Out of Time Rahul Rao, 2020-03-09 This book explores the afterlives of colonialism and the futures imagined in its wake in the queer politics of Uganda India and Britain Revitalizing intersectional thinking it offers an original interpretation of why queerness mutates to become a metonym for categories such as nationality religiosity race class and caste The book argues that these mutations reveal the deep grammars forged in the violence that founds and reproduces the social institutions in which queer difference struggles to make space for itself

Religion, Theory, Critique

Richard King, 2017-07-18 Religion Theory Critique is an essential tool for learning about theory and method in the study of religion. Leading experts engage with contemporary and classical theories as well as non-Western cultural contexts. Unlike other collections, this anthology emphasizes the dynamic relationship between religion as an object of study and different methodological approaches and openly addresses the question of the manifold ways in which religion, secularism, and culture are imagined within different disciplinary horizons. This volume is the first textbook which seeks to engage discussion of classical approaches with contemporary cultural and critical theories. Contributors write on the influence of the natural sciences in the study of religion, the role of European Christianity in modeling theories of religion, religious experience and the interface with cognitive science, the structure and function of religious language, the social scientific study of religion, ritual in religion, the phenomenology of religion, critical theory and religion, embodiment and religion, the impact of colonialism and modernity, theorizing religion in terms of race and ethnicity, links among religion, nationalism and globalization, the interplay of gender, sex and religion, and religion and the environment. Each chapter introduces the topic, identifies key theorists and issues, and respects the pluralistic nature of the scholarship in the field. Altogether, this collection scrutinizes the explicit and implicit assumptions theorists make about religion as an object of analysis. Justice Required Robert J. Durán, Oralia

Loza, 2025-10-07 Police have remarkably broad discretion to use deadly force. Evidence shows that more than 1,000 shooting deaths occur each year at the hands of the police in the United States, disproportionately in minority communities and often under questionable circumstances. Despite public outrage, there continue to be obstacles to assessing the extent of bias and addressing the harms of police violence, including a lack of transparency and limitations on access to data. Justice Required is a groundbreaking quantitative and qualitative investigation of police violence. Robert J. Durán and Oralia Loza provide a comprehensive data analysis of all police shootings in Denver, Colorado, over nearly forty years, highlighting persistent patterns of racial and ethnic inequality. They examine the institutional and political dynamics that thwart efforts to hold police officers accountable after controversial incidents. Durán and Loza contextualize the data with regional comparisons and enliven the analysis with vivid storytelling. Justice Required argues that while police shootings are typically treated as a criminal justice issue, they should be understood as a public health problem. Rigorous and urgent, this book provides evidence-based, data-driven solutions to prevent further loss of life and promote accountability. Jews in Contemporary Visual

Entertainment Carol Siegel, 2022-05-03 What are the consequences of how Jews are depicted in movies and television series? Drawing on a host of movies and television series from the 1970s to present day, Jews in Contemporary Visual Entertainment explores how the media sexualize and racialize American Jews. Race and sexuality frequently intersect in the depiction of Jewish characters in such shows as *The Marvelous Mrs. Maisel*, *UnREAL*, *The Expanse*, and *Breaking Bad*, and in films such as *Hester Street*, *Once Upon a Time in America*, *Casino*, *Radio Days*, *Inglourious Basterds*, and *Barton Fink*. When they do, American sexual norms are invariably challenged or outright broken by these anti-Semitic representations of Jewishness.

