Dutch Fortifications Jean-Denis G.G. Lepage, 2021-05-26 Covering 2000 years from Roman times through the Cold War this book describes the evolution of military architecture in the territory today known as the Netherlands A vital ally of the Dutch their numerous rivers and canals played a central role in the defensive strategy of the country particularly since the 17th century A general history covers the innovators architects and engineers of each period and their involvement in the development of fortifications Illustrations detail the technical features of defensive structures alongside discussion of the weapons and tactics they were designed confront

The iter italicum and the Northern Netherlands Ad Tervoort, 2004-12-01 The iter italicum the peregrinatio academica to prestigious Italian universities holds a special place in the history of late medieval universities Students from all over Europe flocked to the studia on the peninsula including several well known but how many more unknown scholars and humanists from the Northern Netherlands Nevertheless this group of adventurous students has not yet been honoured with a monograph This volume fills that gap It provides the first comprehensive analysis of the nature of the iter italicum from the Northern Netherlands in the late medieval period Through a systematic investigation of the academic activities background and careers of 640 many hitherto unknown students the author unravels the character of the iter italicum and its place in and contribution to society and culture in this transitional period for the Low Countries

Medieval French Interlocutions Thomas O'Donnell, Jane Gilbert, Brian J. Reilly, 2024 Specialists in other languages offer perspectives on the widespread use of French in a range of

contexts from German courtly narratives to biblical exegesis in Hebrew French came into contact with many other languages in the Middle Ages not just English Italian and Latin but also Arabic Dutch German Greek Hebrew Irish Occitan Sicilian Spanish and Welsh Its movement was impelled by trade pilgrimage crusade migration colonisation and conquest and its contact zones included Muslim Jewish and Christian communities among others Writers in these contact zones often expressed themselves and their worlds in French but other languages and cultural settings could also challenge reframe or even ignore French users prestige and self understanding The essays collected here offer cross disciplinary perspectives on the use of French in the medieval world moving away from canonical texts well known controversies and conventional framings Whether considering theories of the vernacular in Outremer Marco Polo and the global Middle Ages or the literary patronage of aristocrats and urban patricians their interlocutions throw new light on connected and contested literary cultures in Europe and beyond

Early Netherlandish Painting National Gallery of Art (U.S.), John Oliver Hand, Martha Wolff, 1986 The volume contains entries for paintings in the National gallery that were produced in the fifteenth and sixteenth centuries by artists from the Netherlands The entries are arranged alphabetically by artist a short biography and bibliography for each artist is followed by individual entries on the paintings each in order of acquisition The authors address traditional questions of attributes and iconography in addition they examine the social economic and religious context in which the individual work of art functioned The volume is also probable the first museum catalogue to include the results of examination by infrared reflectography and dendrochronological analysis

The Political Economy of the Dutch Republic Oscar Gelderblom, 2016-02-24 In the first half of the seventeenth century the Dutch Republic emerged as one of Europe s leading maritime powers The political and military leadership of this small country was based on large scale borrowing from an increasingly wealthy middle class of merchants manufacturers and regents This volume presents the first comprehensive account of the political economy of the Dutch republic from the sixteenth to the early nineteenth century Building on earlier scholarship and extensive new evidence it tackles two main issues the effect of political revolution on property rights and public finance and the ability of the nation to renegotiate issues of taxation and government borrowing in changing political circumstances The essays in this volume chart the Republic s rise during the seventeenth century and its subsequent decline as other European nations adopted the Dutch financial model and warfare bankrupted the state in the eighteenth century By following the United Provinces s financial ability to respond to the changing national and international circumstances across a three hundred year period much can be learned not only about the Dutch experience but the wider European implications as well

Laughter, Jestbooks and Society in the Spanish Netherlands Johan Verberckmoes, 1999-03-15 Prior to the modern age laughter raised passions and activated the body to sweat and shake Derision was not distinguished from joy Deceiving the senses by tricks or funny stories made all people laugh loudly regardless of class Johan Verberckmoes describes in this innovating book the hotchpotch of comic images and stories in

