Jackson,2008-08-01 In Black Literature and Humanism in Latin America Richard L Jackson explores literary Americanism through writings of black Hispanic authors such as Carlos Guillermo Wilson Quince Duncan and Nelson Estupi n Bass that in many ways provide a microcosm for the larger literature Jackson traces the roots of Afro Hispanic literature from the early twentieth century Afrocriollo movement the Harlem Renaissance of Latin America to the fiction and criticism of black Latin Americans today Black humanism arose from Afro Hispanics self discovery of their own humanity and the realization that over the years they had become not only defenders of threatened cultures but also symbolic guardians of humanity This humanist tradition had enabled writers such as Manuel Zapata Olivella to write of a Latin America from below the slave ship deck and from inside the mind of Africa Though many writers have adopted black literary models in their quest for a poetry of sources of fundamental human values Jackson demonstrates that literature about blacks by blacks themselves is clearly separate from yet instrumental to these other works Relating the vision of Latin American blacks not only to other Latin American writers but also to North American literary critics such as Eugene Goodheart and John Gardner Jackson stresses the universal power of resisting oppression and injustice through the language of humanism      **Literature and Film as**

father of Noh theater      **Victorian Fiction as a Bildungsroman** Petru Golban, 2019-09-30 Metaphorically speaking the nineteenth century English Bildungsroman dealing with the principle of identity formation parallels Victorian fiction as a whole revealing the completion of its own formation which began in the eighteenth century Significantly the most important and popular Victorian novels are Bildungsromane in which authors construct or rather reconstruct their own life experiences as formative processes This book shows that the Bildungsroman has a development history is a specific literary system and consists of a thematic and narrative pattern It details the entrance of this newly established fictional tradition into Victorian culture and literature through Carlyle's threefold literary reception of the novel of formation and its subsequent flourishing and complexity In this respect a number of novelistic works are scrutinized and each faces the question as to whether its thematic and narrative perspectives fit the pattern and shape of the Bildungsroman      **Responsibility in Law and Morality** Peter Cane, 2002-04-17 Lawyers who write about responsibility tend to focus on criminal law at the expense of civil and public law while philosophers tend to treat responsibility as a moral concept and either ignore the law or consider legal responsibility to be a more or less distorted reflection of its moral counterpart This book aims to counteract both of these biases By adopting a comparative institutional approach to the relationship between law and morality it challenges the common view that morality stands to law as critical standard to conventional practice It shows how law and morality interact symbiotically and how careful study of legal concepts of responsibility can add significantly to our understanding of responsibility more generally Central to this project is a distinction between two paradigms of responsibility the criminal law paradigm and the civil law paradigm Whereas theoretical discussions of responsibility tend to focus on conduct and agency taking account of civil law reveals the importance of outcomes and the interests of victims and society to ideas of responsibility The book examines from a distinctively legal point of view central philosophical questions about responsibility such as its relationship with culpability challenging the common view that moral responsibility requires fault causation and personality It explores the relevance of sanctions and problems of proof and enforcement to ideas of responsibility as well as the relationship between responsibility and distributive justice and the role of concepts of responsibility in public law At the heart of this book lie two questions what does it mean to say we are responsible and what are our responsibilities Its aim is not to answer these questions but to challenge some traditional approaches to answering them and more importantly to suggest fruitful alternative approaches that take law seriously      *Narrative, Authority, and Law* Robin West, 1993 Challenges the moral basis for the authority of law      **Literary Theory** Johannes Willem Bertens, 2001 Providing the ideal first step in understanding the often bewildering world of literary theory Literary Theory The Basics is an easy to follow and clearly presented introduction to this fascinating area Showing that theory can not only make sense but also radically change the way in which we read Literary Theory The Basics leads readers through the major approaches to literature that are signalled by the term literary theory places each critical movement in its historical and often political context illustrates theory in

practice with examples from well known texts suggests further reading for those especially interested in a particular critical approach Covering all the basics and much more this is the perfect book for anyone interested in how we read and why that matters

*Atheism at the Agora* James C Ford, 2023-08-11 This fresh comprehensive study of ancient Greek atheism aims to dismantle the current consensus that atheism was unthinkable in ancient Greece demonstrating instead that atheism was not only thinkable but inextricably embedded in the Greek religious environment Through careful analysis of a wide range of source material provided in modern English translation and drawing on philosophy theology sociology and other disciplines Ford unpicks a two and a half

thousand year history of marginalisation clearing the way for a new analysis He lays out in clear terms the nature and form of ancient Greek atheism as the ancient Greeks conceived of it through a series of themes and lenses Topics such as religious socialisation the interaction of atheist philosophy and theology identity formation through alterity and the use of atheism in scapegoating are considered not only in broad terms using a synthesis of modern scholarship to mark out an overview in line with modern consensus but also by drawing on the unique perspective of ancient atheism Ford is able to provide innovative theories about a range of subjects Atheism at the Agora is of interest to students and scholars in Classics particularly Greek religion and culture as well as those studying atheism in other historical and contemporary areas religious studies philosophy and theology
