## **Moral Disagreements Classic And Contemporary Readings:**

*Moral Disagreements* Christopher W. Gowans, 2000 The problem of moral disagreement is one of the central problems in moral thinking This is the first anthology to bring together classic and contemporary readings on the topic *Moral Disagreements* Christopher W. Gowans, 2013-04-03 Can moral disagreements be rationally resolved Can universal human rights be defended in face of moral disagreements The problem of moral disagreement is one of the central problems in moral thinking It also provides a stimulating stepping stone to some of the perennial problems of philosophy such as relativism scepticism and objectivity *Moral Disagreements* is the first anthology to bring together classic and contemporary readings on this key topic Clearly divided into five parts The Historical Debate Voices from Anthropology Challenges to Moral Objectivity Defenses of Moral Objectivity and New Directions the anthology presents readings from the following key thinkers Sextus Empiricus Chagnon Wong MacIntyre Aquinas Shweder Brink Rawls Montaigne Turner Nussbaum Narayan Hume Mackie Gewirth Nietzsche Williams Berlin A distinctive feature of the anthology is that it brings philosophers into dialogue with well known anthropologists Also included is a comprehensive introduction by Christopher Gowans introducing the problem of moral disagreement to those coming to the topic for the first time **Applied Ethics and Human Rights**

Shashi Motilal, 2011 This collection of papers offers a philosophical perspective including the all important and significant perspective from the point of view of dharma to a host of intricate ethical problems in personal professional and social life by providing an understanding of the concepts of human rights and responsibilities which are central to those problems

*Moral Disagreement* Folke Tersman, 2006-03-13 Folke Tersman explores the nature of moral thinking by examining moral disagreement **Comparative Human Rights Law** Sandra Fredman, 2018 An essential overview of the comparative study of human rights law This book will introduce students academics and legal practitioners to the aims and methods of approaching human rights from a comparative perspective *Moral Reality and the Empirical Sciences* Thomas Pölzler, 2018-05-11 Are there objective moral truths things that are morally right or wrong independently of what anybody thinks about them To answer this question more and more scholars have recently begun to appeal to evidence from scientific disciplines such as psychology neuroscience biology and anthropology This book investigates this novel scientific approach in a comprehensive empirically focused partly clarificatory and partly metatheoretical way It argues for two main theses First it is possible for the empirical sciences to contribute to the moral realism anti realism debate And second most appeals to science that have so far been proposed are insufficiently empirically substantiated The book's main chapters address four prominent science based arguments for or against the existence of objective moral truths the presumptive argument the argument from moral disagreement the sentimentalist argument and the evolutionary debunking argument For each of these arguments Thomas Pölzler first identifies the sense in which its underlying empirical hypothesis would have to be true in order for the argument to work Then he shows that the available scientific evidence fails to support this hypothesis Finally he

also makes suggestions as to how to test the hypothesis more validly in future scientific research Moral Reality and the Empirical Sciences is an important contribution to the moral realism anti realism debate that will appeal both to philosophers and scientists interested in moral psychology and metaethics

**Moral Psychology** Mark Alfano,2016-09-06 Moral psychology is the systematic inquiry into how morality works when it does work and breaks down when it doesn t work In this comprehensive new textbook Mark Alfano outlines the five central concepts in the study of moral psychology agency patiency sociality temporality and reflexivity Subsequent chapters each assess a key area of research which Alfano relates both to the five central concepts and to empirical findings He then draws out the philosophical implications of those findings before suggesting future directions for research One of Alfano s guiding themes is that moral philosophy without psychological content is empty whereas psychological investigation without philosophical insight is blind He advocates and demonstrates a holistic vision that pictures moral psychology as a project of collaborative inquiry into the descriptive and normative aspects of the human condition Featuring a glossary of technical terms further reading sections and chapter by chapter study questions this rich systematic and accessible introduction to moral psychology will be suitable for both undergraduates and researchers in philosophy psychology and related fields

**The Morality of Conflict** Samantha Besson,2005-11-25 This book explores the relationship between the law and pervasive and persistent reasonable disagreement about justice It reveals the central moral function and creative force of reasonable disagreement in and about the law and shows why and how lawyers and legal philosophers should take reasonable conflict more seriously Even though the law should be regarded as the primary mode of settlement of our moral conflicts it can and should also be the object and the forum of further moral conflicts There is more to the rule of law than convergence and determinacy and it is important therefore to question the importance of agreement in law and politics By addressing in detail issues pertaining to the nature and sources of disagreement its extent and significance as well as the procedural institutional and substantive responses to disagreement in the law and their legitimacy this book suggests the value of a comprehensive approach to thinking about conflict which until recently has been analysed in a compartmentalized way It aims to provide a fully fledged political morality of conflict by drawing on the analysis of topical jurisprudential questions in the new light of disagreement Developing such a global theory of disagreement in the law should be read in the context of the broader effort of reconstructing a complete account of democratic law making in pluralistic societies The book will be of value not only to legal philosophers and constitutional theorists but also to political and democratic theorists as well as to all those interested in public decision making in conditions of conflict

Martin Hoffman author John C Gibbs addresses fundamental questions What is morality Can we speak validly of moral development Is the moral motivation of behavior primarily a matter of justice or of empathy Does moral development including moments of moral inspiration reflect a deeper reality Useful for promoting classroom debate and academic dialogue this innovative book examines Fundamental themes of Kohlberg s cognitive developmental approach The recent integration of Hoffman s theory and research on empathy and moral development Moral self relevance and other variables that account for prosocial behavior The understanding and treatment of antisocial behavior Issues of moral motivation perception and reality Moral Development and Reality elucidates the full range of moral development from superficial perception to a deeper understanding and feeling through social perspective taking Providing case studies and chapter questions Gibbs creates a unique framework for understanding Kohlberg s and Hoffman s influential contributions Primarily intended for advanced undergraduate and graduate students in the social and behavioral sciences counseling and education Moral Development and Reality will also appeal to scholars in these disciplines      Taking Morality Seriously David Enoch,2011-07-28 In Taking Morality Seriously A Defense of Robust Realism David Enoch develops argues for and defends a strongly realist and objectivist view of ethics and normativity more broadly This view according to which there are perfectly objective universal moral and other normative truths that are not in any way reducible to other natural truths is familiar but this book is the first in detail development of the positive motivations for the view into reasonably precise arguments And when the book turns defensive defending Robust Realism against traditional objections it mobilizes the original positive arguments for the view to help with fending off the objections The main underlying motivation for Robust Realism developed in the book is that no other metaethical view can vindicate our taking morality seriously The positive arguments developed here the argument from the deliberative indispensability of normative truths and the argument from the moral implications of metaethical objectivity or its absence are thus arguments for Robust Realism that are sensitive to the underlying pre theoretical motivations for the view      *Catholic Moral Theology and Social Ethics* Christina Astorga,2013-12-01 Proposing a new method for moral theology Christina Astorga seeks to recast our understanding of the discipline by drawing from the faith vision of the entire theological enterprise including scripture dogmatic theology social ethics and spirituality
