Motorsport Going Global The Challenges Facing The Worlds Motorsport Industry:

Motorsport Going Global N. Henry,T. Angus,M. Jenkins,C. Aylett,2007-07-31 This book provides the definitive economic study of the global motorsport industry Drawing on a decade of research and interviews with top industry executives and international commentators the global grid of motorsport is analyzed and the world s national motorsport industries benchmarked Motorsport Going Global concludes on scenarios for the global industry as it enters a new era of market growth and global opportunity

Migrants to the Metropolis Marie Price,Lisa Benton-Short,2008-06-27 Immigration today touches the lives and economies of more people and places than ever before Yet the places that are disproportionately affected by immigrant flows are not countries but cities This remarkable collection examines contemporary global immigration trends and their profound effect on specific host cities The book focuses not only on cities with long established diverse populations such as New York Toronto and Sydney but also on less known gateway cities such as Birmingham UK Marseille and the emerging gateways of Johannesburg Washington D C and Dublin The essays gathered here provide a global portrait of accelerating worldwide immigration driven by income differentials social networks and various state policies that recruit skilled and unskilled laborers Gateway cities vary in form and function but many are hyperdiverse globally linked through transnational networks and often increasingly segregated spaces Offering penetrating analysis by the leading scholars in the field Migrants to the Metropolis redirects the global narrative surrounding migration away from states and borders and into cities where the vast majority of economic migrants settle

The Future of Motorsports Hans Erik Næss,Simon Chadwick,2023-06-12 This book takes stock of the position of motorsport in the 21st century and considers how it will continue to influence sport business politics and society in the future Presenting a set of thematic essays and multi disciplinary case studies the book demonstrates that motorsport continues to play a significant role in relationships between the automotive industry nationalism industrialisation and capitalism as well as motorsports position as a feature of contemporary popular culture Examining issues such as event management and legacy environmental sustainability and greenwashing diversity and inclusion the rise of gaming and esports and the use of sport as political soft power around the world across multiple motorsport disciplines the book shines fascinating new light on this innovative but sometimes problematic industry This is essential reading for all advanced students researchers managers strategists sponsors and other stakeholders working at the nexus of motorsport business politics and culture

The Green Transition in Motorsport Hans Erik Næss,Samuel Tickell,2024-10-28 This book is a critical exploration of motorsport s contribution to the green transition understood as a societal shift towards a fossil free future a circular economy and greater social inclusiveness The book takes a critical look at the historical impact of motorsport and the current business and sporting models that determine its sustainability as well as the innovation that might contribute solutions to wider social and environmental problems Drawing on perspectives from sociology media and sport business the book unpacks the complexity of stakeholder interests in

motorsport that might constrain positive change Presenting cases and data from Formula One Formula E Extreme E the World Rally Championship NASCAR and the World Endurance Championship the book considers the technological and organizational change required to address the triple bottom line of financial environmental and social sustainability and looks at how audiences markets teams governing bodies corporations and state actors combine to shape the social and economic environments within which motorsport takes place Representing a unique case study of the impact of elite sport on wider society this book is fascinating reading for anybody with an interest in motorsport sport business sustainable business or environment society and culture

Motorsport Going Global Nick Henry,Tim Angus,Mark Jenkins,Chris Aylett,2007-08-15 Racing is truly a global enterprise and it s expanding every year There is no one more qualified than Chris Aylett to discuss the business of motorsport on a global scale The racing industry is an extraordinarily dynamic worldwide market This book does an excellent job in capturing its scope and robust vitality Steve Lewis Owner Publisher of Performance Racing Industry magazine and the PRI Show the largest racing industry trade event in the world This excellent readable book looks at the motorsport industry in a new light that of a business that is on the verge of becoming global in its activities and with some of the aspects of globalisation already in place It is clear that the motorsport industry is facing opportunities that are unique in scope and scale but will it take them The authors present intriguing answers to this question This book is a must read for those concerned about motorsport s traditional clusters as they need to be forewarned of the challenges and ready with solutions Professor D G Rhys CBE Director Centre for Automotive Industry Research Cardiff University Business School and Member of the UK s Motor Racing Development Board