Insightful and provocative *Jews in Contemporary Visual Entertainment* disturbingly reveals the far reaching influence of popular visual media in shaping how American Jews are perceived today [The Nature and Nurture of Love](#) Marga Vicedo,2013-05-16 The notion that maternal care and love will determine a child's emotional well being and future personality has become ubiquitous In countless stories and movies we find that the problems of the protagonists anything from the fear of romantic commitment to serial killing stem from their troubled relationships with their mothers during childhood How did we come to hold these views about the determinant power of mother love over an individual's emotional development And what does this vision of mother love entail for children and mothers In *The Nature and Nurture of Love* Marga Vicedo examines scientific views about children's emotional needs and mother love from World War II until the 1970s paying particular attention to John Bowlby's ethological theory of attachment behavior Vicedo tracks the development of Bowlby's work as well as the interdisciplinary research that he used to support his theory including Konrad Lorenz's studies of imprinting in geese Harry Harlow's experiments with monkeys and Mary Ainsworth's observations of children and mothers in Uganda and the United States Vicedo's historical analysis reveals that important psychoanalysts and animal researchers opposed the project of turning emotions into biological instincts Despite those substantial criticisms she argues that attachment theory was paramount in turning mother love into a biological need This shift introduced a new justification for the prescriptive role of biology in human affairs and had profound and negative consequences for mothers and for the valuation of mother love [The Nature of Tomorrow](#) Michael Rawson,2021-01-01 An examination of how Western visions of endless future growth have contributed to the global environmental crisis This book does something that is worth doing and that no other scholarly book I know of comes close to doing tracing the history of imagined environmental futures in the Western world William Meyer Colgate University For centuries the West has produced stories about the future in which humans use advanced science and technology to transform the earth Michael Rawson uses a wide range of works that include Francis Bacon's *New Atlantis* the science fiction novels of Jules Verne and even the speculations of think tanks like the RAND Corporation to reveal the environmental paradox at the heart of these narratives the single minded expectation of unlimited growth on a finite planet Rawson shows how these stories which have long pervaded Western dreams about the future have helped to enable an unprecedentedly abundant and technology driven lifestyle for some while bringing the threat of environmental disaster to all Adapting to ecological realities he argues hinges on the ability to create new visions of tomorrow that decouple growth from the idea of progress [The Umbilical Cord Blood Controversies in Medical Law](#) Karen Devine,2017-01-12 Since the therapeutic value of umbilical cord blood UCB stem cells was first recognised in the late 1980s there has been a proliferation of both public and private UCB banks worldwide However the ability to utilise such a potentially valuable resource has provoked a number of controversies In a distinctly accessible style this book unpacks the socio legal implications of the UCB collection process and constructs a detailed analysis of the law and ethics that surrounds

UCB banking in the UK including ownership of the cells Its enquiry is located within the theoretical framework of altruism versus self interest and explores the notions of risk and choice associated with this distinctive blend of public private healthcare provision The book evaluates the impact of the Human Tissue Act 2004 and the European Union Tissues and Cells Directive 2004 23 EC on the UCB industry and provides a unique insight into the effect that the law may have on the NHS whose maternity staff and premises are used to collect UCB This book would be of interest primarily to a UK readership in addition to expectant families health professionals students academics practitioners and the UCB industry elsewhere in the world

Finding Ancient Rome Paula Landart,2023-03-06 Second edition updated March 2023 Ancient Rome is still with us more than ever Every year with new metro lines roadworks digs restorations and repairs new discoveries are made and old errors corrected and new questions raised This electronic book is intended as both a walking guide to ancient Rome and a resource for the city and the people who left their mark on history Each of the eight excursions illustrates an aspect of the city from the foundation to the fall and in passing explains the bits of modern Rome whose roots lie in that distant past These walks are not meant to be a tourist guide of the Rome in 3 days style nor a nutshell guide to the well documented and overrun sites such as the Colosseum and the Forum Instead they lead through the city itself along paths that have been trod for thousands of years

Posthumous Lives Bette London,2022-04-15 Posthumous Lives explores the shifting significance of public and private efforts to commemorate British soldiers killed in World War I as well as the less well remembered casualties of the war including Voluntary Aid Detachments nurses conscientious objectors civilians and soldiers executed for desertion or cowardice and the compelling hold the First World War has had on the British imagination for more than a century By using the concept of the posthumous life the attempt to extend the presence of the dead into the lives of the living Bette London demonstrates how this idea came to shape Britain s First World War memory practices and rituals London draws on a diverse range of source materials from sentimental memorabilia books commissioned by bereaved families and canonical works of literature and art by Virginia Woolf Wilfred Owen and Sir Edwin Lutyens to centenary memorials and commemorative art installations to uncover the surprising connections between memorialization practices war writing and modernism Spanning the century from the middle of World War I to its centenary celebrations Posthumous Lives illuminates in a deeply moving narrative how the dead are remembered to meet the shifting needs of the living
