Figueira,2008-10-23 Tracing the historical development of recent identity based trends in literary theory to their roots in structuralism Dorothy M Figueira questions the extent to which theories and pedagogies of alterity have actually enabled us to engage the Other She tracks academic attempts to deal with alterity from their inception in critical thought in the 1960s to the present Focusing on multiculturalism and postcolonialism as professional and institutional practices Figueira examines how such theories and pedagogies informed the academic and public discourse regarding September 11 She also investigates the theories and pedagogies of alterity as crucial elements in the bureaucratization of diversity within academe and discusses their impact on affirmative action **The Pyrenees in the Modern Era** Martyn Lyons,2018-02-22 This original study examines different incarnations of the Pyrenees beginning with the assumptions of 18th century geologists who treated the mountains like a laboratory and romantic 19th century tourists and habitu s of the spa resorts who went in search of the picturesque and the sublime The book analyses the individual visions of the heroic Pyrenees which in turn fascinated 19th century mountaineers and the racing cyclists of the early Tour de France Martyn Lyons also investigates the role of the Pyrenees during the Second World War as an escape route from Nazi occupied France when for thousands of refugees these dangerous borderlands became the mountains of liberty and considers the place of the Pyrenees in recent times right up to the present day Drawing on travel writing press reports and scientific texts in several languages The Pyrenees in the Modern Era explores both the French and Spanish sides of the Pyrenees to provide a nuanced historical understanding of the cultural construction of one of Europe s most prominent border regions This book will be of great interest to scholars and students of Europe s cultural history in a transnational context New Critical Thinking Julian Wolfreys,2017-06-02 Introduces advanced students of literature to the latest critical

inquisitorial sources this study examines the complexities revolving around transgenderism and the construction of gender identity in the early modern Iberian World It throws light upon the manner in which the Inquisition medical practitioners and the wider society in Spain and Portugal responded to transgenderism and on the self perception of individuals whose behaviour whether consciously or unconsciously flouted these social and sexual conventions Crime Control As Industry Nils Christie,2016-10-04 Crime Control As Industry translated into many languages is a modern classic of criminology and sociology Nils Christie one of the leading criminologists of his era argues that crime control rather than crime itself is the real danger for our future Prison populations especially in Russia and America have grown at an increasingly rapid rate and show no signs of slowing Christie argues that this vast and growing population is the equivalent of a modern gulag run by a rapacious industry both public and private with vested interests in incarceration Pain and confinement are products like any other with a potentially limitless supply of resources Widely hailed as a classic account of crime and restorative justice Crime Control As Industry s prophetic insights and proposed solutions are essential reading for anyone interested in crime and the global penal system This Routledge Classics edition includes a new foreword by David Garland **Medieval Justice** Hunt Janin,2009-10-15 A primer on medieval justice this book focuses on France Germany and England and covers the thousand years between the transformation of the Roman world in Western Europe which took place around the 4th and 5th centuries and the European Renaissance of the 14th and 15th centuries It highlights key elements in the intricate overlapping legal systems of the Middle Ages and describes a wide range of contemporary laws and cases A discussion of the modern legacies of medieval law is included as are a brief overview of the Inquisition the 27 articles of Joan of Arc and useful commentary on many other topics Illustrations range from the earliest known depictions of English courts and illuminations of torture to pictures of important sites events and instruments of punishment in medieval law Montaillou Emmanuel Le Roy Ladurie,1978 Life in a medieval French village recreated from the records of the Inquisition *Doing History* Mark Donnelly,Claire Norton,2020-11-16 Doing History bridges the gap between the way history is studied in school or as represented in the media and the way it is studied at university level History as an academic discipline has dramatically changed in recent decades and has been enhanced by ideas from other disciplines the influence of postmodernism and historians incorporation of their own reflections into their work Doing History presents the ideas and debates that shape how we do history today covering arguments about the nature of historical knowledge and the function of historical writing whether we can ever really know what happened in the past what sources historians depend on and the relative value of popular and academic histories This revised edition includes new chapters on public history and activist histories It looks at global representations of the past across the centuries and provides up to date suggestions for further reading presenting the reader with a thorough and current introduction to studying history at an academic level as well as a pathway to progress this study further Clearly structured and accessibly written it is an essential volume for all students embarking on the study

