Hypnosis Leonard Moore, 2019-05-14 Do you want to learn how to actually hypnotize people? Hypnosis isn't what most people think. Yes, hypnosis is real, but it isn't a magical way to make people do what you want. Neither is it a stage show as some may make it out to be. This practice has been surrounded by mystery and false ideas for centuries, but the truth is that hypnosis is actually a very scientific process you can follow. You see, hypnosis, the real hypnosis, is a natural phenomenon that can be harnessed to talk to somebody's subconscious mind and guide his decisions and actions, but most importantly, it's also a skill that can be developed. If you want to learn the real techniques to hypnotize other people, then this book is for you. In this book, you'll learn how to hypnotize a person following a science-based process that actually works. You'll learn everything about wording hypnotic voice scripts, body language, hypnotic induction, and more. You'll also discover the history of hypnosis, what's true and what's false, the different methods and procedures. This guide includes detailed instructions to help you build your own effective scripts to hypnotize other people, even if you've never done it before. Inside Hypnosis, you'll discover an effective process you can follow to hypnotize a subject, keep him/her into trance, and speak to his/her subconscious mind. Common myths demystified, including only people with low intelligence can be hypnotized, and you can be hypnotized anytime, anywhere. Why we're all in trance very often without even noticing it, and how you can take advantage of this to hypnotize others. This small change in your voice can make a big difference the next time you hypnotize someone. What are all the stages of an effective hypnosis session? 5 things that can make a person more likely to fall in a hypnotic trance. How to take advantage of a common natural phenomenon to successfully hypnotize people. The 1 rule to follow when constructing an effective script to hypnotize people. The history of hypnosis from mysterious practice to stage show to scientific process. Practical examples of what to say to induce hypnotic trance in your subject. And much, much more. Even if you're starting from scratch, you'll learn how to perform an effective hypnosis session, including how to induce trance, how to talk to the subconscious mind, and how to wake up your subjects. *Quantum Hypnosis Scripts* Jo Ana Starr, 2015-03-30 Quantum Hypnosis Scripts is a 222 page book of  
26 full length professional Hypnosis scripts ideal for either professional use or for Self Hypnosis As the title suggests this  
book focuses exclusively on Hypnosis scripts and instructions for their best use In addition to the 20 individual push button  
Hypnosis scripts Quantum Hypnosis Scripts provides 2 Master Hypnosis Inductions which are essential to the use of the  
provided Hypnosis scripts if you don't already have a favorite Hypnosis induction Also included are 2 Hypnosis Series  
Programs of 3 Hypnosis scripts each for Weight Loss and Stress Reduction Since these applications are ideally treated with a  
series of progressive sequential sessions which are frequently hard to find I think that readers will be pleased with these  
session scripts Readers of Quantum Hypnosis Scripts also receive a Bonus FREE full length audio Hypnosis session valued at  
59 available at the book's website Detailed information on how to access your free Hypnosis session is available in the last  
chapter of this book Incidentally if you are a user of the Instant Self Hypnosis method or a reader of Eyes Open Self Hypnosis  
reading these complete and suggestion rich scripts will work well for you For readers of Quantum Self Hypnosis and students  
or graduates of NEIH these are new scripts for you although the now familiar script framework the beach scene is used in all  
the included scripts There are also a few essential duplicate Hypnosis applications featured in this book complete with new  
suggestions and thus different scripts from those offered in Quantum Self Hypnosis The general approach for all of the  
included scripts is ego strengthening and nurturing These scripts are very helpful for professional use as well as for Self  
Hypnotists Also important there are no scripts in this book that utilize negative programming or aversion therapy These  
scripts are all positive present tense and affirmative in nature thus very effective This book was written as a stand alone text  
as well as a companion book to Quantum Self Hypnosis so readers of that book will find many new and interesting scripts to  
use in this book We decided at the 11th hour to include one of our well known Stop Smoking Hypnosis scripts because it  
seemed wrong not to include a script for one of the most popular Hypnosis applications in this first volume of Quantum  
Hypnosis Scripts Since this script is not brand new or unique it is being included as a Bonus script and not being counted as  
one of the advertised 24 Hypnosis scripts included in this book While the script isn't unique it is very effective so for readers  
looking for a good Stop Smoking script enjoy your bonus script This book is considered a cornerstone work by many  
practicing Hypnotherapy professionals If you are looking for quality time tested Hypnotherapy scripts this is the book for you
