Saving Desire F. LeRon Shults, Jan-Olav Henriksen, 2011-07-06 Traditional Christian theology has generally treated desire as a dark and negative force intimately related to sin something to be restricted and repressed closeted and controlled But according to LeRon Shults and Jan Olav Henriksen s Saving Desire we see only part of the picture if we do not also perceive that desire can be a powerful force for great good Grounding their work firmly in the experiential realm of human life the eight eminent theologians contributing to this volume celebrate together the positivity the sociality and the physicality of saving desire that is humankind s innate desire not only for the good life but also more vitally for the life transforming goodness of God

Early Modern Trauma Erin Peters, 2021-08 This edited collection explores what trauma seen through an analytical lens can reveal about the early modern period and conversely what conceptualizations of psychological trauma from the period can tell us about trauma theory itself

Women Moralists in Early Modern France Julie Candler Hayes, 2024-01-03 Julie Candler Hayes explores the contributions of seventeenth and eighteenth century French women philosophers and intellectuals to moralist writing a genre focusing on dispassionate observations on the human condition and traditionally viewed through its best known male writers This study the first of its kind includes both famous thinkers such as milie Du Ch telet and Germaine de Sta l and nearly two dozen of their contemporaries Hayes demonstrates how through their critique of institutions and practices their valorization of introspection and self expression and their engagement with philosophical issues women moralists carved out an important space for the public exercise of their reason

Insane Passions Christine Coffman, 2006-12-12 In France in 1933 two sisters presumed to be lovers murdered the women who employed them as maids Known as the Papin affair the incident inspired not only Jean Genet s 1947 The Maids but also an essay by Jacques Lacan that presents the sisters crime as fueled by a narcissistic homosexual drive that culminated in the assault In this new investigation of the roots of the twentieth

century myth of the lesbian as madwoman Christine Coffman argues that the female psychotic was the privileged object of Lacan's effort to derive a revolutionary theory of subjectivity from the study of mental illness Examining Lacan's early writings French surrealism Djuna Barnes Nightwood and H D's homoerotic fiction in light of feminist and queer theory Insane Passions argues that the psychotic woman that fascinates modernist writers returns with a murderous vengeance in a number of late twentieth century films including Basic Instinct Sister My Sister Single White Female and Murderous Maids Marking the limit of social acceptability the psychotic lesbian repeatedly appears as the screen onto which the violence and madness of twentieth century life are projected

Experiment, Speculation and Religion in Early Modern Philosophy

Alberto Vanzo, Peter R. Anstey, 2019-03-11 Experimental philosophy was an exciting and extraordinarily successful development in the study of nature in the seventeenth century Yet experimental philosophy was not without its critics and was far from the only natural philosophical method on the scene In particular experimental philosophy was contrasted with and set against speculative philosophy and in some quarters was accused of tending to irreligion This volume brings together ten scholars of early modern philosophy history and science in order to shed new light on the complex relations between experiment speculation and religion in early modern Europe The first six chapters of the book focus on the respective roles of experimental and speculative philosophy in individual seventeenth century philosophers They include Francis Bacon Robert Boyle Margaret Cavendish Thomas Hobbes John Locke and Isaac Newton The next two chapters deal with the relation between experimental philosophy and religion with a special focus on hypotheses and natural religion The penultimate chapter takes a broader European perspective and examines the paucity of concerns with religion among Italian natural philosophers of the period Finally the concluding chapter draws all these individuals and themes together to provide a critical appraisal of recent scholarship on experimental philosophy This book is the first collection of essays on the subject of early modern experimental philosophy It will appeal to scholars and students of early modern philosophy science and religion

Biblical Portraits of Exile Abi Doukhan, 2016-05-26 Exile constitutes one of the most central experiences in the Bible notably in the book of Genesis The question has rarely been asked however as to why exile plays such an important role in the lives of Biblical characters Biblical Portraits of Exile proposes a philosophical reading largely inspired by the philosophy of Emmanuel Levinas of the experience of exile in the book of Genesis Focusing on the 8 central figures of exile Adam Eve Cain the sons of Shem Abraham Rebekah Jacob and the sons of Levy the book draws out the ethical and redemptive implications of exile and thereby paves the way for a renewed description of the human subject one that situates ethics at its very core

Hume, Passion, and Action

Elizabeth Schmidt Radcliffe, 2018 David Hume's theory of action is well known for several provocative theses including that passion and reason cannot be opposed over the direction of action Elizabeth S Radcliffe defends an original interpretation of Hume's views on passion reason and motivation which is consistent with other theses in Hume's philosophy loyal to his texts and historically situated She challenges the now orthodox interpretation of

Hume on motivation presenting an alternative that situates Hume closer to Humeans than many recent interpreters have. Part of the strategy is to examine the thinking of the early modern intellectuals to whom Hume responds. Most of these thinkers insisted that passions lead us to pursue harmful objects unless regulated by reason and most regarded passions as representations of good and evil which can be false. Understanding Hume's response to these claims requires appreciating his respective characterizations of reason and passion. The author argues that Hume's thesis that reason is practically impotent apart from passion is about beliefs generated by reason rather than about the capacity of reason. Furthermore, the argument makes sense of Hume's sometimes ridiculed description of passions as original existences having no reference to objects. The author also shows how Hume understood morality as intrinsically motivating while holding that moral beliefs are not themselves motives and why he thought of passions as self-regulating contrary to the admonitions of the rationalists.

