

A fixed armrest containing power window switches, a courtesy lamp, and an ashtray was mounted on the center of the Corvette Impala's rear seat. (Photo Courtesy GM Media Archive)

Exterior measurements of the Corvette Impala were a rather low overall height of 53.7 inches, a width of 74.4 inches, an overall length of 202 inches, a wheelbase spanning 116.5 inches, and a road clearance of 6 inches.

Designing safety into the interior was still in its infancy in the 1950s, but the Corvette Impala was certainly advanced in that regard; none of the safety features interfered in the least with the cosmetic appearance

A Corvette equipped with the optional dual-quad V-8 was on display at the GM Motorama for 1956. Examining the engine compartment is Betty Skelton, who established many records in aviation and at Daytona Speedweeks driving a specially prepared Corvette. She also served as a spokesperson for Chevrolet. (Photo Courtesy GM Media Archive)

of the interior. A unique, airfoil-shaped, padded cornering bar (or strut) emerged from the steering column and angled upward before transitioning into a horizontal component extending across the entire width of the interior. Flush-fitting controls for the heater/defroster, headlights, and windshield wipers were located on the surface of the strut. Nestled above the steering column was the recessed and hooded instrumentation cluster, which consisted of a 120-mph (perhaps 130-mph) speedometer and a speed warning system of 10 circular windows spread across the instrument panel; each illuminated progressively in more intense shades of red as speed increased. Also included for safety were seat belts that were stored in the recesses between the backrests and seat cushion. A sloped, recessed package shelf and a padded rear window header served as additional safety features.

The bench seats of the Corvette Impala were upholstered in silver-blue vinyl and crosshatch-pattern nylon; the front seat, which was equipped with a fold-down center armrest fitted with a map case, slid forward when tilted to aid entry and exit for rear-seat passengers. A fixed armrest with power window switches, a courtesy lamp, and an ashtray was mounted on the center of the rear seat. (A fixed rear center armrest was included for the production version of the Impala two years later.) The floor covering material was similar to, if not the same as, that of the Corvette. Bright metal strips overlaid the carpet in front. The concave section of the door panels was fitted with blue-tinted metal inserts and long armrests for maximum comfort. Other conveniences included a radio and drum clock mounted in the center section of the padded cowl.

The Corvette Impala was displayed at the 1957 Chicago Auto Show, where it appeared in this deep blue color. (Photo Courtesy Warren Kostelny)
