*Nature as Reason* Jean Porter, 2005 This noteworthy book develops a new theory of the natural law that takes its orientation from the account of the natural law developed by Thomas Aquinas as interpreted and supplemented in the context of scholastic theology in the twelfth and thirteenth centuries Though this history might seem irrelevant to twenty first century life Jean Porter shows that the scholastic approach to the natural law still has much to contribute to the contemporary discussion of Christian ethics Aquinas and his interlocutors provide a way of thinking about the natural law that is distinctively theological while at the same time remaining open to other intellectual perspectives including those of science In the course of her work Porter examines the scholastics assumptions and beliefs about nature Aquinas s account of happiness and the overarching claim that reason can generate moral norms Ultimately Porter argues that a Thomistic theory of the natural law is well suited to provide a starting point for developing a more nuanced account of the relationship between specific beliefs and practices While Aquinas s approach to the natural law may not provide a system of ethical norms that is both universally compelling and detailed enough to be practical it does offer something that is arguably more valuable namely a way of reflecting theologically on the phenomenon of human morality

**Embracing Vulnerability** Roberto Sirvent, 2017-04-27 Arguments in favour of divine impassibility take many forms one of which is moral This argument views emotional risk vulnerability suffering and self love as obstacles to moral perfection In Embracing Vulnerability Human and Divine the author challenges these mistaken assumptions about moral judgment Through an analysis of Hebrew thought and modern philosophical accounts of love justice and emotion Roberto Sirvent reveals a fundamental incompatibility between divine impassibility and the Imitation of God ethic imitatio Dei This book shows that a God who is not emotionally vulnerable is a God unworthy of our imitation But in what sense can we call divine impassibility immoral To be sure God s moral nature teaches humans what it means to live virtuously But can human understandings of morality teach us something about God s moral character If true how should we go about judging God s moral character Isn t it presumptuous to do so After all if we are going to challenge divine impassibility on moral grounds what reason do we have to assume that God is bound by our standards of morality Embracing Vulnerability Human and Divine addresses these questions and many others In the process Sirvent argues for the importance of thinking morally about theology inviting scholars in the fields of philosophical theology and Christian ethics to place their theological commitments under close moral scrutiny and to consider how these commitments reflect and shape our understanding of the good life

**Moral Status** Mary Anne Warren, 1997-11-13 Mary Anne Warren explores a theoretical question which lies at the heart of practical ethics what are the criteria for having moral status In other words what are the criteria for being an entity towards which people have moral obligations Some philosophers maintain that there is one intrinsic property for instance life sentience humanity or moral agency Others believe that relational properties such as belonging to a human community are more important In Part I of the book Warren argues that no single property can serve as the sole criterion for moral status instead life sentience moral agency and social and biotic relationships are all relevant each in a different way She presents seven basic principles each focusing on a property that can in combination with others legitimately affect an agent s moral obligations towards entities of a given type In Part II these principles are applied in an examination of three controversial ethical issues voluntary euthanasia abortion
