British Women Travellers in the Long Nineteenth Century Marilyn D. Button,Jessica A. Sheetz-Nguyen,2025-03-05 During the long nineteenth century British women reframed the masculine paradigm of the Grand Tour They created a feminist travel gaze intentionally or unintentionally that differed from that of male peers Unlike their brothers who went for personal edification women with means left their English homes for the great Italian cities of Florence Naples and Rome to escape

personal disappointments and the social limitations imposed by parents spouses and society The anonymity of travel to a distant land and new freedoms fostered political and creative achievements including entrepreneurial journalism literary masterpieces and social advocacy for their gender which redefined the contours of the Anglo Italian cultural landscape The historical evidence presented here testifies to the life changing capacity of travel and firmly demonstrates how British women s history and literature enriches and broadens narratives about Britain and the World **Writing With Skill, Level 1:**

Titan William R. Nester,2016-05-31 When the leaders of the French Revolution executed Louis XVI and Marie Antoinette in 1793 they sent a chilling message to the hereditary ruling orders in Europe Believing that monarchy anywhere presented a threat to democratic rule in France the leaders of the revolution declared war on European

aristocracies including those of Great Britain For more than twenty years thereafter France and England waged a protracted war that ended in British victory In Titan William R Nester offers a deeply informed and thoroughly fascinating narrative of how England accomplished this remarkable feat Between 1789 and 1815 British leaders devised funded and led seven coalitions against the revolutionary and Napoleonic governments of France In each enterprise statesmen and generals searched for order amid a complex welter of bureaucratic political economic psychological technological and international forces Nester combines biographies of great men the likes of William Pitt Horatio Nelson and Arthur Wellesley with an explanation of the critical decisions they made in Britain s struggle for power and his own keen analysis of the forces that operated beyond their control Their efforts would eventually crush France and Napoleon and establish a system of European power relations that prevented a world war for nearly a century The interplay of individuals and events the importance of conjunctures and contingency the significance of Britain s island character and resources all come into play in Nester s exploration of the art of British military diplomacy The result is a comprehensive and insightful account of the endeavors of statesmen and generals to master the art of power in a complex battle for empire
