More Than a White Man's Religion Abdu Murray, 2022-09-27 Though many today accuse Christianity of being a white imperialistic religion it is actually the source for cherished Western ideals of racial and gender equality In More Than a White Man's Religion author and speaker Abdu Murray shares stories from the Bible and his own experiences as a global apologist a member of an ethnic minority a son of immigrants and a former Muslim to show that the gospel message provides dignity and liberty to non whites and women More Than a White Man's Religion reveals The ethnically diverse roots of biblical stories and passages that inspired some of the greatest social reforms in history How challenging and sometimes confusing Bible passages and stories can be best understood to champion equality for ethnically diverse people and women Ways believers can bring real and lasting change to our culture's pervasive racial ethnic and gender equality issues by following Jesus and his followers examples Without overlooking the places where Christianity has failed to live up to its own ideals Murray challenges the myth that Christianity is an oppressive Western religion and shows believers how to better fulfill their God given mandate to uphold the dignity of every human being Tackling head on one of the most serious challenges to the Christian faith in our multicultural age More Than a White Man's Religion demonstrates how the gospel can inspire positive change for modern culture The Southwestern Reporter , 1917 **The Age of Agade** Benjamin R. Foster, 2015-12-14 The Age of Agade is the first book length study of the Akkadian period of Mesopotamian history which saw the rise and fall of the world's first empire during more than a century of extraordinary political social and cultural innovation It draws together more than 40 years of research by one of the world's leading experts in Assyriology to offer an exhaustive survey of the Akkadian empire Addressing all aspects of the empire including its statecraft and military territory and cities arts religion economy and production The Age of Agade considers what can be said of Akkadian political and social history material culture and daily life A final chapter also explores how the empire has been presented in modern historiography from the decipherment of cuneiform to the present including the extensive research of Soviet historians summarized here in English for the first time Drawing on contemporaneous written and artifactual sources as well as relevant materials from succeeding generations Foster introduces the reader to the wealth of evidence available Accessibly written by a specialist in the field this book is an engaging examination of a critical era in the history of early Mesopotamia **State Responses to International Law** Kendall Stiles, 2014-09-19 Do countries keep their promises to the international community When they sign treaties or learn about new expectations do they take them seriously and implement them Since we already know intuitively that not all countries do the next question and the topic of this book is who complies By considering a wide range of different rules each precise enough to allow one to measure state compliance and a variety of methods we hope to answer this question once and for all Including a systematic analysis of 8 different countries selected for the variety of regime type international engagement and economic development they represent the work caps a five year research program and represents the

culmination of twenty years worth of work in the disciplines of international relations and international law on legalization and compliance Stiles highlights the importance of systematic study of compliance in order to move further towards solving truly global issues such as terrorism human trafficking air pollution and collective goods provision With international laws generally designed to improve the human condition and current levels of compliance inconsistent at best it is vital to gain a better understanding of who complies and why This detailed study will be of interest to students of Politics International Law and International Relations

In the Shadow of Slavery Judith Carney,2011-02-01 The transatlantic slave trade forced millions of Africans into bondage Until the early nineteenth century African slaves came to the Americas in greater numbers than Europeans In the Shadow of Slavery provides a startling new assessment of the Atlantic slave trade and upends conventional wisdom by shifting attention from the crops slaves were forced to produce to the foods they planted for their own nourishment Many familiar foods millet sorghum coffee okra watermelon and the Asian long bean for example are native to Africa while commercial products such as Coca Cola Worcestershire Sauce and Palmolive Soap rely on African plants that were brought to the Americas on slave ships as provisions medicines cordage and bedding In this exciting original and groundbreaking book Judith A Carney and Richard Nicholas Rosomoff draw on archaeological records oral histories and the accounts of slave ship captains to show how slaves food plots botanical gardens of the dispossessed became the incubators of African survival in the Americas and Africanized the foodways of plantation societies

Freedom and Resistance Christopher Curry,2018-08-23 Christopher Curry recovers a social history of black loyalists in the Bahamas that highlights intra and inter racial dynamics and examines their impact on evolving Bahamian society This volume also examines the racial discord that erupted between black and white loyalists as respectively one group sought greater legal freedoms while the other sought greater economic benefits With this work Curry adds a new chapter to the global dimensions of the freedom struggle that emanated from the American Revolution

Age Norms and Intercultural Interaction in Colonial North America Jason Eden,Naomi Eden,2017-05-24 This interdisciplinary study examines how age norms shaped the experiences of Europeans Native Americans and African Americans in colonial North America exploring how diverse population groups conceptualized the human life course and how they adhered to culturally specific sets of beliefs about the young and old Utilizing evidence drawn from a variety of secondary and primary sources the authors also show that as various cultural groups interacted in colonial North America their views of specific age cohorts evolved and clashed in important ways Although age is a category of analysis often overlooked by scholars this book demonstrates that it was pivotal for everyone who lived in early North America including the various Native American tribes that inhabited the eastern part of the continent It also addresses the different ways that European colonists experienced the human life course in three geopolitical regions New England the Middle Colonies and the

South It further explains how age norms played a significant role in both the development of racialized slavery in North America and in relationships between Europeans and Native Americans This study reveals that even within the uneven power dynamic often present during colonial encounters African American and Native American attitudes and practices related to human aging proved resilient and influential Overall by examining how early Americans viewed and treated children youths and older adults this book is one of the first to systematically explore the deep historical roots of age norms in territories that would eventually become a part of the United States Many of the beliefs about human aging that emerged during the colonial period continue to shape approaches to childrearing education health care and numerous other issues Furthermore this study in addition to providing unique and valuable historical information offers readers alternative ways of understanding and approaching the human life course making it relevant to both policymakers and scholars working in a variety of fields

