Monopoly Capital Henry Goldstein, 1966

Capitalism, Institutions and Social Orders Pedro M. Rey-Araújo, 2020-11-24 Capitalism Institutions and Social Orders develops a novel political economy approach by establishing a dialogue between the Social Structures of Accumulation SSA theory and Ernesto Laclau's post Marxism theory Using this synthesis it provides an in depth analysis of Spain's recent socio economic evolution since the early 1990s The book develops a theoretical framework capable of appraising capitalist dynamics together with their relationship to the institutional environment surrounding and structuring them This is in order to explore the interrelation between the historical development of the capitalist mode of production on the one hand and the various co existing social processes social consensuses and political identities on the other Contemporary Spain provides an interesting case study until the onset of the Great Recession Spain had an impressive macroeconomic record supported by several contradictory social processes such as a massive real estate bubble an upsurge in private indebtedness and a deteriorating manufacturing sector However the accumulation of internal imbalances during those years led inevitably to the sudden disintegration of this institutional and social environment in the years after 2008 thus resulting into a breakdown of capitalist activity accompanied by widespread social contestation The book also explores the ensuing political scenario including the emergence of the indignados movement and the anti austerity party Podemos This work is of significant interest to critical political economy and discourse theory scholars critical theorists in general and social scientists concerned with the recent Spanish experience

The Political Economy of Middle East Peace J.W. Wright Jr., 2013-06-17 The Political Economy of Middle East Peace looks at the political economy of the Middle Eastern peace process with a focus on the politics of trade Contributors investigate the ways new commercial alliances develop as a result of economic agencies established via the Arab Israeli peace process and look at institutions which contribute to redirection of Arab intra and inter regional trade such as the Palestine Monetary Authority the Middle East Development Bank and free trade zone agencies in Aquaba and Dubai

The Oxford Handbook of the Corporation Thomas Clarke, Justin O'Brien, Charles O'Kelley, 2019-02-21 The Oxford Handbook of the Corporation

assesses the contemporary relevance purpose and performance of the corporation The corporation is one of the most significant if contested innovations in human history and the direction and effectiveness of corporate law corporate governance and corporate performance are being challenged as never before Continuously evolving the corporation as the primary instrument for wealth generation in contemporary economies demands frequent assessment and reinterpretation The focus of this work is the transformative impact of innovation and change upon corporate structure purpose and operation Corporate innovation is at the heart of the value creation process in increasingly internationalized and competitive market economies and corporations today are embedded in a world of complex global supply chains and rising state and state directed capitalism In questioning the fundamental purpose and performance of the corporation this Handbook continues a tradition commenced by Berle and Means and contributed to by generations of business scholars What is the corporation and what is it becoming How do we define its form and purpose and how are these changing To whom is the corporation responsible and who should judge the ultimate performance of corporations By investigating the origins development strategies and theories of corporations this volume addresses such questions to provide a richer theoretical account of the corporation and its contested future *Elgar Encyclopedia of Post-Keynesian Economics* Louis-Philippe Rochon, Sergio Rossi, 2023-01-13 This Encyclopedia is an invaluable reference book for post Keynesian and heterodox economics It consists of 300 entries written by 180 different authors The volume includes entries on key concepts of interest to post Keynesians as well as descriptions of some of the seminal books in the post Keynesian tradition It will interest both students and scholars of heterodox economics as well as policy makers around the world looking for a better alternative to mainstream economic policies at national and international levels in the aftermath of the global financial crisis that burst in 2008 and the COVID 19 pandemic crisis that began in 2020 **21st Century Sociology: A Reference Handbook** Clifton D. Bryant, Dennis L. Peck, 2007 Publisher Description **Contemporary Curriculum Discourses** William F. Pinar, 1999 JCT was the most important journal of curriculum studies during the field s paradigm shift in the 1970s Its editors sponsored a yearly conference which also supported the intellectual breakthrough that was the reconceptualization of American curriculum studies This collection brings together the best of JCT articles plus key documentary material of importance to scholars and students alike Undergraduate and graduate students in curriculum instruction and foundations would find this book useful and insightful **Interactions in Political Economy** Steven Pressman, 1996-08-08 This volume commemorates a decade of the Malvern Conference Written by economists for economists in celebration of some of the best minds of this century **American Studies** Jack Salzman, American Studies Association, 1986-08-29 A major three volume bibliography including an additional supplement of an annotated listing of American Studies monographs published between 1900 and 1988 Capitalism Paul Bowles, 2023-09-29 Exploring the life of the world shaping system of capitalism and the writings of leading thinkers this book gives an account of recent developments of capitalism including the impact of the global Climate

