**The Harp of Prophecy** Brian E Daley, Paul R Kolbet, 2015-01-30 The Psalms generated more biblical commentary from early Christians than any other book of the Hebrew and Christian canon While advances have been made in our understanding of the early Christian preoccupation with this book and the traditions employed to interpret it no study on the Psalms traditions exists that can serve as a solid academic point of entry into the field This collection of essays by distinguished patristic and biblical scholars fills this lacuna It not only introduces readers to the main primary sources but also addresses the unavoidable interpretive issues present in the secondary literature The essays in The Harp of Prophecy represent some of the very best scholarly approaches to the study of early Christian exegesis bringing new interpretations to bear on the work of influential early Christian authorities such as Athanasius Augustine and Basil of Caesarea Subjects that receive detailed study include the dynamics of early Christian political power gender expressions and the ancient

conversation between Christian Jewish and Greek philosophical traditions The essays and bibliographic materials enable readers to locate and read the early Christian sources for themselves and also serve to introduce the various interdisciplinary methods and perspectives that are currently brought to bear on early Christian psalm exegesis Students and scholars of theology and biblical studies will be led in new directions of thought and interpretation by these innovative studies

Angela G.R. Christman, 2005-08-01 What Did Ezekiel See analyzes the development of early Christian exegesis of Ezekiel 1 the prophet s vision of the chariot It demonstrates that as patristic commentators sought to discern this text s meaning they attended carefully to its very words its relation to other biblical books and the emerging Christian interpretive tradition In the first six centuries of the common era three dominant exegetical strands develop concurrently one which finds in Ezekiel s vision confirmation of the unity of Old and New Testaments a second which shows the significance of Ezekiel 1 for discussions of human knowledge of God and a third which reads the prophet s vision as illuminating the life of virtue The book will be useful to students of early Christianity especially those concerned with the development of Christian exegesis and to those interested in biblical studies

Not by Paul Alone David R. Nienhuis, 2007 Not by Paul Alone explores the historical reasons for the creation of the book of James and the implications for the creation of the Christian canon Nienhuis makes a compelling case that James was written in the mid second century and is like 2 Peter an attempt to provide a distinctive shape to the emerging New Testament This book bolsters the claim that the Catholic Epistles not only have a distinct witness individually but that collectively they are also a considered theological agenda within the Christian church **Christianity and Society** Everett Ferguson, 1999 First published in 1999 Routledge is an imprint of Taylor Francis an informa company

**Understanding Affections in the Theology of Jonathan Edwards** Ryan J. Martin, 2018-11-15 This volume argues that the notion of affections discussed by Jonathan Edwards and Christian theologians before him means something very different from what contemporary English speakers now call emotions and that Edwards's notions of affections came almost entirely from traditional Christian theology in general and the Reformed tradition in particular Ryan J Martin demonstrates that Christian theologians for centuries emphasized affection for God associated affections with the will and distinguished affections from passions generally explaining affections and passions to be inclinations and aversions of the soul This was Edwards's own view and he held it throughout his entire ministry Martin further argues that Edwards's view came not as a result of his reading of John Locke or the pressures of the Great Awakening as many Edwardsean scholars argue but from his own biblical interpretation and theological education By analysing patristic medieval and post medieval thought and the journey of Edwards's psychology Martin shows how on their own terms pre modern Christians historically defined and described human psychology

**Augustine** Joanne McWilliam, 1992-04 Augustine From Rhetor to Theologian consists of fifteen chapters from international scholars written to celebrate the 1600th anniversary of the conversion to Catholic

Christianity of Augustine of Hippo Augustine set his stamp on the Latin Church yet only in the twentieth century with its profound even paradigmatic change did the descendants of that church Anglican Reformed and Roman Catholic recognize the degree to which their inbred attitudes and theological positions were Augustinian It is however another measure of the importance of Augustine that many aspects of his life and meanings of his writings are still disputed This continuing investigation and debate is evidenced in this volume Early Christianity Wendy Elgersma Helleman, Musa A.
