have been consistently stereotyped back to the 1880s and to grasp how those depictions have changed over time. The book's chapters explore racism in the popular fiction, advertising, motion pictures, and cartoons of the United States and examine the multiple groups affected by this racism, including African Americans, Latino, and Asian.

Americans and American Indians Attention is also paid to the efforts of minorities particularly civil rights activists in challenging and combating racism in the popular media *The Negro a Beast; Or, in the Image of God; The Reasoner of the Age, the Revelator of the Century! the Bible as It Is! the Negro and His Relation to the Human Family! ... the Negro Not the Son of Ham .. - Scholar's Choice Edition* Charles Carroll,2015-02-12 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Christian Supremacy** Magda Teter,2023-05-16 Appalling events in recent years have brought home to us the pervasiveness of white supremacist views practices and structures in both the United States and in Europe This stunningly ambitious sweeping cultural and intellectual history explores their Christian origins It also argues for the enduring importance of these origins even if contemporary white supremacists do not always rely on explicitly religious rationales for their ideas Magda Teter s book traces modern day anti Jewish and anti Black prejudice back to pervasive notions of Christian superiority developed in the early Christian church She thus connects anti Jewish sentiments with anti Black racism without arguing that these are the same thing or that one led to the other Based on an examination of primary evidence across a wide geographical and historical array of sources theological legal artistic and philosophical Teter shows how the Christian claim of superiority emerged in a theological context in antiquity and was later implemented in a legal and political context when Christianity became a political power And in the early modern era when Europeans expanded their political reach beyond Europe with the establishment of commerce driven slaveholding empires Christian claims were transformed decisively into a racialized sense of superiority that became institutionalized in law and politics Less Than Human David Livingstone Smith,2024-09-04 A revelatory look at why we dehumanize each other with stunning examples from world history as well as today s headlines Winner of the 2012 Anisfield Wolf Book Award for Nonfiction Smith s compelling study and his argument that the study of dehumanization be made a global priority to prevent future Rwandas or Hiroshimas is well made and important Publishers Weekly Brute Cockroach Lice Vermin Dog Beast People often regard other members of humankind as less than human and use terms like these for those whom they wish to harm enslave or exterminate Dehumanization has made atrocities like the Holocaust the genocide in Rwanda and the slave trade possible But

it isn't just a relic of the past. We still find it in war, genocide, xenophobia, and racism. Smith shows that it is a dangerous mistake to think of dehumanization as the exclusive preserve of Nazis, communists, terrorists, Jews, Palestinians, or any other monster of the moment. We are all potential dehumanizers just as we are all potential objects of dehumanization. *Less Than Human* is the first book to illuminate precisely how and why we sometimes think of others as subhuman creatures. It draws on a rich mix of history, evolutionary psychology, biology, anthropology, and philosophy to document the pervasiveness of this phenomenon, describe its forms, and explain why we so often resort to it. *Less Than Human* is a powerful and highly original study of the roots of human violence and bigotry, and it is as timely as it is relevant. Smith offers an impressively thorough survey of dehumanization as it has been deployed against Jews, African Americans, and other Others as an accompaniment to exploitation and extermination. The New Abolition Gary Dorrien, 2015-09-29 The black social gospel emerged from the trauma of Reconstruction to ask what a new abolition would require in American society. It became an important tradition of religious thought and resistance, helping to create an alternative public sphere of excluded voices and providing the intellectual underpinnings of the civil rights movement. This tradition has been seriously overlooked despite its immense legacy. In this groundbreaking work, Gary Dorrien describes the early history of the black social gospel from its nineteenth-century founding to its close association in the twentieth century with W. E. B. Du Bois. He offers a new perspective on modern Christianity and the civil rights era by delineating the tradition of social justice theology and activism that led to Martin Luther King Jr.

Hybrid Hate Tudor Parfitt, 2020-11-06 Hybrid Hate is the first book to study the conflation of antisemitism and anti Black racism As objects of racism Jews and Blacks have been linked together for centuries as peoples apart from the general run of humanity In this book Tudor Parfitt investigates the development of antisemitism anti Black racism and race theory in the West from the Renaissance to the Second World War Parfitt explains how Jews were often perceived as Black in medieval Europe and the conflation of Jews and Blacks continued throughout the period of the Enlightenment With the discovery of a community of Black Jews in Loango in West Africa in 1777 and later of Black Jews in India the Middle East and other parts of Africa the notion of multiracial Jews was born Over the following centuries the figure of the hybrid Black Jew was drawn into the maelstrom of evolving theories about race hierarchies and taxonomies Parfitt analyses how Jews and Blacks were increasingly conflated in a racist discourse from the mid nineteenth century to the period of the Third Reich as the two fundamental prejudices of the West were combined Hybrid Hate offers a new interpretation of the rise of antisemitism and anti Black racism in Europe and casts light on contemporary racist discourses in the United States and Europe