Crisis questions around democracy and capitalism and the impact of COVID 19 Capitalism stands unrivalled as the most enduring economic system of our times Since the collapse of the Soviet bloc the world has become a new stage for capital and yet despite this dominance capitalism is still not widely understood In this volume Paul Bowles addresses some of the key questions around the history of capitalism What are the central unchanging features of capitalism How does capitalism vary from place to place and over time Does capitalism improve our lives Is capitalism a system which is natural and free Or is it unjust and unstable What about today s global capitalism Will capitalism destroy or liberate us This third edition of a classic text includes updates to all chapters with the inclusion of more global material as well as a new chapter focussing on the future of capitalism the clash of different capitalisms including neoliberal versus state capitalism and whether we are seeing the end of capitalism and if so what post capitalism might look like

A Perilous Progress Michael Alan Bernstein, 2014-08-12 The economics profession in twentieth century America began as a humble quest to understand the wealth of nations It grew into a profession of immense public prestige and now suffers a strangely withered public purpose Michael Bernstein portrays a profession that has ended up repudiating the state that nurtured it ignoring distributive justice and disproportionately privileging private desires in the study of economic life Intellectual introversion has robbed it he contends of the very public influence it coveted and cultivated for so long With wit and irony he examines how a community of experts now identified with uncritical celebration of free market virtues was itself shaped dramatically so by government and collective action In arresting and provocative detail Bernstein describes economists fitful efforts to sway a state apparatus where values and goals could seldom remain separate from means and technique and how their vocation was ultimately humbled by government itself Replete with novel research findings his work also analyzes the historical peculiarities that led the profession to a key role in the contemporary backlash against federal initiatives dating from the 1930s to reform the nation s economic and social life Interestingly enough scholars have largely overlooked the history that has shaped this profession An economist by training Bernstein brings a historian s sensibilities to his narrative utilizing extensive archival research to reveal unspoken presumptions that through the agency of economists themselves have come to mold and define and sometimes actually deform public discourse This book offers important even troubling insights to readers interested in the modern economic and political history of the United States and perplexed by recent trends in public policy debate It also complements a growing literature on the history of the social sciences Sure to have a lasting impact on its field **A Perilous Progress** represents an extraordinary contribution of gritty empirical research and conceptual boldness of grand narrative breadth and profound analytical depth

Longer View Paul A. Baran, 1971 These essays by the author of *The Political Economy of Growth* and co author of *Monopoly Capital* cover the working range of a strong and original mind They are as diverse as his well known discussion of Marxism and psychoanalysis and his expert handling of the politics and economics of development

The Great Leveler Brett Christophers, 2016-01-04 Brett Christophers shows how laws help

capitalism maintain a crucial balance between competition and monopoly When monopolistic forces dominate antitrust law discourages the growth of corporations and restores competitiveness When competition becomes dominant intellectual property law protects corporate assets and encourages investment **The Great Financial Crisis** John Bellamy

Foster, Fred Magdoff, 2009-01-01 In the fall of 2008 the United States was plunged into a financial crisis more severe than any since the Great Depression As banks collapsed and the state scrambled to organize one of the largest transfers of wealth in history many including economists and financial experts were shocked by the speed at which events unfolded In this new book John Bellamy Foster and Fred Magdoff offer a bold analysis of the financial meltdown how it developed and the implications for the future They examine the specifics of the housing bubble and the credit crunch as well as situate current events within a broader crisis of monopoly finance capitalism one that has been gestating for several decades It is the real productive economy's tendency toward stagnation they argue that creates a need for capital to find ways to profitably invest its surplus But rather than invest in socially useful projects that would benefit the vast majority capital has constructed a financialized casino economy that neglects social needs and as has become increasingly clear is fatally unstable Written over a two year period immediately prior to the onset of the crisis this timely and illuminating book is necessary reading for all those who wish to understand the current situation how we got here and where we are heading **Political Economy for**

the 21st Century Charles J. Whalen, Hyman P. Minsky, 2015-04-15 This text provides an alternative to conventional economics drawing on the neoclassical and non neoclassical insights of Lester Thurow Robert Heilbroner Alice Amsden Barry Bluestone and 11 other prominent economists from America and England It is intended to provide productive analyses of several contemporary economic problems Trajectories of Declining and Destructive Capitalism Rémy Herrera, 2025-04-21

Volume 40 explores themes related to various trajectories of declining and destructive capitalism within the framework of contemporary Marxism Social scientists from ten countries at various stages of their careers work to strengthen Marxism applying methods to the interpretation and above all the transformation of the world
