Patient Safety First Responsive Regulation In Health Care:

Patient Safety First Paul Dugdale, 2020-07-29 Each year more people die in health care accidents than in road accidents. Increasingly complex medical treatments and overstretched health systems create more opportunities for things to go wrong and they do. Patient safety is now a major regulatory issue around the world and Australia has been at its leading edge. Self-regulation by professional and industry groups is now widely regarded as insufficient and government is stepping in. In **Patient Safety First**, leading experts survey the governance of clinical care. Framed within a theory of responsive regulation, core regulatory approaches to patient safety are analysed for their effectiveness, including information systems, corporate and public institution governance models, the design of safe systems, the role of medical boards, open disclosure and public inquiries. **Patient Safety First** includes chapters by Bruce Barraclough, John Braithwaite, Stephen Duckett and Ian Freckleton. SC. It is essential reading for all medical and legal professionals working in patient safety as well as readers in public health, health policy and governance.

Health Workforce Governance Stephanie D. Short, 2016-04-22 With increasing recognition of the international market in health professionals and the impact of globalism on regulation, the governance of the health workforce is moving towards greater public engagement and increased transparency. This book discusses the challenges posed by these processes, such as improved access to health services and how structures can be reformed so that good practice is upheld and quality of service and patient safety are ensured. With contributions from regulators, academics, lawyers and health professionals, this book presents arguments from multiple perspectives. Of global relevance, it brings together concerns about access, quality and safety within the framework of the health workforce governance continuum and will be of interest to policy makers, regulators, health professionals, academics, legal practitioners, insurers, students and researchers.

Regulatory Theory Peter Drahos, 2017-02-23 This volume introduces readers to regulatory theory. Aimed at practitioners, postgraduate students and those interested in regulation as a cross-cutting theme in the social sciences, **Regulatory Theory** includes chapters on the social psychological foundations of regulation as well as theories of regulation such as responsive regulation, smart regulation and nodal governance. It explores the key themes of compliance, legal pluralism, meta-regulation, the rule of law, risk, accountability, globalisation and regulatory capitalism. The environment, crime, health, human rights, investment, migration and tax are among the fields of regulation considered in this ground-breaking book. Each chapter introduces the reader to key concepts and ideas and contains suggestions for further reading. The contributors, who either are or have been connected to the Regulatory Institutions Network (RegNet) at The Australian National University, include John Braithwaite, Valerie Braithwaite, Peter Grabosky, Neil Gunningham, Fiona Haines, Terry Halliday, David Levi-Faur, Christine Parker, Colin Scott and Clifford Shearing.

Improving Health Care Safety and Quality Judith Healy, 2016-05-13 Responding to the public concern caused by recent hospital scandals and accounts of unintended harm to patients, this author draws on her experience of analysing the health care systems of over a dozen countries and examines whether greater

regulation has increased patient safety and health care quality The book adopts a new approach to mapping developments in health care systems in Europe North America and Australia and pieces together evidence of which regulatory strategies and mechanisms work well to ensure safer patient care It identifies the regulatory bodies the regulatory principles and the implementation strategies adopted to improve governance in health care systems and suggests a conceptual framework for responsive regulation The book will be of interest to government actors health care professionals and medico legal scholars

The Future of Mental Health, Disability and Criminal Law Kay Wilson, Yvette Maker, Piers Gooding, Jamie Walvisch, 2023-09-15 This book brings together contributions from twenty three world leading scholars and commentators that address a range of contemporary and pressing international themes in mental health disability and criminal law The authors use the work of internationally renowned academic Emeritus Professor Bernadette McSherry as a springboard to reflect on recent developments in these areas of law and to anticipate the future directions they may take In doing so they aim to inform and inspire a new generation of mental health disability and criminal law scholars advocates and reformers The book is divided into four substantive sections reforming mental health and disability law regulating coercion and restrictive practices improving access to justice and the criminal law and transforming mental health law It also includes an introduction from the editors and an afterword from Emeritus Professor McSherry The book is aimed at regulators policymakers lawyers clinicians consumer advocates and academics who are interested in the urgent and contentious issues surrounding the reform and development of mental health disability and criminal law It will help them understand the key issues and problems and presents suggestions for reform The book is interdisciplinary and international in its focus Chapters 9 and 13 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Restorative and Responsive Human Services Gale Burford, John Braithwaite, Valerie Braithwaite, 2019-03-04 In Restorative and Responsive Human Services Gale Burford John Braithwaite and Valerie Braithwaite bring together a distinguished collection providing rich lessons on how regulation in human services can proceed in empowering ways that heal and are respectful of human relationships and legal obligations The human services are in trouble combining restorative justice with responsive regulation might redeem them renewing their well intended principles Families provide glue that connects complex systems What are the challenges in scaling up relational practices that put families and primary groups at the core of health education and other social services This collection has a distinctive focus on the relational complexity of restorative practices How do they enable more responsive ways of grappling with complexity than hierarchical and prescriptive human services Lessons from responsive business regulation inform a re imagining of the human services to advance wellbeing and reduce domination Readers are challenged to re examine the perverse incentives and contradictions buried in policies and practices How do they undermine the capacities of families and communities to solve problems on their own terms This book will

interest those who harbor concerns about the creep of domination into the lives of vulnerable citizens It will help policymakers and researchers to re focus human services to fundamental outcomes at the foundation of sustainable democracies This book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
