that explains why we feel stuck why that's normal and how shifting our perception of grief can help us grow from the New York Times bestselling author of *Motherless Daughters* This is perhaps one of the most important books about grief ever written It finally dispels the myth that we are all supposed to get over the death of a loved one Claire Bidwell Smith author of *Anxiety The Missing Stage of Grief* Aren't you over it yet Anyone who has experienced a major loss in their past knows this question We've spent years fielding versions of it both explicit and implied from family colleagues acquaintances and friends We recognize the subtle cues the slight eyebrow lift the soft startled Oh That long ago from those who wonder how an event so far in the past can still occupy so much precious mental and emotional real estate Because of the common but false assumption that grief should be time limited too many of us believe we're grieving wrong when sadness suddenly resurges sometimes months or even years after a loss *The AfterGrief* explains that the death of a loved one isn't something most of us get over get past put down or move beyond Grief is not an emotion to pass through on the way to feeling better Instead grief is in constant motion it is tidal easily and often reactivated by memories and sensory events and is re-triggered as we experience life transitions anniversaries and other losses Whether we want it to or not grief gets folded into our developing identities where it informs our thoughts hopes expectations behaviors and fears and we inevitably carry it forward into everything that follows Drawing on her own encounters with the ripple effects of early loss as well as on interviews with dozens of researchers therapists and regular people who've been bereaved New York Times bestselling author Hope Edelman offers profound advice for reassessing loss and adjusting the stories we tell ourselves about its impact on our identities With guidance for reframing a story of loss finding equilibrium within it and even experiencing renewed growth and purpose in its wake she demonstrates that though grief is a lifelong process it doesn't have to be a lifelong struggle

St Louis's most beloved columnists *Breast Cancer* Julianne S Oktay, J Dianne Garner, 2013-12-16 I will always and forever feel I have a hole in my life where my mother once existed I think when you have to think about the fact you might have to take care of your parents someday and juggle kids at the same time It's a scary proposition We had open communication during and before the breast cancer But then after the breast cancer I was often afraid to bring things up in trying to protect Mom This insightful book tells the stories of women whose mothers had breast cancer It uses their own voices to express the common fears and expectations of daughters in the periods before and during their mothers' illnesses involving genetic risks death and dying and changes in their relationships The case studies, tables and figures and two appendices will benefit health professionals and counselors while the poignant narratives will help mothers and daughters better understand their experiences with breast cancer I was kind of surprised to be alive and free of cancer at age 42 when at this point my mother was crippled by metastases When I get to be 43 the age at which my mother died or maybe when I get to 44 it's like what do I do I have this life that I didn't expect to have *Breast Cancer Daughters Tell Their Stories* presents the results of a qualitative grounded theory study of breast cancer survivors providing in depth information about an aspect of breast cancer that has been previously overlooked The book examines the daughters' experiences through four phases: the period prior to mother's illness, the period during mother's illness and treatment, the period following mother's death if mother dies, and the long term impact From this study recommendations are compiled for providing or improving services for tomorrow's daughters The radical mastectomy left her scarred and disfigured below her nightgown It was bruised and nasty looking That was kind of scary I think that has terrified me since Sometimes I'll have pains in my left breast and that's what I visualize It's terrifying I'm not really obsessed about dying of cancer I'm more along the line of If this is going to happen to me and there's a chance it's going to I'm gonna survive I'm not going to die from it From an empathetic perspective this book reveals how many daughters react to and deal with their mothers' diagnoses depending on their age and family situation at the time of their mothers' illnesses It shows how daughters can gain a more accurate idea of their level of risk by providing educational materials and developing new strategies for communication It also helps breast cancer survivors see how their illnesses can shape their daughters' future outlook offering new inspiration for resolving and preventing family crises **Archaeologies of an Uncertain Future** Karen McPherson, 2006-12-15 In *Archaeologies of an Uncertain Future* McPherson explores the memory work, alternative historiographies and feminist aesthetics by which women writers revisit the past and reimagine the future Grounded within critical discourses across many disciplines McPherson's analysis engages contemporary discussions about autobiographical genres, post-modern historiographies, memoirs and literary genealogies **Experiencing Infertility** Debby Peoples, Harriette Rovner Ferguson, 2000 A past president of the RESOLVE support organization for infertile individuals joins a psychotherapist to offer guidance through the coping phases, a guide for professionals, self-help guide and resources First published as *What to Expect When You're Experiencing Infertility* Annotation copyrighted by Book News Inc
