the true heirs to Goldwater ideology The purity movement did more than drive moderates out of the Republican Party it beat back alternative definitions of conservatism Publisher information The Spaces and Places of Horror Francesco Pascuzzi, Sandra Waters, 2020-01-16 This volume explores the complex horizon of landscapes in horror film culture to better understand the use that the genre makes of settings locations spaces and places be they physical imagined or altogether imaginary In The Philosophy of Horror No 1 Carroll discusses the geography of horror as often situating the filmic genre in liminal spaces as a means to displace the narrative away from commonly accepted social structures this use of space is meant to trigger the audience s innate fear of the unknown This notion recalls Freud s theorization of the uncanny as it is centered on recognizable locations outside of the Lacanian symbolic order In some instances a location may act as one of the describing characteristics of evil itself In A Nightmare on Elm Street teenagers fall asleep only to be dragged from their bedrooms into Freddy Krueger s labyrinthine lair an inescapable boiler room that enhances Freddie s powers and makes him invincible In other scenarios the action may take place in a distant little known country to isolate characters Roth s Hostel films or as a way to mythicize the very origin of evil Bava s Black Sunday Finally anxieties related to the encroaching presence of technology in our lives may give rise to postmodern narratives of loneliness and disconnect at the crossing between virtual and real places in Kurosawa s Pulse the internet acts as a gateway between the living and spirit worlds creating an oneiric realm where the living vanish and ghosts move to replace them This suggestive topic begs to be further investigated this volume represents a crucial addition to the scholarship on horror film culture by adopting a transnational comparative approach to the analysis of formal and narrative concerns specific to the genre by considering some of the most popular titles in horror film culture alongside lesser known works for which this anthology represents the first piece of relevant scholarship American Conservatism Bruce Frohnen, Jeremy Beer, Nelson O. Jeffrey, 2014-05-20 A must own title National Review Online American Conservatism An Encyclopedia is the first comprehensive reference volume to cover what is surely the most influential political and intellectual movement of the past half century More than fifteen years in the making and more than half a million words in length this informative and entertaining encyclopedia contains substantive entries on those persons events organizations and concepts of major importance to postwar American conservatism Its contributors include iconic patriarchs of the conservative and libertarian movements celebrated scholars well known authors and influential movement activists and leaders Ranging from abortion to Zoll Donald Atwell and written from viewpoints as various as those which have informed the postwar conservative movement itself the encyclopedia s more than 600 entries will orient readers of all kinds to the people and ideas that have given shape to contemporary American conservatism This long awaited volume is not to be missed **If We Can Keep It: How the Republic Collapsed and How it Might Be Saved** Michael Tomasky, 2019-02-05 A game changing account of the deep roots of political polarization in America including an audacious fourteen point agenda for how to fix it Why has American politics fallen into such a state of horrible dysfunction

Can it ever be fixed These are the questions that motivate Michael Tomasky's deeply original examination into the origins of our hopelessly polarized nation One of America's finest political commentators Michael J Sandel Tomasky ranges across centuries and disciplines to show how America has almost always had two dominant parties that are existentially and often violently opposed When he turns to our current era he does so with striking insight that will challenge readers to reexamine what they thought they knew Finally not content merely to diagnose these problems Tomasky offers a provocative agenda for how we can help fix our broken political system from ranked choice voting and at large congressional elections to expanding high school civics education nationwide Combining revelatory data with trenchant analysis Tomasky tells us how the nation broke apart and points us toward a more hopeful political future

Lying in State Eric Alterman, 2020-08-11 This definitive history of presidential lying reveals how our standards for truthfulness have eroded and why Trump's lies are especially dangerous If there's one thing we know about Donald Trump it's that he lies But he's by no means the first president to do so In *Lying in State* Eric Alterman asks how we ended up with such a pathologically dishonest commander in chief showing that from early on the United States has persistently expanded its power and hegemony on the basis of presidential lies He also reveals the cumulative effect of this deception each lie a president tells makes it more acceptable for subsequent presidents to lie and the media's complicity in spreading misinformation Donald Trump then represents not an aberration but the culmination of an age old trend Full of vivid historical examples and trenchant analysis *Lying in State* is essential reading for anyone seeking to understand how we arrived in this age of alternative facts

Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author

America's Continuum of Racial Democracy and Injustice Thomas P. Wallace, 2020-04-07 In 2019 of the 252 Republican members of Congress only 3 were African American Lincoln's progressive Republicanism had been supplanted by the regressive 1950s Southern styled Democratic Party ideology of white primacy America's initial morally flawed constitution permitted slavery to persist catalyzing and sustaining hostile unresolvable ideological warfare driven by slavery issues the Civil War a failed post war Reconstruction effort and a brutal Jim Crow suppression And since the 1980s politically contrived Republican race neutral legislation and policies have disproportionately targeted minorities resulting in discriminatory housing voting policing and criminal justice outcomes Over the centuries excessive white self serving social and economic individualism of privilege

religious ethno cultural racism and a destructive anti progressive anti intellectual and anti scientific mentality has been ingrained within the nation s DNA This is America s continuum of racial democracy and injustice Radical Conservatism Robert Brent Toplin,2006 An unflinching look at the origins philosophy meanings and impact of the radical form of conservatism that currently dominates American politics Analyzing the literature books magazines newspapers and broadcast sources that define and promote conservatism Toplin leads the reader on a provocative tour of the conservative mind as viewed by a liberal tour guide **Crisis of Conservatism?** Joel D. Aberbach,Gillian Peele,2011-06-17 Crisis of Conservatism assesses the status of American conservatism its politics its allies in the Republican Party and the struggle for the soul of the conservative movement This struggle became especially acute with the controversial policies of the Bush administration and Republican losses in the 2006 and 2008 elections The book s contributors a broad array of leading scholars of conservatism identify a range of tensions in the conservative movement and the Republican Party tensions over what conservatism is and should be over what conservatives should do when in power and over how conservatives should govern While the conservative movement remains beset by many problems and divisions it has fundamental strengths Crisis of Conservatism reveals the many varieties of conservatism and examines the internal conflicts strengths and challenges that will define the movement in the future **The Politics of the Cross** Daniel K. Williams,2021-03-02 Where do Christians fit in a two party political system The partisan divide that is rending the nation is now tearing apart American churches On one side are Christian Right activists and other conservatives who believe that a vote for a Democratic presidential candidate is a vote for abortion sexual immorality gender confusion and the loss of religious liberty for Christians On the other side are politically progressive Christians who are considering leaving the institutional church because of white evangelicalism s alliance with a Republican Party that they believe is racist hateful toward immigrants scornful of the poor and directly opposed to the principles that Jesus taught Even while sharing the same pew these two sides often see the views of the other as hopelessly wrongheaded even evil Is there a way to transcend this deep seated division The Politics of the Cross draws on history policy analysis and biblically grounded theology to show how Christians can protect the unborn advocate for traditional marriage promote racial justice care for the poor and above all honor the gospel by adopting a cross centered ethic instead of the idolatrous politics of power fear or partisanship As Daniel K Williams illustrates both the Republican and Democratic parties are rooted in Christian principles but both have distorted those principles and mixed them with assumptions that are antithetical to biblical truth Williams explains how Christians can renounce partisanship and pursue policies that show love for our neighbors to achieve a biblical vision of justice Nuanced detailed and even handed The Politics of the Cross tackles the thorny issues that divide Christians politically and offers a path forward with innovative biblically minded political approaches that might surprise Christians on both the left and the right **Debating the American Conservative Movement** Donald T. Critchlow,Nancy MacLean,2009-03-16 Debating the American Conservative Movement chronicles one

of the most dramatic stories of modern American political history The authors describe how a small band of conservatives in the immediate aftermath of the Second World War launched a revolution that shifted American politics to the right challenged the New Deal order transformed the Republican party into a voice of conservatism and set the terms of debate in American politics as the country entered the new millennium Historians Donald T Critchlow and Nancy MacLean frame two opposing perspectives of how the history of conservatism in modern America can be understood but readers are encouraged to reach their own conclusions through reading engaging primary documents

