surrounding school reform and show how although it is well intentioned it is also misplaced In Part II we learn why we don't see our mistakes and why both parents and educators have developed blind spots in their vision of education We're so accustomed to the supermonster of addiction that we just don't see it anymore This is the true failure of education We're not admitting that cultural codependency to addiction to the monster even exists Part III Taming the Monster explains what we can do to save ourselves from slipping farther into monsterhood I suggest what schools families and communities must do to foster academic success and breathe value and character back into the lives of children and society I also provide an outline for educational recovery Only when we take steps to kill the supermonster and free ourselves from monstrous habits will we be able to stop the destruction that the monsters bring the destruction that can end our world
