Paul Gauguin continues to be a larger than life figure whose mystique exerts its spell on popular critical and scholarly minds. Consequently the available literature on the artist is copious and marked by diversity of opinion on every aspect of his life and work. From the first book length biography of Gauguin written by Louis Brouillon in 1906 interest in Gauguin has continued unabated and since 1959 critical interest in the artist's drawings, prints, sculptures and art works in other media has dramatically increased. Russell T. Clement has compiled the first comprehensive research guide and annotated bibliography on Gauguin. This volume encompasses primary materials by Gauguin including those published during the artist's lifetime and those published posthumously, contemporary accounts and criticism of Gauguin's life and work published through 1906, descriptions of the artist's oeuvre, a lengthy secondary bibliography and a section that catalogs exhibitions of Gauguin's work between 1884 and 1989. While concentrating on printed materials, this guide also includes selected manuscripts in all more than 1500 books and articles are cited. For entries where titles give incomplete or unclear information about works and their content, the author provides brief annotations. Following a biographical sketch and chronology, the primary bibliography lists articles, essays, letters, manuscripts and sketch books of Gauguin and then accounts and critiques of Gauguin's life and work published through 1906. The main part of the bibliography and research guide, the secondary bibliography, lists monographs, catalogues, dissertations, theses, periodical literature, films, sound recordings and musical scores and selected newspaper articles. Substantial book reviews and exhibition reviews are also included. Arranged by topic, the secondary bibliography also includes citations on Gauguin's relationships with contemporary artists in France, his work in Panama and Martinique, his work and life in Tahiti and the Marquesas Islands and his oeuvre in general. Not just a list of sources but a complete research guide, this volume deserves a place in every research library collection. **Wild**

Thing Sue Prideaux, 2025-05-13 One of Literary Hub's Most Anticipated Books of 2025 One of Five Books Best Nonfiction Books of 2024 Shortlisted for the 2024 Baillie Gifford Prize An original and revealing portrait of the misunderstood French Post Impressionist artist Paul Gauguin's legend as a transgressive genius arises as much from his biography as his aesthetically daring Polynesian paintings. Gauguin is chiefly known for his pictures that eschewed convention to celebrate the beauty of an indigenous people and their culture. In this gorgeously illustrated myth busting work Sue Prideaux reveals that while Gauguin was a complicated man, his scandalous reputation is largely undeserved. Self taught, Gauguin became a towering artist in his brief life, not just in painting but in ceramics and graphics. He fled the bustle of Paris for the beauty of Tahiti where he lived simply and worked consistently to expose the tragic results of French Colonialism. Gauguin fought for the rights of Indigenous people, exposing French injustices and corruption in the local newspaper and acting as advocate for the Tahitian people in the French colonial courts. His unconventional career and bold, breathtaking art influenced not only Vincent van Gogh but Matisse and Picasso. **Wild Thing** upends much of what we thought we knew about Gauguin through new primary research, including the resurfaced manuscript of Gauguin's most important writing, the untranslated memoir of

Gauguin's son and a sample of Gauguin's teeth that disproves the pernicious myth of his syphilis. In the first full biography of Paul Gauguin in thirty years, Sue Prideaux illuminates the extraordinary oeuvre of a visionary artist vital to the French avant-garde. The result is a brilliantly readable and compassionate study of Gauguin not just as a painter, sculptor, carver, and potter but as a human soul perpetually searching for what is always just out of reach. —Artemis Cooper, *Spectator*

Gauguin Ingo F. Walther, Paul Gauguin, 2000 A Frenchman in Tahiti After starting a career as a bank broker, Paul Gauguin, born 1848, turned to painting only at age twenty-five. After initial successes within the Impressionist circle, he broke with Vincent van Gogh and subsequently, when private difficulties caused him to become restless, embarked on a peripatetic life wandering first through Europe and finally in the search for pristine originality and unadulterated nature to Tahiti. The paintings created from this time to his death in 1903 brought him posthumous fame. In pictures devoid of any attempt at romantically disguising the life style of the primitive island peoples, Gauguin was able to convey the magical effect that both the landscapes and life of the natives, their body language, charm, and beauty had on him. Wearying of his reputation as a South Sea painter, Gauguin finally determined to return to France but died of syphilis on the Marques Islands before his departure.