Facts & Fury B Kuhn,2022-05-31 From the cofounder of Fight for a Better America the non profit organization dedicated to voter engagement and local grassroots organizing is a searing unflinching and thorough exploration of the Republican Party s dissolution of government Only when enough of us recognize that the Republicans are waging a war on our democracy will we be able to rally a resistance fight back and reclaim our government writes author Bill Kuhn in this engrossing and outraged study of the GOP s commitment to weaken public institutions and erode the public s trust in democracy Although conflicts over the role of government have always existed the level of partisanship and division that we know today is staggering Can the US repair forty years of the right s destruction The answer is yes says Kuhn but only if voters understand the Republican Party s role in the country s growing division Written in brilliant and easily digestible chapters you will discover how Trump became the logical consequence of decades worth of corruption fear mongering and destructive policies Kuhn uncovers the blatantly racist style of politics inherent in the GOP from Goldwater s opposition to the Civil Rights Movement to Reagan s aversion to public welfare Each chapter is poignant and a well researched entry contributing to the national conversation and debate of how we got to where we are today *Facts Fury* is a revelatory work of scholarship and a laceration of the Republican Party that will energize the country and encourage discussion Much more it is a call to arms to halt the GOP s efforts engage our neighbors and ultimately strengthen American democracy

Phyllis Schlafly and Grassroots Conservatism Donald T. Critchlow,2008-01-15 Based on access to Schlafly s papers and sixty other archival collections offers a look at the private life and public convictions of the arch conservative and determined opponent of the Equal Rights Amendment gay rights and reproductive freedom

Democracy in Chains Nancy MacLean,2017-06-13 Winner of the Lillian Smith Book Award Winner of the Los Angeles Times Book Prize Finalist for the National Book Award The Nation s Most Valuable Book A vibrant intellectual history of the radical right The Atlantic This sixty year campaign to make libertarianism mainstream and eventually take the government itself is at the heart of *Democracy in Chains* If you re worried about what all this means for America s future you should be NPR An explosive expos of the right s relentless campaign to eliminate unions suppress voting privatize public education stop action on climate change and alter the Constitution Now Updated With A New Preface Behind today s headlines of billionaires taking over our government is a secretive political establishment with long deep and troubling roots The capitalist radical right has been working not simply to change who rules but to fundamentally alter the

rules of democratic governance But billionaires did not launch this movement a white intellectual in the embattled Jim Crow South did Democracy in Chains names its true architect the Nobel Prize winning political economist James McGill Buchanan and dissects the operation he and his colleagues designed over six decades to alter every branch of government to disempower the majority In a brilliant and engrossing narrative Nancy MacLean shows how Buchanan forged his ideas about government in a last gasp attempt to preserve the white elite s power in the wake of Brown v Board of Education In response to the widening of American democracy he developed a brilliant if diabolical plan to undermine the ability of the majority to use its numbers to level the playing field between the rich and powerful and the rest of us Corporate donors and their right wing foundations were only too eager to support Buchanan s work in teaching others how to divide America into makers and takers And when a multibillionaire on a messianic mission to rewrite the social contract of the modern world Charles Koch discovered Buchanan he created a vast relentless and multi armed machine to carry out Buchanan s strategy Without Buchanan s ideas and Koch s money the libertarian right would not have succeeded in its stealth takeover of the Republican Party as a delivery mechanism Now with Mike Pence as Vice President the cause has a longtime loyalist in the White House not to mention a phalanx of Republicans in the House the Senate a majority of state governments and the courts all carrying out the plan That plan includes harsher laws to undermine unions privatizing everything from schools to health care and Social Security and keeping as many of us as possible from voting Based on ten years of unique research Democracy in Chains tells a chilling story of right wing academics and big money run amok This revelatory work of scholarship is also a call to arms to protect the achievements of twentieth century American self government Tyranny of the Minority Steven Levitsky, Daniel Ziblatt, 2023-09-12 NEW YORK TIMES BESTSELLER A call to reform our antiquated political institutions before it s too late from the authors of How Democracies Die Levitsky and Ziblatt write with terrifying clarity about how the forces of the right have co opted the enshrined rules to exert their tyranny The Washington Post ONE OF THE CALIFORNIA REVIEW OF BOOKS TEN BEST BOOKS OF THE YEAR A NEWSWEEK BEST BOOK OF THE YEAR America is undergoing a massive experiment It is moving in fits and starts toward a multiracial democracy something few societies have ever done But the prospect of change has sparked an authoritarian backlash that threatens the very foundations of our political system Why is democracy under assault here and not in other wealthy diversifying nations And what can we do to save it With the clarity and brilliance that made their first book How Democracies Die a global bestseller Harvard professors Steven Levitsky and Daniel Ziblatt offer a coherent framework for understanding these volatile times They draw on a wealth of examples from 1930s France to present day Thailand to explain why and how political parties turn against democracy They then show how our Constitution makes us uniquely vulnerable to attacks from within It is a pernicious enabler of minority rule allowing partisan minorities to consistently thwart and even rule over popular majorities Most modern democracies from Germany and Sweden to Argentina and New Zealand have eliminated outdated institutions like elite upper chambers indirect elections and

