# Mortgaging Womens Lives Feminist Critiques Of Structural Adjustment

**Barnali Choudhury**

## **Mortgaging Womens Lives Feminist Critiques Of Structural Adjustment:**

**Mortgaging Women's Lives** Pamela Sparr, 1994 Een evaluatie aan de hand van een reeks case studies van de impact van het economisch beleid van het Internationaal Muntfonds en de Wereldbank op vrouwen in de ontwikkelingslanden met onder meer aandacht voor het gevoerde overheidsbeleid en de impact van de door de internationale instanties opgelegde maatregelen op plattelandsvrouwen

**The Elgar Companion to Feminist Economics** Janice Peterson, Margaret Lewis, 2001-01-01 Comprehensive reference work introducing readers to the field of feminist economics It addresses key concepts as well as feminist economic critiques and reconstructions of major economic theories and policy debates

**Towards a Gendered Political Economy** J. Cook, J. Roberts, G. Waylen, 2000-04-17 This collection sets out how a gendered approach to political economy can help us understand the inherently gendered structures that characterise our society and provide the foundation for a truly interdisciplinary social science It provides a comprehensive coverage of gendered political economy what it is where it is and perhaps more importantly how it should develop The twelve chapters that make up this volume combine the development of a theoretical framework with empirical examples which illustrate the core concerns of gendered political economy

Men at Work Cecile Jackson, 2013-10-23 Gender analysis of development focuses on gender relations rather than women and men as separate gender categories but it has necessarily been women orientated in its concerns with subordination This work moves gender analysis towards a fuller understanding of men s diverse gendered identities and how these are implicated in their everyday working lives in developing country contexts The questions addressed in the papers range from conceptual and methodological issues of definitions and measurement of men s work to case studies of working men in specific settings but all are concerned with the recognition of gendered vulnerabilities of some men as men as well as with a re thinking of gender relations in the light of consideration of the subjectivities of specific groups of men

*Women, Development, and Labor of Reproduction* Mariarosa Dalla Costa, Giovanna Franca Dalla Costa, 1999 A follow up to *Paying the Price* this volume of essays represents an international feminist and non capitalistic approach to the critical subject of reproductive politics

Selling Sex in Kenya Eglé Česnulytė, 2020 A study of gendered agency under neoliberal structures seen through the life stories and narratives of Kenyan sex workers

Wild Politics Susan Hawthorne, 2002 Synthesising issues that are at the forefront of local and global politics and social movements of the 21st century this work presents a powerful critique of global western culture challenging many of its central assumptions and institutions

**Understanding Development** John Rapley, 2013-02-01 First published in 1997 An introduction to the theory and practices of development in the third world tracing the evolution of development theory over 40 years and examining why so many of the benefits of development are still not shared by millions

**Africa After Gender?** Catherine M. Cole, Takiwaa Manuh, Stephan Miescher, 2007-02-07 Africa After Gender looks at Africa now that gender has come into play to consider how the continent its people and the term itself have changed Leading

Africanist historians anthropologists literary critics and political scientists move past simple dichotomies entrenched debates and polarizing identity politics to present an evolving discourse of gender

*Public Services and International Trade Liberalization* Barnali Choudhury, 2012-11-01 Does public service liberalization pose a threat to gender and human rights Traditionally considered essential services provided by a state to its citizens public services are often viewed as public goods which embody social values Subjecting them to market ideology thus raises concerns that the intrinsic social nature of these services will be negated Moreover as those most likely to be reliant on public services public service liberalization may also further marginalize women Nevertheless states continue to increasingly liberalize public services Barnali Choudhury explores the implications of public service liberalization Using primarily a legal approach but drawing from case studies empirical research and gender theories she examines whether liberalization under the General Agreement on Trade in Services and other liberalization vehicles such as preferential trade and investment agreements compromise human rights and gender objectives

*Handbook of the Sociology of Gender* Janet Saltzman Chafetz, 2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapsychic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while incorporating some cross disciplinary material this volume focuses specifically on sociological theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines

**Handbook of Research on Gender and Economic Life** Deborah M. Figart, Tonia L. Warnecke, 2013-01-01 The excellent list of themes and chapters in this volume reflects the maturity reached by feminist economics in its different dimensions Based on the notion of social provisioning for all as the basic objective of economics they represent a challenge to conventional economic thought and they show the importance of understanding theory institutions empirical work and policy from a gender perspective The global perspective provided through themes and authors is a very useful contribution to the literature Lourdes Bener a Cornell University US Standard economics has a narrow and distorted vision of what the economy is and

how it works Gender scholars are on the forefront of developing better more encompassing models of human provisioning for well being This volume presents a wonderful sampling of these new theoretical and empirical developments Paula England New York University US This is an impressive collection that delves deeply and broadly into the myriad ways that gender shapes and alters economic lives and illuminates complex facets of the economic and social provisioning process across the globe The chapters by an exciting variety of researchers policy analysts and practitioners from numerous fields present a consistent and persuasive vision of economic well being as critical to the flourishing of all people Myra H Strober Stanford University US In the aftermath of global economic downturn it has never been more important to understand how gender relates to economic life and well being This interdisciplinary collection of original research details key areas of intersection provides a comprehensive overview of the current state of research and proposes avenues for further investigation The Handbook illuminates complex facets of the economic and social provisioning process across the globe The contributors academics policy analysts and practitioners from wide ranging areas of expertise discuss the methodological approaches to and analytical tools for conducting research on the gender dimension of economic life They also provide analyses of major issues facing both developed and developing countries Topics explored include civil society discrimination informal work working time central bank policy health education food security poverty migration environmental activism and the financial crisis Economists sociologists and political scientists will find this book to be an invaluable research tool as will academics researchers and students with an interest in economics particularly feminist economics gender studies and global studies

*Gender, Ethnicity and Place* Linda Peake,D. Alissa Trotz,2002-09-11 This book is concerned with the nature of the relationship between gender ethnicity and poverty in the context of the external and internal dynamics of households in Guyana Using detailed data collected from male and female respondents in three separate locations two urban and one rural and across two major ethnic groups Afro Guyanese and Indo Guyanese the authors discuss the links between gender and race exploring development issues from a feminist perspective

### **Scholars, Policymakers, and International Affairs**

Abraham F. Lowenthal,Mariano E. Bertucci,2014-11-24 How to strengthen both academic research and international policies by improving the connections between scholars and policymakers Scholars Policymakers and International Affairs shows how to build mutually beneficial connections between the worlds of ideas and action analysis and policy Drawing on contributions from top international scholars with policy experience in the United States Europe Asia Canada and Latin America as well as senior policymakers throughout the Americas Abraham F Lowenthal and Mariano E Bertucci make the case that scholars can both strengthen their research and contribute to improved policies while protecting academia from the risks of active participation in the policy process Many scholars believe that policymakers are more interested in processes and outcomes than in understanding causality Many policymakers believe that scholars are absorbed in abstract and self referential debates and that they are primarily interested in crafting theories and impressing other scholars rather than developing

solutions to pressing policy issues The contributors to this book confront this gap head on They do not deny the obstacles to fruitful interaction between scholars and policymakers but drawing on their own experience discuss how these obstacles can be and have been overcome They present case studies that illustrate how scholars have helped reduce income inequality promote democratic governance improve gender equity target international financial sanctions manage the Mexico U S border and enhance inter American cooperation These success stories are balanced by studies on why academic analysts have failed to achieve much positive impact on counternarcotics and citizen security policies The editors astute conclusion identifies best practices and provides concrete recommendations to government agencies international institutions nongovernmental organizations and funding sources as well as to senior university officials academic departments and centers think tanks established scholars junior faculty and graduate students Clearly written and thoughtfully organized this innovative book provides analytic insights and practical wisdom for those who want to understand how to build more effective connections between the worlds of thought and action

**The Cultural Legacy of German Colonial Rule** Klaus

Mühlhahn, 2017-06-12 This edited volume explores social economic political and cultural practices generated by African Asian and Oceanic individuals and groups within the context and aftermath of German colonialism The volume contributes to current debates on transnational and intercultural processes while highlighting the ways in which the colonial period is embedded in larger processes of globalization

