*Mont-Saint-Michel and Chartres* Henry Adams, 1986-06-03 Mont Saint Michel and Chartres is a record not of a literal journey but of a meditative journey across time and space into the medieval imagination Using the architecture sculpture and stained glass of the two locales as a starting point Adams breathes life into what others might see merely as monuments of a past civilization With daring and inventive conceits Adams looks at the ordinary people places and events in the context of the social conventions and systems of thought and belief of the thirteenth century turning the study of history into a kind of theater As Raymond Carney discusses in his introduction Adams freedom from the European traditions of study lends an exuberance and puckish wit to his writings For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators

**Penguin Classics** Penguin (Firm), 1999 **The Interpersonal Perspective in Psychoanalysis, 1960s-1990s** Donnel B. Stern, Irwin Hirsch, 2017-02-28 North American psychoanalysis has long been deeply influenced and substantially changed by clinical and theoretical perspectives first introduced by interpersonal psychoanalysis Yet even today despite its origin in the 1930s many otherwise well read psychoanalysts and psychotherapists are not well informed about the field *The Interpersonal Perspective in Psychoanalysis 1960s 1990s* provides a superb starting point for those who are not as familiar with interpersonal psychoanalysis as they might be For those who already know the literature the book will be useful in placing a selection of classic interpersonal articles and their writers in key historical context During the time span covered in this book interpersonal psychoanalysis was most concerned with revising the understanding of the analytic relationship transference and countertransference and how to work with it Most of the works collected here center on this theme The interpersonal perspective introduced the view that the analyst is always and unavoidably a particular real person and that transference and countertransference need to be reconceptualized to take the analyst's individual humanity into account The relationship needs to be grasped as one taking place between two very particular people Many of the papers are by writers well known in the broader psychoanalytic world such as Bromberg Greenberg Levenson and Mitchell But also included are those by writers who while not as widely recognized beyond the interpersonal literature have been highly influential among interpersonalists including Barnett Schecter Singer and Wolstein Donnel B Stern and Irwin Hirsch prominent interpersonalists themselves present each piece with a prologue that contextualizes the author and their work in the

interpersonal literature An introductory essay also reviews the history of interpersonal psychoanalysis explaining why interpersonal thinking remains a coherent clinical and theoretical perspective in contemporary psychoanalysis The Interpersonal Perspective in Psychoanalysis 1960s 1990s will appeal greatly to psychoanalysts and psychoanalytic psychotherapists wanting to know more about interpersonal theory and practice than can be learned from current sources

Stairway to the Mind Alwyn Scott,2012-12-06 Stairway to the Mind explores one of the most exciting and controversial areas of modern science consciousness and the nature of the mind The book proposes that consciousness emerges from hierarchical layers of mental reality in the same way that life emerges from layers of biological reality The book is aimed at general readers with an interest in the mind and neuroscience as well as a wide range of scientists whose work is related to the rapidly growing field of neuroscience and consciousness research Late Victorian Orientalism Eleonora

Sasso,2020-06-30 Late Victorian Orientalism is a work of scholarly research pushing forward disciplines into new areas of enquiry This collection of essays tries to redefine the task of interpreting the East in the nineteenth century taking as a starting point Edward Said s Orientalism 1978 in order to investigate the visual fantasised and imperialist representations of the East as well as the most exemplary translations of Oriental texts The Victorians envisioned the East in many different modes or Orientalisms since as Said suggested there were perhaps as many Orientalisms as Orientalists By combining together Western and Oriental modes of art this study is not only aimed at filling a gap in Victorian and Oriental studies but also at broadening the audiences it is intended for **Behold the Lilies** H. Paul Santmire,2017-03-21 Behold the Lilies draws from the riches of the author s long standing work in the theology of nature and ecological spirituality especially from his classic historical study The Travail of Nature 1985 and from his Franciscan exploration in Christian spirituality Before Nature 2014 In this new volume Santmire maintains that those who would follow Jesus are mandated not just to care for the earth and all its creatures but also to contemplate the beauties of the whole creation beginning with the lilies of the field His first person reflections range from Scything with God to Rediscovering Saint Francis in Stone from Taking a Plunge in the Niagara River to Pondering the Darkness of Nature Behold the Lilies offers brief spiritual reflections that can be read in any order over a period of time This accessible primer will be welcomed not only by those who have already identified themselves with the way of Jesus but also by others who are searching for a contemplative spirituality attuned to global ecological and justice issues *Henry Adams* James P. Young,2021-10-08 Henry Adams has been a neglected figure in recent years The Education of Henry Adams is widely accepted as a classic of American letters but his other work is little read except by specialists His brilliant journalism is out of print while Mont Saint Michel and Chartres and the novels Democracy and Esther receive little attention Even the monumental History of the Administrations of Thomas Jefferson and James Madison considered by some to be the greatest history written by any American seems noticed only by scholars of that period James P Young author of the highly regarded Reconsidering American Liberalism seeks to revive interest in the thought of Adams by

