Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these

images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

Excerpt from Pattern Design A Book for Students Treating in a Practical Way of the Anatomy Planning Evolution of Repeated Ornament A man has a right I suppose to pull down the building he once put up and to raise another in its place If he should see fit to use sometimes the very stones which belonged to it he would only be stealing from himself I have done something very much like that In the course of the last fifteen years the times have changed and with them the standpoint of students and teachers of design and though my point of view has not altered my outlook has widened with experience When it came to the revision of The Anatomy of Pattern with a view to a fifth edition it seemed to me I had done all I could do to it that it was past mending and that the simplest thing would be to start afresh The present volume however though it covers the ground of the former one and answers much the same purpose is not the same but really a new book upon the foundations of the old one It contains indeed all that was in the other but otherwise expressed Here and there an explanation or description which by revision after revision had been reduced to the fewest and plainest words I could find has been allowed to stand So with the illustrations the greater number of them are new Such of the old diagrams as were essential to the purpose of the book have been drawn again not merely on the larger scale allowed by the page but in a simpler and more self explanatory way About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
