Washington Collection: the Story of My Life and Work, Character Building, the Negro Problem, the Future of the American Negro** Booker T. Washington, 2021 [The Negro Problem](#) Booker T. Washington, 2015-11-27 From 1890-1915 the most influential black man in America was Booker T Washington who less than 35 years earlier had been born into slavery The young boy worked laboriously until emancipation before going on to seek an education By the time he was 40 he was consolidating a network of supporters that came to be known as the Tuskegee Machine helping coordinate action with the support of black businesses religious communities and others With his position of power Washington spoke out against Jim Crow laws and Southern disfranchisement of blacks By the early 20th century Washington's tactics were questioned by other black leaders notably W E B Du Bois who wanted to protest more vehemently in an effort to secure civil rights Washington believed confrontation would only hurt the cause and that cooperation and softer tones would wear down racism over time To that end both men wrote voluminously in support of their stances and thoughts Washington wrote 14 books including his renowned autobiography *Up From Slavery* which was published in 1901 Washington continues to be recognized for helping to improve the relationships between blacks and whites as well as helping blacks get further access to education and civil rights **The Negro Problem** Booker T. Washington, 2003 One hundred years ago African Americans looked forward to the new twentieth century with mixed feelings of pride and discouragement While they could point to the tremendous progress many of them had made since the end of slavery under the dynamic leadership of Booker T Washington the majority of White Americans showed little willingness to accept Blacks as equals and in the South segregation was practically institutionalized through the recently enacted Jim Crow laws It was in these uncertain times that this compelling collection of articles by leading African Americans was published to address what was then commonly known as the Negro problem The collection begins with a piece by Booker T Washington on the value and purpose of stressing industrial education for Black Americans This is followed by the now famous article by W E B DuBois called *The Talented Tenth* in which he argues for the cultivation of an elite corps of Black intellectuals who would then work to uplift the African American masses Other contributors discuss the disenfranchisement of Blacks the broader subject of the people of color and outstanding representative Black Americans **BOOK JACKET** **The Negro Problem** Booker T.