*Encyclopedia of Government and Politics* M. E. Hawkesworth, Maurice

Kogan, 2004 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers

**Encyclopedia of Government and Politics** Mary Hawkesworth, Maurice Kogan, 2013-11-07

This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the

various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers      *Development Discourse and Global History* Aram Ziai, 2025-09-25 *Development Discourse and Global History* introduces readers to the shifting ways in which people have been talking and writing about development over time and the rules governing the conversation Drawing on the methods of Michel Foucault Ziai's ground breaking book traces the origins of development discourse back to late colonialism and notes the significant discontinuities that led to the establishment of a new discourse and its accompanying industry This book goes on to describe the contestations appropriations and transformations of the concept over time It shows that trends which have emerged since the 1980s such as an emphasis on participation and ownership sustainable development and free markets are incompatible with the original rules and so lead to serious contradictions The Eurocentric authoritarian and depoliticising elements in development discourse are uncovered whilst still recognising its progressive appropriations This new edition includes revisions throughout and an important new chapter on race and racism as well as a discussion of the evolution of the Sustainable Development Goals This book is perfect for students and researchers in development studies global history and discourse analysis as well as an interdisciplinary audience from international relations political science sociology geography anthropology language and literary studies      *Globalisation, Employment and Education in Sri Lanka* Angela W. Little, Siri T. Hettige, 2014-05-23 Since the late 1970s Sri Lanka has undergone a socio economic transformation from protectionism towards economic liberalisation and increasing integration into the world economy Through a systematic comparison of these periods of economic change 1956 1977 and 1977 to the present Angela W Little and Siri T Hettige examine the impact of this transformation on education youth employment and equality of opportunity in Sri Lanka The book charts Sri Lanka's shift from a predominantly agricultural economy to one dominated by services and manufacturing a reduction in unemployment rising educational and occupational levels expectations and achievements and a reduction in poverty In turn it reveals a growing role for the private sector and foreign interests in post secondary education and a modest growth in private education at the primary and secondary levels as well as widening social disparities in access to qualifications training and skills The Sri Lankan experience of and engagement with globalisation has been tempered by a long running ethnic conflict that hindered economic and social development and diverted considerable public funds into defence and war Now that the war is won the challenge is how to invest in human resource development and the fulfilment of the expectations of youth from all ethnic and social groups This challenge requires serious policy analysis the generation of more state revenues the reallocation of existing public resources and a political commitment to the winning of a sustainable peace and stability This book makes an important contribution to the broader international literature on the implications of globalisation for education policy and practice and to the interaction of exogenous and endogenous forces for educational change It deals with the tension between

the high social demand for education and the growing demand for specialised skills in a changing economy As such it has a wide interdisciplinary appeal across education policy and politics Asian education South Asian society youth policy sociology of education political economy of social change and globalisation

**Women's Studies for the Future** Elizabeth Lapovsky Kennedy, Agatha Beins, 2005 Established as an academic field in the 1970s women's studies is a relatively young but rapidly growing area of study Not only has the number of scholars working in this subject expanded exponentially but women's studies has become institutionalized offering graduate degrees and taking on departmental status in many colleges and universities At the same time this field formed in the wake of the feminist movement is finding itself in a precarious position in what is now often called a post feminist society This raises challenging issues for faculty students and administrators How must the field adjust its goals and methods to continue to affect change in the future Bringing together essays by newcomers as well as veterans to the field this essential volume addresses timely questions including Without a unitary understanding of the subject woman what is the focus of women's studies How can women's studies fulfill the promise of interdisciplinarity What is the continuing place of activism in women's studies What are the best ways to think about teach and act upon the intersections of race class gender disability nation and sexuality Offering innovative models for research and teaching and compelling new directions for action Women's Studies for the Future ensures the continued relevance and influence of this developing field

This is likewise one of the factors by obtaining the soft documents of this **Mortgaging Womens Lives Feminist Critiques Of Structural Adjustment** by online. You might not require more grow old to spend to go to the book creation as skillfully as search for them. In some cases, you likewise attain not discover the proclamation Mortgaging Womens Lives Feminist Critiques Of Structural Adjustment that you are looking for. It will very squander the time.

However below, afterward you visit this web page, it will be as a result agreed easy to acquire as without difficulty as download guide Mortgaging Womens Lives Feminist Critiques Of Structural Adjustment

It will not allow many mature as we explain before. You can complete it while pretense something else at house and even in your workplace. fittingly easy! So, are you question?