A Desire for Women Suzanne Juhasz, 2003. Annotation: An exploration of women's desire for women. **Inwardness and Existence** Walter Albert Davis, 1989. A profound, challenging, wide-ranging book back in print for a new generation. Inwardness and Existence accomplishes what no book before or after has even approximated: it demonstrates with great lucidity and insight the shared philosophical project that animates psychoanalysis, Marxism, existentialism, and Hegelian dialectics. Davis roots the reader in the enterprise of questioning what is given and probing beyond what is safe in order to demonstrate that psychoanalytic inquiry, Marxist politics, existential reflection, and dialectical connection all move within the same orbit. No one who reads it will ever think about existence itself in the same way again. Davis's landmark work will profoundly transform anyone who reads it. Todd McGowan, author of *The Real Gaze: Film Theory after Lacan*. Origin and Doctrines of Early Indian Buddhist Schools Vasumitra, 1925. *Emotion and Cognitive Life in Medieval and Early Modern Philosophy* Martin Pickavé, Lisa Shapiro, 2012-10-04. This volume offers a much-needed shift of focus in the study of emotion in the history of philosophy. Discussion has tended to focus on the moral relevance of emotions and, except in ancient philosophy, the role of emotions in cognitive life has received little attention. Thirteen new essays investigate the continuities between medieval and early modern thinking about the emotions and open up a contemporary debate on the relationship between emotions, cognition, and reason and the way emotions figure in our own cognitive lives. A team of leading philosophers of the medieval renaissance and early modern periods explore these ideas from the point of view of four key themes: the situation of emotions within the human mind; the intentionality of emotions and their role in cognition, emotions, and action; the role of emotion in self-understanding and the social situation of individuals. *Affective Disorders* Bede Scott, 2019-09-28. An Open Access edition of this book is available on the Liverpool University Press website and through Knowledge Unlatched. Situated at the intersection of postcolonial studies, affect studies, and narratology, *Affective Disorders* explores the significance of emotion in a range of colonial and postcolonial narratives. Through close readings of Naguib Mahfouz, Joaquim Maria Machado de Assis, and Upamanyu Chatterjee, among others, Bede Scott argues that literary

representations of emotion need not be interpreted solely at the level of character individual psychology or the contingencies of plotting but could also be related to broader sociopolitical forces We thus find episodes of anger that serve as a collective response to the modernity of wartime Cairo feelings of jealousy that are inspired by the slave economy of imperial Brazil and an overwhelming sense of boredom that emerges in the late eighties out of the bureaucratic procedures of the Indian Administrative Service Affective Disorders also explores in some detail the formal consequences of these feelings the way in which affective states such as anger or jealousy can often destabilize narratives provoking crises of representation generic ambivalence and discursive rupture By emphasizing the social origin of these emotions and by analysing their influence on literary discourse this study provides a deeper understanding of the relationship between various sociopolitical forces and the affective and aesthetic disorders to which they give rise *The Faculty Guide to a Balanced and Harmonious Career*

Michele DiPietro, 2025-08-15 This book provides a yogic framework for college educators to take inventory of areas of imbalance in their professional life and work toward more sustainable and meaningful career alignment Drawing from chakra theory at the heart of yoga philosophy DiPietro takes readers through the seven major chakras explaining their functions and common patterns of imbalance with particular attention to patterns reinforced by academia and offers 130 tools and strategies for realignment Readers will learn how to ground themselves in nurturing habits set and stand by professional boundaries speak their truth even in charged situations and build a legacy they can be proud of Written to be a helpful trusted guidebook this text features prompts for reflection call out boxes for each chakra and downloadable worksheets to synthesize thoughts and ideas into an action plan **Vedānta, Bhakti, and Their Early Modern Sources** Rosina

Pastore, 2023-12-31 This volume considers the Prabodhacandrodaya Nāka c 1760 CE an allegorical drama composed by Brajv s d s in Brajbh It contributes to the study of vernacular n ākas with its first complete English translation Moreover the critical analysis shows that the foundational Sanskrit texts for Ved ānta and those for Bhakti play a part in the Prabodhacandrodaya Nāka s philosophical and religious edifice At the same time the investigation demonstrates that Brajv s d s expresses several philosophical ideas by adaptively reusing the R mcaritn ās by Tuls d s c 1574 CE Brajv s d s composes a doh by combining one line of his invention with a line from the M nās This method is employed throughout all the personified metaphysical concepts That Brajv s not only read Bhakti but also Ved ānta through the R mcaritn ās highlights the philosophical and literary creativity in 18th c North India It points to the necessity to rethink the sources of Ved ānta philosophies by including works non conventional for language and genre because not in Sanskrit and not stras Such sources may not be original in their contribution per se but are essential to understand how early modern philosophy was done conceived and transmitted **Chance, Literature, and Culture in Early Modern France** John D. Lyons, 2016-04-08 In the

Renaissance and early modern periods there were lively controversies over why things happen Central to these debates was the troubling idea that things could simply happen by chance In France a major terrain of this intellectual debate the chance

hypothesis engaged writers coming from many different horizons the ancient philosophies of Epicurus the Stoa and Aristotle the renewed reading of the Bible in the wake of the Reformation a fresh emphasis on direct empirical observation of nature and society the revival of dramatic tragedy with its paradoxical theme of the misfortunes that befall relatively good people and growing introspective awareness of the somewhat arbitrary quality of consciousness itself This volume is the first in English to offer a broad cultural and literary view of the field of chance in this period The essays by a distinguished team of scholars from the U S Britain and France cluster around four problems Providence in Question Aesthetics and Poetics of Chance Law and Ethics and Chance and its Remedies Convincing and authoritative this collection articulates a new and rich perspective on the culture of sixteenth and seventeenth century France
