## **Morgana Service Manuals:**

**Fata Morgana** Eleanor Hawking, AI, 2025-01-30 Fata Morgana delves into one of nature's most captivating optical illusions where objects appear to float, distort or invert in the atmosphere. This comprehensive exploration reveals how specific atmospheric conditions, particularly temperature inversions where warm air sits above cool air, create natural refractive lenses that bend light in extraordinary ways. The phenomenon has not only puzzled observers for centuries but has also influenced maritime history, scientific understanding and polar expeditions. The book progresses through three main sections beginning with the fundamental physics of atmospheric optics and light behavior through air density gradients. It then transitions to documented historical sightings including the remarkable 1936 case off Sicily's coast where an entire fleet appeared to float upside down in the sky. The final section examines modern research methodologies and prediction technologies connecting traditional observations with contemporary science. What makes this work particularly valuable is its interdisciplinary approach weaving together meteorology, physics and historical research while maintaining accessibility for both academic and general readers. Through detailed case studies and previously unpublished expedition logs, the book illuminates how these atmospheric displays have impacted navigation, influenced folklore and contributed to our understanding of climate science. Technical concepts are explained through practical examples making complex atmospheric physics comprehensible without sacrificing scientific accuracy.

**The Zombie Godmother** Ida Vega-Landow, 2024-12-24

Somewhere on the Lower East Side of New York, right by the East River, is a homeless shelter run by a half-human fairy godmother, Morgana Moros. She gives shelter, food and medical care to the homeless, the abused, the runaways and the illegal immigrants. She also uses a mixture of traditional elven and Caribbean magic to raise the murdered dead, resurrecting them as sentient zombies who still possess their souls and memories so they can take revenge upon their murderers. Most of the shelter's staff and volunteers are zombies wearing a glamor charm designed by Morgana to make them look the same way they appeared before they died. Their lawful prey are sinners who break the laws of God and mankind, and there are sure plenty of those in New York City. In addition to dealing with muggers, rapists, gangsters, pedophiles and a nosy ICE agent, there's also her old frenemy Lucien Estrella aka Lucifer Morningstar for whom she was once a soul collector. When he makes her an offer to extend the life span of her beloved husband in return for seven unrepentant souls, she discovers too late that she has endangered the souls of her most beloved zombie children as well.
