Neo Conned Again Hypocrisy Lawlessness And The Rape Of Iraq:

Neo-conned! Again D. L. O'Huallachain, J. Forrest Sharpe, 2007 **Neo-Conned! Again** J. F. Sharpe, 2006-10 The moral political and legal problems surrounding the U S invasion and occupation of Iraq are addressed with uncommon frankness in this collection of essays by some of the world's most influential academics lawyers journalists politicians and military intelligence and media experts Contributions include academics such as Noam Chomsky Immanuel Wallerstein and Claes Ryn journalists Milton Viorst Robert Fisk Kirkpatrick Sale and Justin Raimondo former CIA professional Ray McGovern former Defense Intelligence Agency professional W Patrick Lang and Fr Jean Marie Benjamin personal friend of the former Deputy Prime Minister of Iraq Traiq Aziz Discussing the Iraq war and related issues such as the legal foundation of the war on terror the detention practices at Guantanamo bay and the roots of the American neoconservative ideology the essays illustrate the hypocrisy and illegality of America's stance on terrorism and its policies of aggression in the Middle East

Neo-conned! D. L. O'Huallachain, J. Forrest Sharpe, 2005 Asserting the traditional Christian just war doctrine against the neoconservative caricature that masks violence and aggression Includes bibliographical references p 446 447 *The State of the American Mind: Stupor and Pathetic Docility* Amechi Okolo PhD, 2010-06-10 This book *The State of the American Mind Stupor and Pathetic Docility* Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of America's history and sociology that

Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

The Fall of the House of Bush Craig Unger, 2007-11-13 The presidency of George W Bush has led to the worst foreign policy decision in the history of the United States the bloody unwinnable war in Iraq How did this happen Bush s fateful decision was rooted in events that began decades ago and until now this story has never been fully told From Craig Unger the author of the bestseller House of Bush House of Saud comes a comprehensive deeply sourced and chilling account of the secret relationship between neoconservative policy makers and the Christian Right and how they assaulted the most vital safeguards of America s constitutional democracy while pushing the country into the catastrophic quagmire in the Middle East that is getting worse day by day Among the powerful revelations in this book Why George W Bush ignored the sage advice of his father George H W Bush and took America into war How Bush was convinced he was doing God s will How Vice President Dick Cheney manipulated George W Bush disabled his enemies within the administration and relentlessly pressed for an attack on Iraq Which veteran government official with the assent of the president s father protested passionately that the Bush administration was making a catastrophic mistake and was ignored How information from forged documents that had already been discredited fourteen times by various intelligence agencies found its way into President Bush s State of the Union address in which he made the case for war with Iraq How Cheney and the neocons assembled a shadow national security apparatus and created a disinformation pipeline to mislead America and start the war A seasoned award winning investigative reporter connected to many back channel political and intelligence sources Craig Unger knows how to get the big story and this one is his most explosive yet Through scores of interviews with figures in the Christian Right the neoconservative movement the Bush administration and sources close to the Bush family as well as intelligence agents in the CIA the Pentagon and Israel Unger shows how the Bush administration s certainty that it

could bend history to its will has carried America into the disastrous war in Iraq dooming Bush's presidency to failure and costing America thousands of lives and trillions of dollars Far from ensuring our security the Iraq War will be seen as a great strategic pivot point in history that could ignite wider war in the Middle East particularly in Iran Provocative timely and disturbing The Fall of the House of Bush stands as the most comprehensive and dramatic account of how and why George W Bush took America to war in Iraq *Breaking the Colonial "Contract"* Everisto Benyera, 2020-05-22 The book exposes various mechanisms and methods by which covert colonial mechanisms are employed to perpetuate colonialism especially in Africa Less overt and more covert perpetuation of colonialism is done through the use of networks The main achievement of the initial phase of colonialism was the establishment of networks that are nefarious and omnipresent constituting distributed presence which allows for action at a distance As a result colonial subjects became willing participants in these processes unbeknownst to them which perpetuated their own colonialism The book exposes forms of colonialism where manufactured consent is used to perpetuate colonialism Trapped in this capitalist Western Christian language and moral world order without sovereignty African countries continuously sink deeper into the colonial quagmire Modern Just War Theory Michael P. Democratic Peace Across the Middle East Yakub Halabi, 2016-05-24 From Tunisia to Egypt and from Israel to Iran the debates surrounding the concept of democracy in the Middle East are never straightforward This has been particularly evident since the events of 2009 in Iran and the uprisings across the Arab world in late 2010 and 2011 Against this backdrop Democratic Peace across the Middle East critically analyses the prospects for democracy throughout the region specifically asking whether political and social modernisation are absolute preconditions for democratic peace to take hold in the region or whether democracy without modernisation might be enough It explores the dynamics between neo patriarchy and Islam on the one hand and democratisation and modernisation on the other and also considers the prospect of the political accommodation of opposition groups Incorporating an analysis of a variety of key dynamics which affect each Middle Eastern country in turn such as tribal and sectarian identity Islamism and the structure of political party systems this book will appeal to those researching the Middle East and its patterns of rule

Dark Crusade Clifford A Kiracofe, 2009-05-30 Dark Crusade offers the most nuanced analysis yet written of the dangerous and complex phenomenon of Christian Zionism s influence on American foreign policy Despite its efforts to promote peace and instil democracy in the region America is viewed by many in the Middle East as a dishonest broker waging a dark crusade against its enemies in covert collaboration with Israel The crucial hostility to Arab and Palestinian interests of the so called Zionist lobby in the US has long been recognised But it is another less familiar element in US politics that increasingly calls the shots on Capitol Hill directing the course of American foreign policy there Christian Zionism Christian Zionists now influence not only the Republican Party but also the White House and Congress Protestant fundamentalists anticipating the end of the world they have long made common cause with the most extreme political elements in the state of Israel But why Jews and fundamentalist Christians hardly look like natural allies Adhering to a feverish apocalyptic ideology Christian Zionists nevertheless believe that restoration of the entire biblical Holy Land to the Jewish people will result the thousand year reign of Christ During his
