The Virtual Community, revised edition Howard Rheingold, 2000-10-23 Howard Rheingold tours the virtual community of online networking Howard Rheingold has been called the First Citizen of the Internet In this book he tours the virtual community of online networking He describes a community that is as real and as much a mixed bag as any physical community one where people talk argue seek information organize politically fall in love and dupe others At the same time that he tells moving stories about people who have received online emotional support during devastating illnesses he acknowledges a darker side to people s behavior in cyberspace Indeed contends Rheingold people relate to each other online much the same as they do in physical communities Originally published in 1993 The Virtual Community is more timely than ever This edition contains a new chapter in which the author revisits his ideas about online social communication now that so much more of the world s population is wired It also contains an extended bibliography

HCI Remixed Thomas Erickson, David W. McDonald, 2007-12-21 Personal and reflective essays that describe how particular works whether papers books or demos from classics to forgotten gems have influenced each writer s approach to HCI Over almost three decades the field of human computer interaction HCI has produced a rich and varied literature Although the focus of attention today is naturally on new work older contributions that played a role in shaping the trajectory and character of the field have much to tell us The contributors to HCI Remixed were asked to reflect on a single work at least ten years old that influenced their approach to HCI The result is this collection of fifty one short engaging and idiosyncratic essays reflections on a range of works in a variety of forms that chart the emergence of a new field An article a demo a book any of these can solve a problem demonstrate the usefulness of a new method or prompt a shift in perspective HCI Remixed offers us glimpses of how this comes about The contributors consider such HCI classics as Sutherland s Sketchpad Englebart s demo of NLS and Fitts on Fitts Law and such forgotten gems as Pulfer s NRC Music Machine and Galloway and Rabinowitz s Hole in Space Others reflect on works somewhere in between classic and forgotten Kidd s The Marks Are on the Knowledge Worker King Beach s Becoming a Bartender and others Some contributors turn to works in neighboring disciplines Henry Dreyfuss s book on industrial design for example and some range farther afield to Lovelock s Gaia hypothesis and Jane Jacobs s The Death and Life of Great American Cities Taken together the essays offer an accessible lively and engaging introduction to HCI research that reflects the diversity of the field s beginnings

Bowling Alone: Revised and Updated Robert D. Putnam, 2001-08-01 Once we bowled in leagues usually after work but no longer This seemingly small phenomenon symbolizes a significant social change that Robert Putnam has identified in this brilliant volume Bowling Alone which The Economist hailed as a prodigious achievement Drawing on vast new data that reveal Americans changing behavior Putnam shows how we have become increasingly disconnected from one another and how social

structures whether they be PTA church or political parties have disintegrated Until the publication of this groundbreaking work no one had so deftly diagnosed the harm that these broken bonds have wreaked on our physical and civic health nor had anyone exalted their fundamental power in creating a society that is happy healthy and safe Like defining works from the past such as *The Lonely Crowd* and *The Affluent Society* and like the works of C Wright Mills and Betty Friedan Putnam's *Bowling Alone* has identified a central crisis at the heart of our society and suggests what we can do

A New History of Modern Computing Thomas Haigh, Paul E. Ceruzzi, 2021-09-14 How the computer became universal Over the past fifty years the computer has been transformed from a hulking scientific supertool and data processing workhorse remote from the experiences of ordinary people to a diverse family of devices that billions rely on to play games shop stream music and movies communicate and count their steps In A New History of Modern Computing Thomas Haigh and Paul Ceruzzi trace these changes A comprehensive reimagining of Ceruzzi's A History of Modern Computing this new volume uses each chapter to recount one such transformation describing how a particular community of users and producers remade the computer into something new Haigh and Ceruzzi ground their accounts of these computing revolutions in the longer and deeper history of

computing technology They begin with the story of the 1945 ENIAC computer which introduced the vocabulary of programs and programming and proceed through email pocket calculators personal computers the World Wide Web videogames smart phones and our current world of computers everywhere in phones cars appliances watches and more Finally they consider the Tesla Model S as an object that simultaneously embodies many strands of computing

The Internet and Social Change Carla G. Surratt, 2017-07-06 Starting with only four hosts in 1969 the Internet consisted of more than 56 million hosts by the end of 1999 In 1993 the World Wide Web was only 130 sites strong six years later it boasted more than seven million sites Despite this explosive growth of the Internet and computer technology little is known about the social implications of computer mediated communications In this work the author uses social science theory to evaluate the social transformations taking place today She asks whether human beings use the Internet to change basic social institutions and if so whether these changes are a matter of degree only or represent an overthrow of previous modes of organizing The work examines the rise of the Internet as the logical extension of the Industrial Revolution and urbanization consistent with the basic tenets of modernity and offers a new conceptual framework through which to understand the Internet
