## **Moral Blindness The Loss Of Sensitivity In Liquid Modernity:**

*Moral Blindness* Zygmunt Bauman, Leonidas Donskis, 2013-04-24 Evil is not confined to war or to circumstances in which people are acting under extreme duress Today it more frequently reveals itself in the everyday insensitivity to the suffering of others in the inability or refusal to understand them and in the casual turning away of one's ethical gaze Evil and moral blindness lurk in what we take as normality and in the triviality and banality of everyday life and not just in the abnormal and exceptional cases The distinctive kind of moral blindness that characterizes our societies is brilliantly analysed by Zygmunt Bauman and Leonidas Donskis through the concept of adiaphora the placing of certain acts or categories of human beings outside of the universe of moral obligations and evaluations Adiaphora implies an attitude of indifference to what is happening in the world a moral numbness In a life where rhythms are dictated by ratings wars and box office returns where people are preoccupied with the latest gadgets and forms of gossip in our hurried life where attention rarely has time to settle on any issue of importance we are at serious risk of losing our sensitivity to the plight of the other Only celebrities or media stars can expect to be noticed in a society stuffed with sensational valueless information This probing inquiry into the fate of our moral sensibilities will be of great interest to anyone concerned with the most profound changes that are silently shaping the lives of everyone in our contemporary liquid modern world Colin Gunton's Trinitarian Theology of Culture Andrew Picard, 2024-06-27 Whilst upholding some of the criticisms of Colin Gunton's work this incisive book argues that there is a Hauptbriefe in Gunton reception that assumes his early classic works *The One the Three and the Many* and *The Promise of Trinitarian Theology* 1st ed are definitive of his project and fail to engage adequately with the progressions in Gunton's later thought Instead this book offers a fresh reading of Gunton by giving greater prominence to his later writings which are centred in the mediation of the Son and the Spirit in creation Andrew Picard argues that Gunton's trinitarian theology of culture emerges from his later trinitarian theology of mediation creation Christology pneumatology and ecclesiology Exploring these doctrinal foci enables an understanding of Gunton's account of faithful human culture as embodied worship a living sacrifice of praise which contributes to the divine redemption and perfection of creation It is the church's particular calling to embody such praise through its visible life in community The study concludes by intersecting Gunton's theology with the social sciences to critique ableism and consider the politics of the church's belonging in community *30 Years since the Fall of the Berlin Wall* Alexandr Akimov, Gennadi Kazakevitch, 2020-01-08 The year 2019 marks 30 years since the fall of the Berlin wall This symbolic event led to German unification and the collapse of communist party rule in countries of the Soviet led Eastern bloc Since then the post communist countries of Central Eastern and South eastern Europe have tied their post communist transition to deep integration into the West including EU accession Most of the states in Central and Eastern Europe have been able to relatively successfully transform their previous communist political and economic systems In contrast the non Baltic post Soviet states have generally been less successful in doing so

This book with an internationally respected list of contributors seeks to address and compare those diverse developments in communist and post communist countries and their relationship with the West from various angles The book has three parts The first part addresses the progress of post communist transition in comparative terms including regional focus on Eastern and South Eastern Europe CIS and Central Asia The second focuses on Russia and its foreign relationship and internal politics The third explores in detail economies and societies in Central Asia The final part of the book draws some historical comparisons of recent issues in post communism with the past experiences

*Social Imaginaries in a Globalizing World*  
Hans Alma, Guido Vanheeswijck, 2018-08-06

How to study the contemporary dynamics between the religious the nonreligious and the secular in a globalizing world Obviously their relationship is not an empirical datum liable to the procedures of verification or of logical deduction We are in need of alternative conceptual and methodological tools This volume argues that the concept of social imaginary as it is used by Charles Taylor is of utmost importance as a methodological tool to understand these dynamics The first section is dedicated to the conceptual clarification of Taylor s notion of social imaginaries both through a historical study of their genealogy and through conceptual analysis In the second section we clarify the relation of social imaginaries to the concept of religious worldviewing understood as a process of truth seeking Furthermore we discuss the practical usefulness of the concept of social imaginaries for cultural scientists by focusing on the concept of human rights as a secular social imaginary In the third and final section we relate Taylor s view on the role of social imaginaries and the new paths it opens up for religious studies to other analyses of the secular religious divide as they nowadays mainly come to the fore in the debates on what is coined as the post secular

This is an open access book According to Castells power now rests in networks the logic of the network is more powerful than the powers of the network quoted in Weber 2002 p 104 it is whether nation states or local communities are deeply affected especially by inclusion in and exclusion from the global networks that structure a various sectors in society at any level Thus it is also crucial look closely at exclusion from and inclusion in different kinds of social structures where connectivity and access to networks are essential being aware that people at the bottom are those who with nothing to offer the network are excluded Castells arguments shows us how the new forms of network society offer challenges in a way that despite the disappearance of conventional ties exploitation marginalization exclusion and differentiation remain In what follows scholarships are invited to build an academic discussion on characterizing the structure and dynamics of societies in the world of the twenty first century Thus scholar may come to look at the meaning of being in a network society by examining the role of network society within the complexity of socio cultural political and economic circumstances in strengthening the role of science in overcoming local national regional and global problems But scientific research is also required to identify a wide variety of solutions to societal problems enhanced by the network society which no longer relate

solely to a particular discipline but are multi and trans disciplinary In addition recent research has changed the traditional role of academia demanding more collaboration in the production of science not only among universities but also among researchers social practitioners and policymakers Considering these issues the fourth Asia Pacific Research in Social Sciences and Humanities APRiSH will be hosted by the Faculty of Social and Political Sciences Universitas Indonesia FISIP UI in 2019 under the theme The Network Society Continuity and Change Scientific inputs from all parts of the world are welcome academically and practically Various perspectives based on mono disciplinary multi disciplinary or trans disciplinary research are expected to examine the problems and contribute to solutions

