**Party Brands in Crisis** Noam Lupu, 2016-01-15 Party Brands in Crisis offers a new way of thinking about how the behavior of political parties affects voters attachments Persuasive Peers Andy Baker, Barry Ames, Lúcio Rennó, 2020-10-27 How voting behavior in Latin America is influenced by social networks and everyday communication among peers In Latin America's new democracies political parties and mass partisanship are not deeply entrenched leaving many votes up for grabs during election campaigns In a typical presidential election season between one quarter and one half of all voters figures unheard of in older democracies change their voting intentions across party lines in the months before election day Advancing a new theory of Latin American voting behavior Persuasive Peers argues that political discussions within informal social networks among family members friends neighbors coworkers and acquaintances explain this volatility and exert a major influence on final voting choices Relying on unique survey and interview data from Latin America the authors show that weakly committed voters defer to their politically knowledgeable peers creating vast amounts of preference change as political campaigns unfold Peer influences also matter for unwavering voters who tend to have social contacts that reinforce their voting intentions Social influence increases political conformity among voters within neighborhoods states and even entire regions and the authors illustrate how party machines use the social topography of electorates to buy off well connected voters who can magnify the impact of the payoff Persuasive Peers demonstrates how everyday communication shapes political outcomes in Latin America's less institutionalized democracies **Party Systems in Latin America** Scott Mainwaring, 2018-02-08 Based on contributions from leading scholars this study generates a wealth of new empirical information about Latin American party systems It also contributes richly to major theoretical and comparative debates about the effects of party systems on democratic politics and about why some party systems are much more stable and predictable than others Party Systems in Latin America builds on challenges and updates Mainwaring and Timothy Scully's seminal Building Democratic Institutions Party Systems in Latin America 1995 which re-oriented the study of democratic party systems in the developing world It is essential reading for scholars and students of comparative party systems democracy and Latin American politics It shows that a stable and predictable party system facilitates important democratic processes and outcomes but that building and maintaining such a party system has been the exception rather than the norm in contemporary Latin America **The SAGE Handbook of Electoral Behaviour** Kai Arzheimer, Jocelyn Evans, Michael S. Rethinking Parties in Democratizing Asia Julio C. Teehankee, Christian Echle, 2023-05-04 Looking at eight case studies of Asian democracies the contributors to this volume analyze the role of political parties in stabilizing and institutionalizing democracies How have democracies such as Indonesia Sri Lanka and the Philippines survived against the odds despite struggling economic performance and highly unequal distribution of income How have formerly authoritarian regimes in places like South Korea and Taiwan evolved into stable democracies The contributors to this volume examine these case studies along with Mongolia Malaysia and India arguing that the common element is the extent to which political parties including opposition parties have become institutionalized and act as stabilizers on democracy They contend that the role of political parties has been significantly underestimated in comparison with structural elements which are insufficient to explain how these democracies have persisted An essential resource for students and scholars of Asian politics especially those with a focus on comparative politics political parties and institutions The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license Funded by Konrad Adenauer Stiftung

*Centrist Anti-Establishment Parties and Their Struggle for Survival* Sarah Engler, 2023-10-18 How do parties survive when newness is their only selling point This scholarly volume explores the most successful group of new political parties in Central and Eastern Europe centrist anti establishment parties CAPs These parties often claim to be neither left nor right strongly criticize the political establishment and instead promise corruption free politics Initially extremely successful many CAPs do not survive more than a few consecutive elections while others do endure As the first book length study on this type of party Sarah Engler explores this question and focuses on CAPs electoral strategies after their first elections It derives three strategies of survival that lead to more sustainable electoral support a reframed protest strategy an anti corruption strategy and a mainstream strategy Combining quantitative data from an original expert survey with qualitative evidence from elite interviews with MPs party officials and anti corruption experts the author demonstrates that CAPs only survive when they abandon their initial strategy of pure protest While strategic change is necessary for party survival several failed attempts at transformation show that it is not sufficient Ideology seemingly irrelevant to CAPs initial successes eventually determines CAPs fates Engler also examines how these findings have implications for other European countries