of history      *Sainthood in the Later Middle Ages* Andri Vauchez, André Vauchez, 2005-02-17 This is a standard work of reference for the study of the religious history of western Christianity in the later middle ages which since its original publication in French in 1981 has come to be regarded as one of the great contributions to medieval studies of recent times Hagiographical texts and reports of the processes of canonisation a mode of investigation into saints lives and their miracles implemented by the popes from the end of the twelfth century are here used for the first time as major source materials The book illuminates the main features of the medieval religious mind and highlights the popes attempts to gain firmer control over the wide variety of expressions of faith towards the saints in order to promote a higher pattern of devotion and moral behaviour among Christians      **The Origins of Inequality** Per Molander, 2022-03-07 This book presents a unified approach to the problem of inequality combining results from a variety of research fields the human life cycle group dynamics networks markets and economic geography Its main message is that inequality emerges as the natural result of mechanisms operating both in individual human development and in social interaction It posits that inequality is not an anomalous deviation from a naturally egalitarian social structure quite to the contrary inequality is to be expected as part of the human condition The author states that the growth of inequality on the other hand is not a natural law the level and character of inequality can be affected by collective decisions This perspective on human inequality has potentially far reaching consequences both for the political philosophy of inequality and for public policy making This book is of interest to a wide interdisciplinary social science readership including public policy decision sciences economic geography and life course studies      Same-sex Sexuality in Later Medieval English Culture Tom Linkinen, 2025-10-01 This volume investigates the state of same sex relations in later medieval England drawing on a remarkably rich array of primary sources from the period that include legal documents artworks theological treatises and poetry Tom Linkinen uses those sources to build a framework of medieval condemnations of same sex intimacy and desire and then shows how same sex sexuality reflected and was inflected by gender hierarchies approaches to crime and the conspicuous silence on the matter in the legal systems of the period      **A History of Fatigue** Georges Vigarello, 2022-10-14 Stress burn out mental overload the twentieth and twenty first centuries have witnessed an unrelenting expansion of the meaning of fatigue The tentacles of exhaustion insinuated themselves into every aspect of our lives from the workplace to the home from our relationships with friends and family to the most intimate aspects of our lives All around us are the signs of a burn out society a society in which fatigue has become the norm How did this happen This pioneering book explores the rich and little known history of fatigue from the Middle Ages to the present Vigarello shows that our understanding of fatigue the words used to describe it and the symptoms and explanations of it have varied greatly over time reflecting changing social mores and broader aspects of social and political life He argues that the increased autonomy of people in Western societies whether genuine or assumed the positing of a more individualized self and the ever expanding ideal of independence and freedom have constantly made it more difficult for

us to withstand anything that constrains or limits us This painful contradiction causes weariness as well as dissatisfaction Fatigue spreads and becomes stronger imperceptibly permeating everything seeping into ordinary moments and unexpected places Ranging from the history of war religion and work to the history of the body the senses and intimacy this history of fatigue shows how something that seems permanently centered in our bodies has over the course of centuries also been ingrained in our minds in the end affecting the innermost aspects of the self Growing Old in the Middle Ages Shulamith Shahar,2004 This study draws a comprehensive picture of medieval old age in western Europe combining primary sources and secondary literature to produce a broad cultural history **Telling the Tale of Jaufre** Anne Lister,2023-10-31 For the first time in almost 800 years Anne Purbrick under her performing name of Anne Lister has brought the lively engaging and entertaining Tale of Jaufre off the library shelves and has been telling it to audiences There are several mysteries about Jaufre when and why was a story about King Arthur written for a king of Aragon and why in Occitan Investigating this 13th century story from the practical standpoint of a storyteller has produced a number of new insights and discoveries This book explores the background in detail from the manuscripts and fragments which have survived to the people for whom the story was created as well as its extensive later history and then discusses the decisions the revelations and the difficulties of telling the story to 21st century audiences The Tale of Jaufre is remarkably little known outside modern Spain and yet as this book demonstrates it has links to the extended family of Alienor of Aquitaine and Henry II of England and therefore across Europe

**Medieval Monastic Preaching** Carolyn Muessig,1998 This book demonstrates that monastic preaching was a diverse activity which included preaching by monks nuns and heretics The study offers a preliminary step in understanding how preaching shaped monastic identity in the Middle Ages
