The Monsters are Due on Maple Street, and Other Plays Eleanor S. Angeles, Edward C. Haggerty, Renee E. Beach, 1990

Monsters on Maple Street David J. Brokaw, 2023-08-08 Post World War II America has often been mythologized by successive generations as an exceptional period of prosperity and comfort. At a time when the Cold War was understood to be a battle of ideas as much as military prowess, the entertainment business relied heavily on subtle psychological marketing to promote the idea of the American Dream. The media of the 1950s and 1960s promoted an idealized version of American life sustained by the nuclear family and bolstered by a booming consumer economy. The seemingly wholesome and simple lifestyles portrayed on television screens however belied a torrent of social, economic, and political struggles occurring at the time. By the late 1950s, television writers were increasingly constrained to distract audiences from confronting counternarratives to the Dream. Among the programs that railed against this trend was Rod Serling's television masterpiece *The Twilight Zone*. Now considered an enduring classic, the allegorical nature of the show provides a window into the many overlooked issues that plagued Cold War America. In *Monsters on Maple Street*, David J. Brokaw describes how the TV show reframed popular portrayals of white American wish fulfillments as nightmares rather than dreams. Brokaw's close reading of the show's sociopolitical dimensions examines how the series creators successfully utilized science fiction, horror, and fantasy to challenge conventional thinking and avoid having their work censored around topics such as sexuality, technology, war, labor, and the workplace, and white supremacy. In doing so, Brokaw helps us understand how the series exposed the underbelly of the American Dream and left indelible impressions in the minds of its viewers for decades to come. *Space and Time* David C. Wright, Jr., Allan W. Austin, 2010-04-19 Essays in this work examine treatments of history in science fiction and fantasy television programs from a variety of disciplinary and methodological perspectives. Some essays approach science fiction and fantasy television as primary evidence demonstrating how such programs consciously or unconsciously elucidate persistent concerns and enduring ideals of a past era and place. Other essays study television as secondary evidence investigating how popular media construct and communicate narratives about past events. **As American as Mom, Baseball, and Apple Pie** Linda J. Holland-Toll, 2001 This book does nothing less than redefine the very genre of horror fiction, calling into question the usual conventions, motifs, and elements. Unlike many critics of this genre, Linda Holland-Toll sees disaffirmative horror fiction acting neither to soothe fears nor reduce them to the vicarious thrills and chills mode, but as intensifying the fears inherent in everyday life. Rod Serling Nicholas Parisi, 2018-10-24 Long before anyone had heard of alien cookbooks, gremlins on the wings of airplanes, or places where pig-faced people are considered beautiful, Rod Serling was the most prestigious writer in American television. As creator, host, and primary writer for *The Twilight Zone*, Serling became something more than an American icon. When Serling died in 1975 at the age of fifty, he was the most honored, most outspoken, most recognizable, and likely the most prolific writer in television history.

Though best known for The Twilight Zone Serling wrote over 250 scripts for film and television and won an unmatched six Emmy Awards for dramatic writing for four different series His filmography includes the acclaimed political thriller Seven Days in May and cowriting the original Planet of the Apes In great detail and including never published insights drawn directly from Serling s personal correspondence unpublished writings speeches and unproduced scripts Nicholas Parisi explores Serling s entire massive body of work With a foreword by Serling s daughter Anne Serling Rod Serling His Life Work and Imagination is part biography part videography and part critical analysis It is a painstakingly researched look at all of Serling s work in and out of The Twilight Zone In the Zone Peter Wolfe,1997 The Twilight Zone explores the possibilities inhering in the ordinary A Twilight Zone episode can move us by being poignant and intimate rambunctious or thought provoking It can also be orchestrated as a set of intertwined plot developments or as a serial progression But regardless of whether it takes place on an asteroid in a city pool room or in the backwoods it will usually convey both a folklorist s eye for detail and the born raconteur s sense of pace Rod Serling the show s founder main scriptwriter and artistic director knew how much burden he could place on his rhetorical and dramatic gifts Deservedly celebrated as a pioneer in TV science fiction he also writes about history and loyalty the grip of everyday reality and the dangers of both forgetting about one s ghosts and giving them the upper hand

A Critical History of Television's The Twilight Zone, 1959-1964 Don Presnell,Marty McGee,2015-07-11 Rod Serling s anthology series The Twilight Zone is recognized as one of the greatest television shows of all time Always intelligent and thought provoking the show used the conventions of several genres to explore such universal qualities as violence fear prejudice love death and individual identity This comprehensive reference work gives a complete history of the show from its beginning in 1959 to its final 1964 season with critical commentaries incisive analyses and the most complete listing of casts and credits ever published Biographical profiles of writers and contributors are included followed by detailed appendices bibliography and index
