knowledge alive and relevant      *Management Crisis and Business Revolution* John Harte, 2017-07-05 *Management Crisis and Business Revolution* describes the enormous gap between business theories on the one hand and the realities of the workplace and uncertainties of the marketplace on the other. In place of reasoned management and disciplined organization, John Harte depicts daily disorder, vagueness and confusion instead of the logical processes of classroom case histories with rational solutions. He provides tales of an abundance of irrational judgments, personal foibles and business follies. Once a top operational manager with multinational organizations, Harte applies his hands-on knowledge of the business world to a realistic examination of workplace conditions. He describes methodically how to handle human limitations in the average business enterprise as well as how to develop management strengths. The author observed superior and inferior management firsthand and therefore witnessed the painful demise of many companies, some of which in his opinion could have been saved. With thirty years' experience to draw on, he analyzes why so many businesses and products fail while others succeed. He examines the amazing progress of Japan and other Pacific Asian countries, explains the decline of German, Canadian, British and French management practices and provides strategies for the marketplace. The business sectors described in this all-encompassing book include high technology, fast-moving packaged consumer goods like detergents, manufacturing and retailing consumer durables like furniture and appliances, soft goods, fashion products, service sector industries, manufacturing, wholesaling and retail trade and a whole range of new service industries. Harte stresses that while management and trade are timeless, dedication in the West has declined. The challenge is how to manage change by innovating and replacing senile customs, systems and institutions with more progressive ones suited to the new business environment. This is unusually tough.

**Iron** Perry Fairfax Nursey, 1846      **Taste the Wind** Robert Livingston, 2021-05-19 In the last years of World War II, the Japanese Imperial Army launched 9,000 balloons with bombs in a last-ditch effort to attack the American mainland. Each balloon carried one high explosive bomb and a number of incendiaries. In theory, these weapons would cause forest fires on the West Coast and if used to carry biological agents, create panic. Traveling in the easterly jet stream, many of the balloons did reach the United States and detonate as planned. Many, however, simply disappeared into the forests of the northwest, armed and dangerous. This is the story of one missing balloon bomb that set off a terrifying forest fire near the California-Oregon border and of three men who were inexplicably linked by time and history to the resulting inferno. In a moment of truth when the fire crowned and torched the land and survival depended on tasting the wind, these men did.
