Shaping Seattle Architecture Jeffrey Karl Ochsner,2016-06-01 The first edition of Shaping Seattle Architecture published in 1994 introduced readers to Seattle s architects by showcasing the work of those who were instrumental in creating the region s built environment Twenty years later the second edition updates and expands the original with new information and illustrations that provide an even richer exploration of Seattle architecture The book begins with a revised introduction that brings the story of Seattle architecture into the twenty first century and situates developments in Seattle building design within local and global contexts The book s fifty four essays present richly illustrated profiles that describe the architects careers provide an overview of their major works and explore their significance Shaping Seattle Architecture celebrates a wide range of people who helped form the region s built environment It provides updated information about many of the architects and firms profiled in the first edition Four individuals newly included in this second edition are Edwin J Ivey a leading residential designer Fred Bassetti an important contributor to Northwest regional modernism L Jane Hastings one of the region s foremost women in architecture and Richard Haag founder of the landscape architecture program at the University of Washington and designer of Gas Works Park and the Bloedel Reserve The book also includes essays on the buildings of the Coast Salish people who inhabited Puget Sound prior to Euro American settlement the role that architects played in speculative housing developments before and after World War II and the vernacular architecture built by nonprofessionals that makes up a portion of the fabric of the city Shaping Seattle Architecture concludes with a substantial reference section updated to reflect the last twenty years of research and publications A locations appendix offers a geographic guide to surviving works The research section directs interested readers to further resources and the appendix Additional Significant Seattle Architects provides thumbnail sketches of nearly 250 important figures not included in the main text

The New Asian Home Kendra Langeteig,2009-09 The New Asian Homeby Kendra Langeteig profiles 23 fascinating and original American homes inspired by the ancient architectural traditions of Asia Designed by some of today s foremost architects and designers principles fundamental to the serene aesthetics of classic Asian design balance harmony connection with nature are reinterpreted for the Western home

The Best of Cutler Anderson Architects , Extraordinary projects from one of the world s best architecture firms The work of James Cutler FAIA and Bruce Anderson AIA of Cutler Anderson Architects is internationally renowned for its environmental awareness and meticulous attention to detail Each project begins with an investigation of place and materials and culminates in a finely crafted building that fits seamlessly into the landscape This is an entirely modern architecture which through multilayered

transitions between inside and out and an ecologically conscious choice of materials orchestrates a heightened connection between people and nature The Best of Cutler Anderson Architects presents the firm's outstanding designs from two previous Rockport volumes James Cutler from the Contemporary World Architects series and Cutler Anderson Architects as well as new and equally compelling projects from around the world that expand the firm's vocabulary Also included in this book are examples of Cutler Anderson Architects' progression into the design of furniture and hardware which complement and complete their superior design work Cutler Anderson Architects has received six National Honor Awards from the American Institute of Architects and over forty other national and regional awards The firm's work has been published in books and magazines around the globe

Dwell, 2002-10 At Dwell we're staging a minor revolution We think that it's possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines

ARO: Architecture Research Office Stephen Cassell, Adam Yarinsky, Architecture Research Office, 2003-02-28 The process of investigation analysis and testing makes Architecture Research Office ARO as much a laboratory as a design firm For Stephen Cassell Adam Yarinsky and their team the starting point of each commission is not the development of an abstract idea for the project but an intensive hands-on occupation with a project's conditions with its physical economic and social contexts This practical approach to making architecture to shrinking the distance between thinking and building is much evident in their work which manages to be simultaneously thoughtful and sensual The seven projects featured in this the first monograph on the work of this firm range from self-directed research ARO's paper wall project to private living spaces the SoHo Loft to commercial interiors the Qiora Store and Spa to the popular U.S. Armed Services Recruiting Station in Times Square to the stunning Colorado House in Telluride All of these projects challenge design conventions while delighting the senses with their unusual materials careful detailing and unexpected spatial discoveries With essays by Stan Allen Philip Nobel Guy Nordenson and Sarah Whiting

Art and Architecture Division, 2001 **The World's Greenest Buildings** Jerry Yudelson, Ulf Meyer, 2013-01-17 The World's Greenest Buildings tackles an audacious task Among the thousands of green buildings out there which are the best and how do we know Authors Jerry Yudelson and Ulf Meyer examined hundreds of the highest rated large green buildings from around the world and asked their owners to supply one simple thing actual performance data to demonstrate their claims to sustainable operations This pivotal book presents an overview of the rating systems and shows best in class building performance in North America Europe the Middle East India China Australia and the Asia Pacific region practical examples of best practices for greening both new and existing buildings a practical reference for how green buildings actually perform at the highest level one that takes you step by step through many different design solutions a wealth of exemplary case studies of successful green building projects using actual performance data from which to learn interviews with architects engineers building owners and developers and industry experts to provide added insight into the greening process This guide uncovers some of the pitfalls that lie ahead for sustainable design and points the way toward much faster progress in the decade ahead

Weekly Northwestern Miller, 1898 **Visual Delight in Architecture** Lisa Heschong, 2021-03-11 Visual Delight in Architecture examines the many ways that our lives are enriched by the presence of natural daylight and window views within our buildings It makes a compelling case that daily exposure to the rhythms of daylight is essential to our health and well being tied to the very genetic foundations of our physiology and cognitive function It describes all the subtlety beauty and pleasures of well daylit spaces and attractive window views and explains how these are woven into the fabric of both our everyday sensory experience and enduring cultural perspectives All types of environmental designers along with anyone interested in human health and well being will find new insights offered by Visual Delight in Architecture The book is both accessible and provocative full of personal stories and persuasive research helping designers to gain a deeper understanding of the scientific basis of their designs scientists to better grasp the real world implications of their work and everyone to more fully appreciate the role of windows in their lives *Leading Collaborative Architectural Practice* Erin Carraher, Ryan E. Smith, 2017-03-27 The groundbreaking guide to modern leadership in architectural practice Leading Collaborative

Architectural Practice is the leadership handbook for today's design and construction professionals. Endorsed by the American Institute of Architects, this book describes the collaborative approach to leadership that is becoming increasingly prevalent in modern practice. Gone are the days of authoritative star architects; today's practice is a brand and requires the full input of every member of the team. This book builds off of a two-year AIA research project to provide a blueprint for effective leadership: the ability, awareness, and commitment to lead project teams who work together to accomplish the project's goals. Both group and individual hands-on exercises help facilitate implementation, and extensive case studies show how these techniques have helped real-world firms build exemplary success through collaborative teamwork and leadership. Highly illustrated and accessible, this approach is presented from the practicing architect's point of view, but the universal principles and time-tested methods also provide clear guidance for owners, contractors, engineers, project managers, and students. Build a culture of collaboration, commitment, and interpersonal awareness. Adopt effective leadership techniques at the team, project, or practice level. Handle conflict and resolve communication issues using tested approaches. Learn how real-world projects use effective leadership to drive success. The last decade has seen a sea change in architectural leadership. New practices no longer adopt the name and identity of a single person but create their own identity that represents the collaborative work of the entire group. Shifts in technology and changing workplace norms have made top-down management structures irrelevant, so what does it now mean to lead? Forefront presents effective contemporary leadership in the architectural practice and real-world guidance on everyday implementation.
