More Translations from the Chinese Arthur Waley, 2016-09-06 IN the preface to Mr Waley's volume of translations there is a remark to the effect that no reviewer treated his earlier book 170 Chinese Poems as an experiment in English unrhymed verse though this was the aspect of it which most interested the writer This remark is perfectly just No one did treat Mr Waley's earlier translations as examples of unrhymed versification We with our Occidental eyes are so dazzled with the substance of Chinese poetry as Mr Waley has revealed it to us the seemingly pellucid simplicity concealing great depths of feeling as not to ask ourselves the question of how it is done Mr Waley may be excused his irritation at our blindness in this respect For he has evolved a metre and style which show in so far as one language can show the structure of another exactly how the Chinese poets worked And as the Chinese poets themselves undoubtedly set higher value on technique than on subject matter it is certainly necessary to analyze the technique of these translations in order to understand one reason for the strange charm of Chinese poetry Chinese poetry is based on a parallelism of thought and of substance Even in its early examples this parallelism is crudely manifest This parallelism runs in fact not only through Chinese poetry but Chinese philosophy and religion It corresponds to a deep seated instinct in the Oriental mind We Occidentals when we make buildings pictures poems music or philosophic systems seek to vary the Oriental seeks to repeat It is as if he could not create a form a sound a thought without creating also its echo For this reason Chinese poetry is without climax for this reason also much like Chinese painting it compensates for absence of climax by sheer breadth of handling As Mr Waley in the introduction to his first book of translations pointed out this parallelism did not come to birth all at once Indeed the Chinese critics themselves have recognized two species of poetry poetry written in the Old Style Ku shih which lasted up to the fourth century A D and poetry written in the New Style Lu shih or strictly regulated which gradually evolved from the fourth to the eighth centuries A D reaching its culmination in the works of T'ang poets who are by common consent the great masters of the art of Chinese Poetry And since it is largely these T'ang poets whom Mr Waley has chosen to translate it is quite evident that for the most part his translations reproduce so far as possible the forms of this new or strictly regulated style The Dial Vol 68 [More Translations from the Chinese](#) Anonymous, 2019-11-20 In *More Translations from the Chinese* Anonymous continues the tradition of bridging linguistic and cultural divides through a meticulously curated selection of translated texts This collection showcases a diverse array of Chinese literature ranging from classical poetry to contemporary prose each presented with a keen sensitivity to the original's intricacies and subtleties The literary style is marked by clarity and lyrical beauty reflecting both the aesthetic traditions of Chinese writing and the unique perspectives of the translator With an emphasis on cross cultural dialogue this anthology situates itself within the broader context of global literary exchange inviting readers to explore the depth and richness of Chinese narratives The enigmatic author Anonymous likely draws upon a deep academic

background in East Asian studies and a passion for literary translation Their dedication to the art of translation reveals a commitment to authenticity and cultural preservation suggesting an intimate understanding of the complexities involved in rendering nuanced meanings from one language to another The author s anonymity adds an air of mystery allowing the texts themselves to take center stage unhindered by individual influence or identity *More Translations from the Chinese* is highly recommended for readers interested in expanding their literary horizons and engaging with the profound insights encapsulated in Chinese literature This collection serves not only as an introduction to Chinese texts but also as a testament to the universal themes of humanity identity and artistic expression making it an essential addition to any literary library
