Moonfleet John Meade Falkner, 2019-06-12 The village of Moonfleet lies half a mile from the sea on the right or west bank of the Fleet stream. This rivulet which is so narrow as it passes the houses that I have known a good jumper clear it without a pole broadens out into salt marshes below the village and loses itself at last in a lake of brackish water. The lake is good for nothing except sea fowl, herons and oysters and forms such a place as they call in the Indies a lagoon being shut off from the open Channel by a monstrous great beach or dike of pebbles of which I shall speak more hereafter. When I was a child I thought that this place was called Moonfleet because on a still night whether in summer or in winter frosts the moon shone very brightly on the lagoon but learned afterwards that 'twas but short for Mohune fleet from the Mohunes, a great family who were once lords of all these parts. My name is John Trenchard and I was fifteen years of age when this story begins. My father and mother had both been dead for years and I boarded with my aunt Miss Arnold who was kind to me in her own fashion but too strict and precise ever to make me love her.

Landscapes of Decadence Alex Murray,2016-12-01 The challenges posed by Decadence to Victorian moral conventions particularly sexual have been well documented but this book makes the case for understanding Decadence as a response to the ways in which place was accorded moral value in the period The book uses landscape as a key trope for exploring Decadent writing s approach to location and identity Drawing on a wide range of fin de si cle literature organised around a series of locations from Naples to New York Murray argues that Decadent writers developed a form of landscape and place based writing using a series of stylistic features to challenge the increasing homogenisation of both place and literary culture Decadence and the literature of the fin de si cle are re framed as a politically engaged form of landscape writing This is an ambitious and richly researched study
