Ledbetter, Paul R.V. Johnson, 2017-07-31 This book provides in depth practical advice on how to manage children with endocrine conditions that may benefit from surgery It is more detailed than general pediatric surgery texts and more surgically oriented than endocrinology texts The first section is devoted to the thyroid and parathyroid with detailed discussion of thyroid nodules thyroid cancer hyperthyroidism hyperparathyroidism and multiple endocrine neoplasia The second section on the pancreas focuses on nesidioblastosis islet cell transplantation the surgical treatment of diabetes and surgical complications of diabetes Adrenal disorders are then discussed followed by a section on the evaluation and management of ovarian and testicular torsion and tumors The closing section addresses miscellaneous topics such as gynecomastia in boys and growth restriction surgery This book will serve as an invaluable reference for all practitioners and trainees who care for children with endocrine problems for which surgery is considered **Books in Print Supplement**, 2002 *Reader's Guide to Judaism* Michael Terry, 2013-12-02 The Reader's Guide to Judaism is a survey of English language translations of the most important primary texts in the Jewish tradition The field is assessed in some 470 essays discussing individuals Martin Buber Gluckel of Hameln literature Genesis Ladino Literature thought and beliefs Holiness Bioethics practice Dietary Laws Passover history Venice Baghdadi Jews of India and arts and material culture Synagogue Architecture Costume The emphasis is on Judaism rather than on Jewish studies more broadly **The Legend of the Middle Ages** Rémi Brague, 2020-09-14 This volume presents a penetrating interview and sixteen essays that explore key intersections of medieval religion and philosophy With characteristic erudition and insight R miBrague focuses less on individual Christian Jewish and Muslim thinkers than on their relationships with one another Their disparate philosophical worlds Brague shows were grounded in different models of revelation that engendered divergent interpretations of the ancient Greek sources they held in common So despite striking similarities in their solutions for the philosophical problems they all faced intellectuals in each theological tradition often viewed the others ideas with skepticism if not disdain Brague's portrayal of this misunderstood age brings to life not only its philosophical and theological nuances but also lessons for our own time **The Jews as a Chosen People** S. Leyla Gurkan, 2008-12-05 The concept of the Jews as a chosen people is a key element of the Jewish faith and identity This book explores the idea of chosenness from the ancient world through modernity and into the Post Holocaust era Analysing a vast corpus of biblical ancient rabbinic and modern Jewish literature the author seeks to give a better understanding of this central doctrine of the Jewish religion She shows that although the idea of chosenness has been central to Judaism and Jewish self definition it has not been carried to the present day in the same form Instead it has gone through constant change

depending on who is employing it against what sort of background and for what purpose Surveying the different and sometimes conflicting interpretations of the doctrine of chosenness that appear in Ancient Modern and Post Holocaust periods the dominant themes of Holiness Mission and Survival are identified in each respective period The theological philosophical and sociological dimensions of the question of Jewish chosenness are thus examined in their historical context as responses to the challenges of Christianity Modernity and the Holocaust in particular This book will be of interest to scholars and students of Jewish Studies the Holocaust religion and theology Medieval Islamic Civilization Josef W. Meri, 2005-10-31 Medieval Islamic Civilization examines the socio cultural history of the regions where Islam took hold between the seventh and sixteenth century This important two volume work contains over 700 alphabetically arranged entries contributed and signed by international scholars and experts in fields such as Arabic languages Arabic literature architecture art history history of science Islamic arts Islamic studies Middle Eastern studies Near Eastern studies politics religion Semitic studies theology and more This reference provides an exhaustive and vivid portrait of Islamic civilization including the many scientific artistic and religious developments as well as all aspects of daily life and culture For a full list of entries contributors and more visit www.routledge.com/middleages Islamic **Jerusalem in Memory and Eschatology** Emma O'Donnell Polyakov, 2025-06-12 Investigating a range of eschatological ideologies this volume explores the connection between notions of sacred space and time in Jewish Christian and Muslim understandings of Jerusalem The recognition of Jerusalem as a holy city both unites and divides Judaism Christianity and Islam While these three religious traditions share a reverence for the same ancient city this veneration leads more often to tension and violence than to commonality and cooperation Each of these religions draws heavily from religious memory and eschatological prophecies and sees Jerusalem as a site of past and future upheaval however the distinctions in their visions imbue Jerusalem with meanings that reinforce conflicting and contested ideologies Offering multiple analyses of religious interpretations of the city and its sacred sites this volume explores these divergent visions of the remembered and anticipated Jerusalem *Canonical Texts and Scholarly Practices* Anthony Grafton, Glenn W. Most, 2016-09-07 In this collection of richly documented case studies experts in many textual traditions examine the ways in which important texts were preserved explicated corrected and used for a variety of purposes The authors describe the multiple ways in which scholars in different cultures have addressed some of the same tasks revealing both radical differences and striking similarities in textual practices across space time and linguistic borders This volume shows how much is learned when historians of scholarship like contemporary historians of science focus on earlier scholars practices and when Western scholarly traditions are treated as part of a much larger cross cultural inquiry **Forthcoming Books** Rose Arny, 2002 *Library Journal* ,2002 **Subject Guide to Books in Print** ,1996 **TV Guide** ,1975 Current Law Index ,2003 *Subject Guide to Children's Books In Print*, 1996 R R Bowker Publishing, 1996 The New York Times Index ,1949 **Paperbound Books in Print** ,1992 **Arts & Humanities**
