Patient Centered Pharmacology Learning System For The Conscientious Prescriber

**Constance G Visovsky, Cheryl H.
Zambroski, Rebecca M. Lutz**

Patient Centered Pharmacology Learning System For The Conscientious Prescriber:

Patient-Centered Pharmacology William N. Tindall, Mona Sedrak, John M. Boltri, 2013-08-06 Using an integrated approach this singular text focuses on patient first helping you consider each patient as a unique individual with specific health concerns and characteristics that affect therapeutic decision making and drug efficacy Organized by disease state this book will introduce you to general drug classifications and the medicinal agents most likely to be encountered in primary care settings It encompasses the pharmacological principals dosing patient education pharmacodynamics and therapeutic parameters and indications for commonly prescribed drugs

Patient-Centered Prescribing Jon Dowell, Brian Williams, David Snadden, 2018-04-19 Series Editors Moira Stewart Judith Belle Brown and Thomas R Freeman Half of all prescribed medicines are used in a sub optimal manner and clinicians struggle to find ways of improving the situation There is a move towards greater partnership with patients but concordance shared decision making between patients and healthcare professionals is a growing challenge for the profession This practical book offers numerous real life case studies to demonstrate the way the patient centered model combined with other behavioural models can result in a logical approach to prescribing for difficult clients including non compliant and other challenging patients Patient Centered Prescribing fully considers the very complex nature of the issues at hand ethical questions time restrictions and financial matters to produce a realistic analysis of the difficulties to be overcome in achieving better practice This book is ideal for doctors nurses and pharmacists and postgraduate students of medicine pharmacy and nursing It is also of great interest to medical educators particularly those teaching primary care and communication skills and to everyone involved in developing doctor patient partnerships

Robinson,2019-10-17 Textbook The only text that meets all AACN NONPF criteria Prescribing Pearls insights from expert practitioners on how to increase patient compliance analyze potential drug interactions and improve treatment selection reasoning Discussions of the application of advanced pharmacotherapeutics to the real world of clinical practice Coverage of pathophysiology as it relates to the use of specific drugs Easy to understand illustrations of drug physiology and how drugs work in the body Tables that detail commonly used

drugs pharmacokinetics drug food interactions dosage schedules and available dosage forms On the Horizon boxes highlighting potentially useful drugs currently in clinical trials Davis Edge Online progressive quizzing platform with 900 board style questions that align with the Pharmacotherapeutics for Advanced Practice Nurse Prescribers text with page references Comprehensive rationales for both correct and incorrect responses to promote in depth understanding and comprehension Responsive design for access from laptop tablet and mobile devices making study on the go easy

Prescribing Skills Workbook Daniel Norton,Nicholas Norton,Jane Caisley,Rosie Furner,Elizabeth Hamilton,2014-05-30 Prescribing medications safely is a cornerstone of clinical practice but students receive little or no teaching in the practicalities of prescribing Instead they are often left to learn on the ward which inevitably leaves gaps in their knowledge Unsurprisingly prescribing errors among junior doctors are common and can cause significant harm to patients This is a cause for concern with the GMC and a potential solution in the form of a national exam has been proposed Prescribing Skills Workbook is designed to help students and junior doctors bridge the gap between understanding the science of pharmacology and accurately writing a prescription on a patient s drug chart The workbook format offers an ideal way to practice by completing a series of realistic life size charts in response to a clinical scenario The book features 45 exercises each one carefully chosen to test the reader s grasp of a key principle such as management of the patient on warfarin Each exercise begins with a short scenario next the reader is invited to complete a chart based on the details in the case then follows an answer section containing a correctly completed chart together with a summary of the main clinical and educational aspects of the exercise Key Points A unique resource for medical students and foundation doctors to improve their understanding of the principles of safe prescribing and practice the physical act of filling out a drug chart correctly 45 blank hospital charts replicate the experience of completing a realistic life size prescription with 45 corresponding charts filled out correctly to enable the reader to compare identify and rectify errors DRUGCHARTS checklist provides systematic framework for accurate prescribing by highlighting the key items to consider in each case Key points boxes highlight the main learning objectives in each exercise Short introductory chapter includes tips for safe prescribing **Clinical Skills for Pharmacists** Karen J. Tietze,2011-03-17 This is a Pageburst digital textbook Covering the skills needed for pharmaceutical care in a patient centered pharmacy setting Clinical Skills for Pharmacists A Patient Focused Approach 3rd Edition describes fundamental skills such as communication physical assessment and laboratory and diagnostic information as well as patient case presentation therapeutic planning and monitoring of drug intake Numerous case examples show how skills are applied in clinical situations Now in full color this edition adds more illustrations and new coverage on taking a medication history physical assessment biomarkers and drug information Expert author Karen J Tietze provides unique pharmacy specific coverage that helps you prepare for the NAPLEX and feel confident during patient encounters Coverage of clinical skills prepares you to be more involved with patients and for greater physical assessment and counselling responsibilities with

discussions of communication taking a medical history physical assessment reviewing lab and diagnostic tests and monitoring drug therapies A logical organization promotes skill building with the development of each new skill building upon prior skills Learning objectives at the beginning of each chapter highlight important topics Self assessment questions at the end of each chapter help in measuring your comprehension of learning objectives Professional codes of ethics are described in the Ethics in Pharmacy and Health Care chapter including confidentiality HIPAA research ethics ethics and the promotion of drugs and the use of advance directives in end of life decisions Numerous tables summarize key and routinely needed information Downloadable customizable forms on the companion Evolve website make it easier to perform tasks such as monitoring drug intake and for power of attorney A full color design and an increase to 150 photos and drawings better illustrates concepts techniques and equipment Updated Taking Medication Histories chapter includes added coverage of the data to obtain while taking a medication history as well as additional sections on obtaining medication names on demand medication information and the pharmacist s role in immunization Updated and expanded Physical Assessment Skills chapter includes detailed descriptions of commonly used equipment and vital signs with more pharmacist specific examples so you can feel more confident in handling real life situations Updated Researching and Providing Drug Information chapter reflects current technology and information sources and includes review questions on drug information A new biomarker section in the Review of Laboratory and Diagnostic Tests chapter aids in treatment planning explaining the different types of biomarkers and how they are used Skills checklists cover how to perform clinical skills such as developing a monitoring plan Application activities at the end of each chapter include more case studies to help you apply concepts and solve problems A Chapter Acronym Index conveniently located on the front and back inside covers offers easy lookup for many commonly used acronyms and their definitions Video clips on the companion Evolve website show a pharmacist performing various clinical skills including history taking and physical assessment Animations on Evolve show key disease states and highlight other relevant concepts and an audio glossary includes pronunciations of 241 terms