Flandres during the rule of the Spanish Habsburgs from 1500 to 1700 It challenges the Bakhtinian idea of a caesura in the history of laughter around 1600 **The Dutch Revolt and Catholic Exile in Reformation Europe** Geert H. Janssen, 2014-09-08 The Dutch Revolt of the sixteenth century sparked one of the largest refugee crises of Reformation Europe This book explores the flight exile and eventual return of Catholic men and women during the war By mapping the Catholic diaspora across Europe Geert H Janssen explains how exile worked as a catalyst of religious radicalisation and transformed the world views networks and identities of the refugees Like their Protestant counterparts the displaced Catholic communities became the mobilising forces behind a militant International Catholicism The Catholic exile experience thus facilitated the permanent separation of the northern and southern Netherlands Drawing on diaries letters and evidence from material culture this book offers a penetrating picture of the lives of early modern refugees and their agency in the Counter Reformation **Magnanimous Dukes and Rising States** Robert Stein, 2017-02-23 In the late fourteenth and the fifteenth centuries the Dukes of Valois Burgundy created a composite monarchy in the Netherlands an area that had been dominated for centuries by several regional dynasties In this way they laid the foundation for the modern states of the Netherlands Belgium and Luxemburg The rise of the House of Burgundy can be read as the success story of a dynasty that in little over a century managed to assemble a great number of principalities thus creating a new state The Burgundian takeover however resulted in a modernization of administration jurisdiction and finances The process of unification and the character of the union are the central topics of *Magnanimous Dukes and Rising States* Robert Stein mirrors continuity and modernisation in Burgundian times with the bankruptcy of the former dynasties and the decline of feudal government The powerful towns played an important background role it was only with their support that a unification of the Netherlands was possible but this support was not unselfish This study is about the development of power relations and institutions in the field of tension between ruler and subject between centralisation and particularism *Dutch and Flemish Furniture* Esther Singleton, 2020-08-14 Reproduction of the original Dutch and Flemish Furniture by Esther Singleton [The Journal of Medieval and Early Modern Studies](#) , 1997 **Dutch** Roland Willemyns, 2013-03-15 Offers a well researched and highly readable survey of the language in all its historical geographic and social aspects **The Journal of Medieval and Renaissance Studies** , 1997 *Evolution of the Dutch Nation* Bernard Hubertus Maria Vlekke, 1963 [The Transformation of Vernacular Expression in Early Modern Arts](#) Joost Keizer, Todd Richardson, 2011-10-14 Including contributions by historians of early modern European art architecture and literature this book examines the transformative force of the vernacular over time and different regions as well as the way the concept of the vernacular itself changes in the period **Jan Gossart and the Invention of Netherlandish Antiquity** Marisa Bass, 2016-03-29 This is the first in depth historical study of Jan Gossart ca 1478 1532 one of the most important painters of the Renaissance in northern Europe Providing a richly illustrated narrative of the Netherlandish artist s life and art Marisa Anne Bass shows how Gossart s

paintings were part of a larger cultural effort in the Netherlands to assert the region's ancient heritage as distinct from the antiquity and presumed cultural hegemony of Rome. Focusing on Gossart's vibrant monumental mythological nudes, the book challenges previous interpretations by arguing that Gossart and his patrons did not slavishly imitate Italian Renaissance models but instead sought to contest the idea that the Roman past gave the Italians a monopoly on antiquity. Drawing on many previously unused primary sources in Latin, Dutch, and French, Jan Gossart and the Invention of Netherlandish Antiquity offers a fascinating new understanding of both the painter and the history of northern European art at large. **Civil Affairs Handbook** United States. Army Service Forces, 1943 **The Bookshop of the World** Andrew Pettegree, Arthur der Weduwen, 2019-01-01 The untold story of how the Dutch conquered the European book market and became the world's greatest bibliophiles: an instant classic on Dutch book history. BMGN Low Countries Historical Review. An excellent contribution to book history. Robert Darnton New York Review of Books The Dutch Golden Age has long been seen as the age of Rembrandt and Vermeer whose paintings captured the public imagination and came to represent the marvel that was the Dutch Republic. Yet there is another largely overlooked marvel in the Dutch world of the seventeenth century: books. In this fascinating account, Andrew Pettegree and Arthur der Weduwen show how the Dutch produced many more books than pictures and bought and owned more books per capita than any other part of Europe. Key innovations in marketing, book auctions, and newspaper advertising brought stability to a market where elsewhere publishers faced bankruptcy and created a population uniquely well informed and politically engaged. This book tells for the first time the remarkable story of the Dutch conquest of the European book world and shows the true extent to which these pious, prosperous, quarrelsome, and generous people were shaped by what they read.