extracting core ideas from his writings concerning both American political development and the course of world history and then showing their relevance to the contemporary longing for a democratic revival In this revisionist study Young denies that Adams was a reactionary critic of democracy and instead contends that he was an idealistic though often disappointed advocate of representative government Young focuses on Adams s belief that capitalist industrial development during the Gilded Age had debased American ideals and then turns to a careful study of Adams s famous contrast of the unity of medieval society with the fragmentation of modern technological society Though fully aware of Adams s concerns about technology Young rejects the idea that Adams was bitterly opposed to twentieth century developments in that field He shows that though a liberal democrat with inclinations toward reform Adams is much too sophisticated to be captured by any simple label

Toward a Science of Consciousness Stuart R. Hameroff, Alfred W. Kaszniak, Alwyn Scott, 1996 This text originates from the second of two conferences discussing the concept of consciousness In 15 sections this book demonstrates the broad range of fields now focusing on consciousness

*Critical Reflection* Malcolm Murray, Nebojsa Kujundzic, 2005-04-26 In an era of information overload our need to learn how to critically evaluate the growing flood of information has never been greater Critical Reflection showcases the role of reason in a world saturated by media enhanced persuasion and complex scientific and technological jargon Drawing from the classic philosophical texts this engaging textbook on the art of analyzing arguments is also relevant to today s undergraduates in its use of real life examples and exercises drawn mainly from media and politics Malcolm Murray and Nebojsa Kujundzic cover the standard subjects in a one semester course on critical thinking offering ways to analyze arguments in the following areas language use acceptability conditions for truth categorical and propositional logic induction causal claims probability reasoning analogical reasoning an in depth analysis of informal fallacies Critical Reflection further distinguishes itself with in depth answers to chapter exercises that are incorporated directly into the authors detailed discussions This is an ideal textbook to help professors foster autonomous thinking among their students

Partial Truths and the Politics of Community Robin L. Teske, Mary Ann Tétreault, 2003 Partial Truths and the Politics of Community considers what happens after feminists succeed in achieving social change or in founding organizations dedicated to accomplishing their personal and social goals This collection of eighteen essays by scholars from the fields of international relations and feminist studies explores the theoretical dilemmas and practical politics of living with raised consciousnesses in worlds of our own making The contributors explore feminisms as dreams of human rights as a cluster of ideologies and as a bounty of social practices set within frameworks for tackling problems in nation building and global governance In essays that illustrate the impact of feminist concerns with the quality of education the contributors offer studies of homeschooling of the education of impoverished girls in rural Mexico of sororities and their relation to female autonomy and of the teaching of prisoners by volunteers in county jails Other contributors call for a greater attention to the ecology of social life viewing society as a complex of individuals bound to one another through webs of transactions and

obligations These contributors recount examples from Northern Ireland Poland and the United States in which such webs sometimes support and sometimes strangle efforts to achieve human dignity and autonomy Evaluating progress made in the legal realm other contributors chart the opportunities and limitations of international and domestic law as tools to advance and protect human rights They consider gender discrimination in universities and colleges the United Nations and its mixed record on women s issues and the effects of adding rape to the list of prosecutable war crimes The volume concludes with two works on how feminism supports democratic constructions of science and religion with results that destabilize dominant institutions in both realms

*Standing in the Spaces* Philip M. Bromberg, 2014-03-05 Early in these essays Bromberg contemplates how one might engage schizoid detachment within an interpersonal perspective To his surprise he finds that the road to the patient s disavowed experiences most frequently passes through the analyst s internal conversation as multiple configurations of self other interaction previously dissociated are set loose first in the analyst and then played out in the interpersonal field This insight leads to other discoveries Beneath the dissociative structures seen in schizoid patients and also in other personality disorders Bromberg regularly finds traumatic experience even in patients not otherwise viewed as traumatized This discovery allows interpersonal notions of psychic structure to emerge in a new light as Bromberg arrives at the view that all severe character pathology masks dissociative defenses erected to ward off the internal experience of trauma and to keep the external world at bay to avoid retraumatization These insights in turn open to a new understanding of dissociative processes as intrinsic to the therapeutic process per se For Bromberg it is the unanticipated eruption of the patient s relational world with its push pull impact on the analyst s effort to maintain a therapeutic stance that makes possible the deepest and most therapeutically fruitful type of analytic experience Bromberg s essays are delightfully unpredictable as they strive to keep the reader continually abreast of how words can and cannot capture the subtle shifts in relatedness that characterize the clinical process Indeed at times Bromberg s writing seems vividly to recreate the alternating states of mind of the relational analyst at work Stirring evocative in character and radiating clinical wisdom infused with compassion and wit *Standing in the Spaces* is a classic destined to be read and reread by analysts and therapists for decades to come

