Neurology Oral Boards Review Eroboghene E. Ubogu,2007-11-05 It was 6 AM and the New Orleans Hilton lobby was dotted with young neurologists in suits wandering aimlessly many mumbling to themselves all with the eyes of a rough night on call This was the morning of my Oral Board examination Despite three years as a neurology resident additional time as a fellow and the experience of having performed probably more than 1000 neurological examinations by this time I was deathly afraid of what this day would bring The exam organizers had met with us the day before and given the overwhelming message to RELAX Certainly this is sound advice prior to any examination but the requisite for passing is knowing the material This requires preparation as well as practice An excellent first step is to use Eroboghene Ubogu s *Neurology Oral Boards Review* in the months before you begin studying for the Boards in earnest A quick read will provide an internal assessment of your strengths and weaknesses which should guide the study plan The major neurology textbooks which anyone sitting for the Boards should already have in their possession should be studied Finding a senior faculty member to quiz you is very helpful There is no substitute for finding one of your former residency supervisors or a senior colleague in your group practice to perform a simulated Oral Board session **Neurology Clinical**

Case Studies ,2003 *Neurology Clinical Case Studies* by Morris Levin MD Dartmouth Medical School provides 93 cases describing the most important clinical situations to prepare candidates for the Oral Board Exam Each case gives step by step analysis of possible diagnoses leading to the correct diagnostic conclusion and then an explanation of the appropriate treatment This book is useful to neurologists in training because it simulates the process of analysis used in actual practice