lifetime tenure for judges The United States lags dangerously behind In this revelatory book Levitsky and Ziblatt issue an urgent call to reform our politics It s a daunting task but we have remade our country before most notably after the Civil War and during the Progressive Era And now we are at a crossroads America will either become a multiracial democracy or cease to be a democracy at all *After Obama* Robert Singh,2016-05-09 After Obama examines how and why US influence has contributed to the erosion of the world America made endangering international order and liberal values As a relatively short book it would be attractive for advanced undergraduate courses and graduate seminars on US foreign policy international relations foreign policy analysis and history diplomatic history

The Gifted Generation David Goldfield,2017-11-14 A sweeping and path breaking history of the post World War II decades during which an activist federal government guided the country toward the first real flowering of the American Dream In *The Gifted Generation* historian David Goldfield examines the generation immediately after World War II and argues that the federal government was instrumental in the great economic social and environmental progress of the era Following the sacrifices of the Greatest Generation the returning vets and their children took the unprecedented economic growth and federal activism to new heights This generation was led by presidents who believed in the commonwealth ideal the belief that federal legislation by encouraging individual opportunity would result in the betterment of the entire nation In the years after the war these presidents created an outpouring of federal legislation that changed how and where people lived their access to higher education and their stewardship of the environment They also spearheaded historic efforts to level the playing field for minorities women and immigrants But this dynamic did not last and Goldfield shows how the shrinking of the federal government shut subsequent generations off from those gifts David Goldfield brings this unprecedented surge in American legislative and cultural history to life as he explores the presidencies of Harry S Truman Dwight D Eisenhower and Lyndon Baines Johnson He brilliantly shows how the nation s leaders persevered to create the conditions for the most gifted generation in U S history

Voting and Political Representation in America Mark P. Jones,2020-02-24 Examines voting trends and political representation in the United States today with a special focus on debates over voting rights voter fraud and voter suppression and election rules and regulations including those related to gerrymandering campaign fundraising and other controversial subjects Do average Americans have a voice in Washington Are they well represented or are they marginalized Do elections reflect fundamental democratic institutions and values or are they tarnished by voter suppression voter fraud gerrymandering or other factors To what extent do America s elected officials reflect the diversity of race religion gender socioeconomic background sexual orientation and political views of the wider American population This encyclopedia explores all these questions and more It examines important mechanisms and laws shaping political representation in America in the 21st century such as term limits gerrymandering the Electoral College and direct democracy ballot initiatives and referendums and the degree to which various demographic groups are represented in state and federal legislatures from Latinos and senior citizens to atheists and

residents of rural states It also explains the basis for escalating concerns about both voter fraud and voter suppression