Conceiving Freedom Camillia Cowling,2013 *Conceiving Freedom Women of Color Gender and the Abolition of Slavery in Havana and Rio de Janeiro* **California. Court of Appeal (1st Appellate District). Records and Briefs** California (State)., **Negotiating and Drafting Contract Boilerplate** Tina L. Stark,2003 This resource serves to educate lawyers and business professionals on how to draft the many types of boilerplate provisions a legal term that refers to the standardized one size fits all provisions of a contract Each chapter tackles one of 20 provisions and analyzes why it is important the key legal and business issues raised and how to draft the provision to suit a particular transaction Such analysis not only helps readers better understand how to draft these provisions in their contracts but also helps them better understand the other party s process **Slavery in the United States** Junius P. Rodriguez,2007-03-20 A comprehensive contextual presentation of all aspects social political and economic of slavery in the United States from the first colonization through Reconstruction For 250 years slavery was part of the fabric of American life The institution had an enormous economic impact and was central to the wealth of the agrarian South It had as great an impact on American culture cementing racism and other attitudes that echo into the present This encyclopedia is an ambitious examination of all the issues surrounding slavery the origins the justifications the controversies and the human drama These volumes represent the work of 75 distinguished scholars from around the world Ten thematic essays present a thorough examination of slavery and slave culture including a rare treatment of slavery from the slave s point of view Three hundred A Z entries provide instant access to specific people issues and events Today slavery s immorality seems obvious This encyclopedia provides the student or general reader with an in depth explanation of how the practice evolved and was normalized then anathematized and abolished **The American and English Annotated Cases** ,1907 *Annotated Cases, American and English* ,1907

Tax Law and Racial Economic Justice Andre L. Smith,2015-06-03 No study of Black people in America can be complete without considering how openly discriminatory tax laws helped establish a racial caste system in the United States how they were designed to exclude blacks from lucrative markets and the voting franchise and how tax laws extracted and

redistributed vast sums of black wealth Not only was slavery nearly a 100% tax on black labor so too was Jim Crow apartheid and tax laws specified the peculiar institution as negro slavery The first instances of affirmative action in the United States were tax laws designed to attract white men to the South The nineteenth century Federal Tariff indirectly redistributed perhaps a majority of the profits from slavery from the South to the North and is the principle reason the Confederate states seceded The only constitutional amendment obtained by the Civil Rights Movement is the Twenty Sixth Amendment abolishing poll taxes in federal elections Blending traditional legal theory neoclassical economics and a pan African view of history these six interrelated essays on race and taxes demonstrate that even in today s supposedly post racial society there is no area of human activity where racial dynamics are absent **Carpenter** ,1910 *The World of Colonial America*

Ignacio Gallup-Diaz,2017-04-28 *The World of Colonial America* An Atlantic Handbook offers a comprehensive and in depth survey of cutting edge research into the communities cultures and colonies that comprised colonial America with a focus on the processes through which communities were created destroyed and recreated that were at the heart of the Atlantic experience With contributions written by leading scholars from a variety of viewpoints the book explores key topics such as The Spanish French and Dutch Atlantic empires The role of the indigenous people as imperial allies trade partners and opponents of expansion Puritanism Protestantism Catholicism and the role of religion in colonization The importance of slavery in the development of the colonial economies The evolution of core areas and their relationship to frontier zones The emergence of the English imperial state as a hegemonic world power after 1688 Regional developments in colonial North America Bringing together leading scholars in the field to explain the latest research on Colonial America and its place in the Atlantic World this is an important reference for all advanced students researchers and professionals working in the field of early American history or the age of empires *The Forgotten Emancipator* Rebecca E. Zietlow,2018 Zietlow explores the ideological origins of Reconstruction and the constitutional changes in this era through the life of James Mitchell Ashley

Yo Soy Negro Tanya Maria Golash-Boza,2011-04-01 *Yo Soy Negro* is the first book in English in fact the first book in any language in more than two decades to address what it means to be black in Peru Based on extensive ethnographic work in the country and informed by more than eighty interviews with Peruvians of African descent this groundbreaking study explains how ideas of race color and mestizaje in Peru differ greatly from those held in other Latin American nations The conclusion that Tanya Maria Golash Boza draws from her rigorous inquiry is that Peruvians of African descent give meaning to blackness without always referencing Africa slavery or black cultural forms This represents a significant counterpoint to diaspora scholarship that points to the importance of slavery in defining blackness in Latin America as well as studies that place cultural and class differences at the center of racial discourses in the region Old Age and American Slavery David Stefan Doddington,2023-11-16 *Old Age and American Slavery* explores how antebellum southerners Black and white adapted to resisted or failed to overcome changes associated with old age both real and imagined Slavery was a system of economic

exploitation and a contested site of personal domination both of which were affected by concerns with age In examining how individuals families and communities felt about the aging process and dealt with elders David Stefan Doddington emphasizes the complex social relations that developed in a slave society In connecting old age to the arguments of Black activists abolitionists enslavers and their propagandists the book reveals how representations of old age and experiences of aging spoke to wider struggles relating to mastery paternalism resistance and survival in slavery The book asks us to rethink long standing narratives relating to networks of solidarity in the American South and it illuminates the violent and exploitative nature of American slavery