*Listening To Heloise* NA NA, 2016-04-30 Heloise the twelfth century French abbess and reformer emerges from this book as one of history s most extraordinary women a thinker writer of profound insight and skill Her supple and learned mind attracted the most radical philosopher of her time Peter Abelard He became her teacher lover husband and finally monastic ally That relationship has made her fame until now But Heloise is far more important in her own right Seventeen experts of international standing collaborate here to reveal and analyze how Heloise s daring achievements shaped normative issues of theology rhetoric rational argument gender and emotional authenticity At last we are able to see her for herself in her moment of history and human awareness

**Terrence Malick and the Examined Life** Martin Woessner, 2024-03-25 Terrence Malick is one of American cinema s most celebrated filmmakers His films from

Badlands 1973 and Days of Heaven 1978 to The Thin Red Line 1998 The Tree of Life 2011 and most recently A Hidden Life 2019 have been heralded for their artistry and lauded for their beauty but what really sets them apart is their ideas Terrence Malick and the Examined Life is the most comprehensive account to date of this unparalleled filmmaker's intellectual and artistic development Utilizing newly available archival sources to offer original interpretations of his canonical films Martin Woessner illuminates Malick's early education in philosophy at Harvard and Oxford as well as his cinematic apprenticeship at the American Film Institute to show how a young student searching for personal meaning became a famous director of Hollywood films Woessner's book presents a rich interdisciplinary exploration of the many texts thinkers and traditions that made this transformation possible from the novels of Hamlin Garland James Jones and Walker Percy to the philosophies of Stanley Cavell Martin Heidegger and Søren Kierkegaard to road movies Hollywood Westerns and the comedies of Jean Renoir Situating Malick's filmmaking within recent intellectual and cultural history Woessner highlights its lasting contributions to both American cinema and the life of the mind Terrence Malick and the Examined Life suggests it is time for philosophy to be viewed not merely as an academic subject overseen by experts but also as a way of life open to each and every moviegoer

*An American Body-politic* Bernd Herzogenrath, 2010 A reflection on the metaphor of the body politic throughout American history **Mysteries of the Middle Ages** Thomas Cahill, 2010-04-28 From the national bestselling author of *How the Irish Saved Civilization* a fascinating look at how medieval thinkers created the origins of modern intellectual movements Intoxicating Cahill's command of rich historical detail makes medieval cities and their colorful characters come to alive The Los Angeles Times After the long period of decline known as the Dark Ages medieval Europe experienced a rebirth of scholarship art literature philosophy and science and began to develop a vision of Western society that remains at the heart of Western civilization today from the entry of women into professions that had long been closed to them to the early investigations into alchemy that would form the basis of experimental science On visits to the great cities of Europe monumental Rome the intellectually explosive Paris of Peter Abelard and Thomas Aquinas the hotbed of scientific study that was Oxford and the incomparable Florence of Dante and Giotto acclaimed historian Thomas Cahill brilliantly captures the spirit of experimentation the colorful pageantry and the passionate pursuit of knowledge that built the foundations for the modern world *Domesticity and Design in American Women's Lives and Literature* Caroline Hellman, 2011-06-06 This book considers the ways Cather Stowe Wharton and Alcott inhabited domestic space and portrayed it in their work Exploring authors who had intriguing and autonomous relationships with home Hellman undertakes a dual treatment of domesticity synthesizing a more complete understanding of the relationships between social history and literary accomplishment

Young Adult Reader's Adviser Marion Sader, 1992-01-30 The best in literature and language arts mathematics and computer science 書籍-書籍:書籍-書籍-書籍-書籍-書籍, 2001-09-15 *Performing Identities and Utopias of Belonging* Teresa Botelho, Iolanda Ramos, 2014-07-08 Performing Identities and Utopias of Belonging consists of sixteen essays

reflecting the current conflicted debate on the ontology constructiveness and affect of categories of ascribed social identity such as gender ethnicity race and nation in the context of British Irish and North American cultural landscapes They address the many ways in which these communities of belonging are imagined iterated performed questioned and deconstructed in literature cinema and visual culture they also support or counter claims about the enhanced value of social identity in the expression of the self in the light of the present debates that surround the contested post identity turn in cultural studies Significantly they also address the role of social identity in the field of utopian and dystopian thought focusing on the projection of imagined futures where alternative means of conceiving ascribed identity are conceptualized The contributions are shaped by a plurality of approaches and theoretical discourses and come from both established and emerging scholars and researchers from Europe and beyond The collection is structured in three sections the politics of un belonging deconstructing utopian and cultural paradigms and performing identities in the visual arts which organize the multidisciplinary discussions around specific nuclei of interrogations