**Occupy Management** Monika Kostera, 2015-03-05 It can be said that our times are characterized both by the omnipresence of organizations and by the destabilization of organized social life caused by the erosion of its structural and moral foundations such as long term employment social trust or an actual observance of the proclaimed codes of ethics At the same time there is a huge and growing potential for organized change due to the amount of students and graduates of

different types of management studies and programmes all over the world The role of the state may become atrophied and corporations seem all too eager to seize ever more power while renouncing responsibility towards the environment and the employees but a huge and unprecedented number of people from all walks of life all social classes and all countries now have the qualifications to take over the responsibility for social organizations The objective of *Occupy Management Inspirations and Ideas for Self Organization and Self Management* is to make it evident to the student why and how he or she can manage without becoming part of corporate power structures Aimed at postgraduate students studying organizational and management theory as well as social entrepreneurship this book is not a simple repetition of essential knowledge in these areas but a re direction of such knowledge towards self management and self organization Zygmunt Bauman and the West Jack Palmer, 2023-07-15 Zygmunt Bauman was both an outsider of Western modernity and one of its foremost interpreters He was an exemplary figure in twentieth century intellectual work on exile who experienced both Nazi and Soviet forms of totalitarianism The first work to draw extensively on Bauman's personal archive *Zygmunt Bauman and the West* argues that the distinctive social thought that sprang from Bauman's lived experiences of exile amounts to a sustained sophisticated and hitherto unappreciated problematization of Eurocentrism and the West Through an overview of the intellectual's thought and his contribution to sociology Jack Palmer explores Bauman's experience and interpretation of the West and seeks to understand his work in a broader context outside of the Eurocentric environment from which it was born Intervening in a resurgent sociology of intellectuals *Zygmunt Bauman and the West* re evaluates the place of the West in social and political thought **Handbook of Research on Management Ideas and Panaceas** Anders Örtengren, 2015-12-18 Over time management ideas and panaceas have been presented alternately as quick fix cures for all corporate ills and the emperor's new clothes beset by flaws and problems This Handbook provides a different approach suggesting that management ideas and panaceas should not be either adopted or rejected outright but gives guidance in the art of assessing and applying management ideas and panaceas to various situations and contexts The contributors discuss the ways in which researchers organizational actors and higher educational institutions HEIs can more wisely test the relevance of management ideas and panaceas and adapt these to fit organizations in various contexts They conclude that in order to accomplish wiser relevance testing and adaptation there is a need for diversity critical examination and transparency All students scholars and researchers in management and organization with an interest in the adaptation and translation of management ideas and panaceas will find this book to be of interest Reflective practitioners will find the focus on context illuminating and helpful **Beyond Bauman** Michael Hviid Jacobsen, 2016-10-26 Bringing together leading interpreters of Zygmunt Bauman's sociology this volume thinks with and beyond Bauman's work in order to show its continued relevance as a theory in its own right as an object of criticism and as a stepping stone towards a fuller understanding of contemporary society The volume deals with some proposed omissions and absences in Bauman's sociology

with chapters comparing Bauman's ideas to those of other prominent social thinkers as well as chapters devoted to teasing out some problems and pitfalls in his work. Paying attention to central concepts and themes of Bauman's thought, authors engage with various aspects of his work, considering potential deficiencies in his ethical perspective, his neglect of the religious dimensions of modernity, his lack of consideration for ethnicity and gender, his overlooking the importance of socialisation in liquid modernity, and his problematic argument for individual choice and freedom in a world that is increasingly closed down by consumer capitalism. Beyond Bauman aspires to show that despite Bauman's status as a key sociological thinker, there are also certain deficiencies in his work that demand critical discussion. It will be of use to scholars of sociology, contemporary society, social theory, and modernity.

*The Transformative Politics of Music Education* Tuulikki Laes, Gert Biesta, Heidi Westerlund, 2025-02-14. This book introduces a unique approach to the interconnections between music education and politics. By taking a broader, more diverse and explicitly ethico-political, philosophical and theoretical stance, the book challenges institutional and structural conditions that may be resistant to change and expands the understanding of the professional responsibility of music educators in the 21st century to meet a variety of societal and ecological challenges. Emerging from a collaboration between international music education scholars and prominent contemporary educational theorist Gert Biesta, this book connects contemporary educational theories with music education to unlock its transformational capacity. In eight chapters, the contributors show how music education can move towards ways of being and doing that are attuned to social justice and to the broader social and ecological responsibility of music professionals. Strengthening the interdisciplinary connections between music education and education philosophy, sociology,

policy systems thinking and more the volume offers a renewed vision of the scope and boundaries of both music teacher education and professional work in music more widely Connecting the decades long work of internationally established music educator scholars and ideas from large scale research projects with a shared interest in transformative theorisation this book fills a knowledge gap and reframes the philosophy of music education as a vibrantly multidisciplinary theory generating field Relevant to researchers and students across music teacher education and performance studies this book speaks to both conservatoires and university contexts across Europe and North America helping us unlock the transformative capacity of music education
