## **Passeggiate Romane Stendhal:**

**Passeggiate romane** Stendhal, 2019-09-30T00:00:00+02:00 Passeggiare per Roma insieme a Stendhal equivale a compiere un viaggio nel tempo oltre che nello spazio una Roma ancora scarsamente popolata dove le rovine dell'antico splendore sono immerse in una natura incolta che si riprende gli spazi abbandonati dall'uomo. Una città in cui gli scavi archeologici non hanno ancora riportato alla luce molti dei monumenti che oggi le conosciamo. Stanno emergendo in quel momento e li vediamo con gli occhi affascinati dello scrittore insieme alle meraviglie architettoniche e pittoriche legate al dominio papale con i suoi fasti e i suoi intrighi. La narrazione di queste vicende si intreccia alle biografie di pittori e scultori le figure di Michelangelo e Raffaello si stagliano sullo sfondo di una stagione turbolenta ricostruita nei suoi dettagli macabri e violenti. Così alle concessioni al nascente genere gotico con le sue torbide storie ambientate in clausure e manieri fanno riscontro le pagine sulla Carboneria e i tentativi di rovesciare l'assolutismo papale. Ripercorrere gli itinerari stendhaliani significa vedere in trasparenza usanze che non esistono più rimpiangere una bellezza che da allora è stata più volte sfregiata ma anche riconoscere quanto ancora i nostri comportamenti somiglino a quelli dei nostri concittadini di un tempo.

*Proibito!* Roberto Curti, 2023-09-15 From its birth in 1913 to its abolition in 2021 film censorship marked the history of Italian cinema and its evolution mirrored the social political and cultural travail of the country. During the Fascist regime and in the postwar period censorship was a powerful political tool in the hands of the ruling party many films were banned or severely cut. By the end of the 1960s censors had to cope with the changing morals and the widespread diffusion of sexuality in popular culture which led to the boom of hardcore pornography. With the crisis of the national industry and the growing influence of television censorship gradually changed its focus and targets. The book analyzes Italian film censorship from its early days to the present discussing the most controversial cases and protagonists. These include such notorious works as *Last Tango in Paris* and *Salo* or the 120 Days of Sodom and groundbreaking filmmakers such as Luchino Visconti, Federico Fellini and Pier Paolo Pasolini who pushed the limits of what was acceptable on screen causing scandal and public debate.

*Memoria e restauro dell'architettura* Mario Dalla Costa, Giovanni Carbonara, 2005      **Resilience in Papal Rome, 1656-1870** Marina Formica, Donatella Strangio, 2023-09-23 This book analyses the evolution of the city of Rome in particular papal Rome from the plague of 1656 until 1870 when it became the capital of the Kingdom of Italy. The authors explore papal Rome as a resilient city that had to cope with numerous crises during this period. By focusing on a selection of different crises in Rome the book combines cultural political and economic history to examine key turning points in the city's history. The book is split into chapters exploring themes such as diplomacy and international relations, disease, environmental disasters, famine, public debt and unravels the political economic and social consequences of these transformative events. All the

chapters are based on untapped original sources chiefly from the State Archive in Rome the Vatican Archives the Rome Municipal Archives the Cole Fran aise Library the National Library and the Capitoline Library *Architecture Form(s) Identity* Greta Allegretti, Carola D'Ambros, Chiara Lionello, Enrico Miglietta, Valerio Maria Sorgini, Greta Maria Taronna, 2022-08-03 *Architecture form s identity Spaces for the absence of memory* is a collection of essays on the theme of memory its possible loss weakness ability to build individual and collective identities and on the way architecture inserts itself in this process determining different spaces of reflection These texts all arise from a common research ground which saw the editors personally involved in an inter doctoral Workshop The Memory as Construction of the Subject Designing for the Absence of Memory 2018 19 with a collaboration between Politecnico di Milano AUID and the Universidad de Sevilla HAC Ph D schools in which the theme of memory and the construction of a more holistic space that dialogues with it was at the center of the design reflection These contributions all built around that very rich relationship between memory and architecture have led to a necessary desire to broaden the horizons and thematic limits reached by the workshop considering them as a starting point for the collection of different perspectives able to investigate some issues in a more specific way
