

Milliman Care Guidelines®

- **Milliman Care Guidelines** are evidence-based clinical guidelines including care pathways that help providers and payors in effective decision making for the patient care. Milliman Care Guidelines® are annually updated, evidence-based clinical guidelines that span the continuum of care, including chronic care and behavioral health management.
- They are either client-hosted or web-based software that readily interfaces with many medical management and clinical information systems. Interactive version CareWebQ® enables quality improvement and cost efficiency through targeting and reducing inappropriate care. It helps in identifying gaps in care and cause of variation thus reducing their occurrences.
- **Indicia® for Utilization Review** helps clinical teams make admissions decisions and utilization managers justify admissions, level-of-care assignments, and procedures to safeguard reimbursements and meet the challenges of RAC audits.

California Department of Corrections Elaine M. Howle, 2009 This report concludes that overall Corrections payments for hospital care services have risen 59.4 million from FY1998-99 through 2002-03 and grew at an average rate of 21% per year outpacing the nat consumer price index average of 8% annual growth for hospital services during this same period The

reasons for this growth can be attributed to the combination of more expensive health care and to Corrections increased use of contracted hospital facilities Analysis indicates that increases in its inpatient hospital payments are driven primarily by more expensive services whereas increases in its outpatient hospital payments are driven by increases in both the price of services and number of hospital visits Charts and tables *Slee's Health Care Terms* Vergil N.
