

The cover art depicts a dramatic scene in a dark, cavernous environment. A large, green, scaly dragon with a glowing yellow eye and a wide, toothy mouth is the central focus. A warrior in brown and gold armor, holding a sword, stands on the left, facing the dragon. In the background, a small, glowing orange light source, possibly a torch or a magical orb, is visible. The overall tone is dark and adventurous.

Lewis, Keegan L. Schmidt, 2016-05-05 This volume is composed of guides to the lavas of the Columbia River basalts megaflood landscapes of the Channeled Scablands Mesozoic accreted terranes metamorphic Precambrian Belt and pre Belt rocks and other features of this tectonically active region **Arizona Geological Society Digest** Arizona Geological Society, 1989

**Floods, Faults, and Fire** Peter L. Stelling, David Samuel Tucker, 2007-01-01 The ten geological field guides presented in this volume explore key areas of the geologist's paradise that is Washington State and British Columbia These trips investigate a wide variety of geological and geographical terrains from the dry steppe of the channeled scablands and Columbia River basalt group to the east across the glaciated and forested Cascade arc and Coast Mountains to the geologically complex islands in the west This guidebook may be unique in that four of the trips utilize boats to reach remote field areas and are therefore rarely visited by geologists Rough-Hewn Land Keith Heyer Meldahl, 2013-05 Rough Hewn

Land tells the geologic story of the American West the story of its rocks rivers mountains earthquakes and mineral wealth including gold It tells it by taking you on a 1000 mile long field trip across the rough side of the continent from the California coast to the Rocky Mountains This book puts you on the outcrop geologic hammer in hand to explore the evidence for how the spectacular rough hewn lands of the West came to be When North America broke free from Eurasia and Africa some 200 million years ago it triggered a cascade of violent geologic events that shaped the West we see today As the west moving continent crunched across the seabed of the ancient Pacific islands and assorted pieces of ocean floor collected against its prow to build California and plant gold there too Meanwhile mountains squeezed upward from California to Colorado and vast quantities of molten rock seeded the crust with precious metals while spewing volcanic fire across the land Later the land stretched like an accordion to form the washboard like Basin and Range province and Great Basin within it while California began to crackle along the San Andreas fault Throughout the West today a near constant drumroll of earthquakes testifies to a world still reshaping itself in response to the ceaseless movements of the Earth's tectonic plates Rough Hewn Land weaves these stories into the human history of the West As we follow the adventures of John C Frmont Mark Twain the Donner party and other historic characters we see how geologic forces have shaped human experience just as they direct the fate of the West today The SAGE Handbook of Environment and Society Jules Pretty, Andy Ball, Ted Benton, Julia

Guivant, David R Lee, David Orr, Max Pfeffer, Professor Hugh Ward, 2007-10-30 A monumental and timely contribution to scholarship on society and environments The handbook makes it easy and compelling for anyone to learn about that scholarship in its full manifestations and as represented by some of the most highly respected researchers and thinkers in the English speaking world It is wide reaching in scope and far reaching in its implications for public and private action a definite must for serious researchers and their libraries Bonnie J McCay Rutgers University This is the desert island book for anyone interested in the relationship between society and the environment The editors have assembled a masterful collection of contributions on every conceivable dimension of environmental thinking in the social sciences and humanities No library should be without it Robyn Eckersley University of Melbourne The SAGE Handbook of Environment and Society focuses on the interactions between people societies and economies and the state of nature and the environment Editorially integrated but written from multi disciplinary perspectives it is organised in seven sections Environmental thought past and present Valuing the environment Knowledges and knowing Political economy of environmental change Environmental technologies Redesigning natures Institutions and policies for influencing the environment Key themes include locations where the environment society relation is most acute where for example there are few natural resources or where industrialization is unregulated the discussion of these issues at different scales local regional national and global the cost of damage to resources and the relation between principal actors in the environment society nexus Aimed at an international audience of academics research students researchers practitioners and policy makers The SAGE Handbook of Environment and Society presents readers in social science and natural science with a manual of the past present and future of environment society links

**Conscious Food** Jim PathFinder Ewing, 2012-09-01 When did growing and eating food cease to be considered sacred How did food lose its connection with health Why is our food system out of control What simple steps can we each take to profoundly change our world as a healthier place for us all Journalist author Jim PathFinder Ewing answers these and other questions with his new book Conscious Food Sustainable Growing Spiritual Eating Ewing provides a background on the emergence of agriculture and the declining connection with food as society evolved particularly during times of war and scrutinizes today s conventional farming that relies upon deadly toxins and unsustainable fossil fuels The book outlines how modern people can avoid being victims of biocultural evolution and the resultant entropy of declining global and personal health and instead contribute to the movement toward mindful food choices and better world health both physically and spiritually Ewing discusses how society can nurture the unseen Spirit world that permeates plants through adopting nondenominational spiritual understandings and includes how to examples for growing organic food and fostering a supportive community and urban agriculture as well as notes for expanded resources

**Field Guide to Alternative Media** Patricia J. Case, 1984 *The Great Basin* Donald Grayson, 2011-04-18 The Great Basin centering on Nevada and including substantial parts of California Oregon and Utah gets its name from the fact that none of its rivers or streams flow to the sea

This book synthesizes the past 25 000 years of the natural history of this vast region It explores the extinct animals that lived in the Great Basin during the Ice Age and recounts the rise and fall of the massive Ice Age lakes that existed here It explains why trees once grew 13 beneath what is now the surface of Lake Tahoe explores the nearly two dozen Great Basin mountain ranges that once held substantial glaciers and tells the remarkable story of how pinyon pine came to cover some 17 000 000 acres of the Great Basin in the relatively recent past These discussions culminate with the impressive history of the prehistoric people of the Great Basin a history that shows how human societies dealt with nearly 13 000 years of climate change on this often challenging landscape Provided by publisher     Analogs for Planetary Exploration W. Brent Garry, Jacob E. Bleacher, 2011 Where on Earth is it like Mars How were the Apollo astronauts trained to be geologists on the Moon Are volcanoes on Earth just like the ones on other planets The exploration of our solar system begins in our own backyard Discoveries on other planetary bodies cannot always be easily explained Therefore geologic sites on this planet are used to better understand the extraterrestrial worlds we explore with humans robots and satellites Analogs for Planetary Exploration is a compilation of historical accounts of astronaut geology training overviews of planetary geology research on Mars educational field trips to analog sites plus concepts for future human missions to the Moon This Special Paper provides a great overview of the science training and planning related to planetary exploration for students educators researchers and geology enthusiasts After all as we learn about the solar system we can better understand our own planet Earth