Creative and Collaborative Learning through Immersion Anna Hui,Christian Wagner,2021-08-10 This book includes instructional design and practice of how immersive technology is integrated in discipline based and interdisciplinary curriculum design It focuses on pedagogical models and learning outcomes of immersive learning experiences and demonstrates how immersive learning can be applied in industries This book brings scholars researchers and educators together around an international and interdisciplinary consolidation and reflection on learning through immersion The originality lies in how advanced technology and contemporary pedagogical models can integrate to enhance student engagement and learning effectiveness in higher education

Full speed ahead Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee,2010-03-22 Motorsport and aerospace are two industries in which the United Kingdom is a world leader and the Committee believes that the future success of the UK economy will be based on these types of industries Concerns regarding the aerospace included the current US complaint in the World Trade organisation and the Government s right to support the

industry through Repayable Launch Investment and that the UK aerospace sector has access to export trade credit at less favourable rates and through a more complex system than other countries In examining the motorsport industry the Committee felt that there was a lack of understanding and effective engagement by Government They are not content with the Government s current plans to take forward its work with the sector through the UK Automotive Council Instead they recommend that the Government establish a dedicated motorsport policy team within the Department for Business Innovation and Skills Small and medium sized enterprises also play a very important role in supporting both sectors but they have been hit worst by the recession and the Government needs to do more to encourage high performance engineering firms to diversify Both sectors require a highly skilled workforce and more needs to be done to align the education system with the skills needs of the industries Finally is the problem of the non green image that both industries have

Blockchain Hurricane Kate Baucherel,2020-03-03 This book gives business decision makers and students a clear overview of the history current applications and future potential of distributed ledgers and cryptocurrency The hype around blockchain technology is matched only by the innovation it inspires and the skepticism it provokes This book gives business decision makers and students a clear overview of the history current applications and future potential of distributed ledgers and cryptocurrency It explores strengths and weaknesses emerging opportunities and perceived threats Technical frameworks are presented in a business context to help strategists understand the risks and rewards of different approaches to blockchain implementation and the decision factors in determining whether this is a viable solution to the problem at hand

components Remote NDE to include competence not available on site will be a potential technique to increase reliability of NDE inspections by integrating additional specialist inputs into the decision process by methods such as telepresence thereby better leveraging the scarce resources of senior inspectors into industrial inspections at multiple sites The handbook also includes non technical topics of direct relevance to leadership management and adoption of this new philosophy The handbook houses a wealth of essential information to help academics industry professionals regulatory bodies and entrepreneurs navigate through this burgeoning new field The material in this handbook is presented with the intention of ultimately improving human safety through reliable inspections and dependable maintenance of critical infrastructure while also enhancing business value through reduced downtime affordable maintenance and talent optimization The content is positioned to inspire NDE professionals to think broadly in terms of their role as continuous value add rather than discrete decision support This second edition contains many new chapters and half of all chapters were revised from the 1st edition based on the engagement of authors through global platforms such as the ICDNT Specialist International Group on NDE 4 0 and the International conference series on NDE 4 0

A History of Sports Video Games Lu Zhouxiang, 2024-12-09 This book explores the history of sports and sports themed video games providing a comprehensive and holistic view of this complex and diverse genre The author highlights the influence of technological advancement industry competition and popular culture on game design marketing strategies and user experience Offering valuable insights into the historical process of interaction and integration between real world sport and video games this volume will enrich existing scholarship on video games This volume is a valuable contribution to the fields of both game studies and sports studies and will be perfect for those interested in the history of science and technology as well as social and cultural history

New Scientist and Science Journal ,2003 *The Standard Periodical Directory* ,2001 Signal to Noise ,2003 **Fossil Fuel Hydrogen** William J. Nuttall, Adetokunboh T. Bakenne, 2019-10-31 As the case for Climate Change mitigation becomes ever more pressing hydrogen has the potential to play a major role in a low carbon energy future Hydrogen can drive the vehicles of tomorrow and also heat homes and supply energy to businesses Much recent discussion in energy policy circles has considered ways in which greatly expanded electrification can meet the demand for low carbon mobility and heating Such narratives centre on the widespread use of renewable energy sources with occasionally surplus renewable electricity being used to produce hydrogen for example by electrolysis While such developments have a beneficial role to play this book focuses on an alternative paradigm This book considers a more evolutionary path involving the continued extraction and use of fossil fuels most notably natural gas but in ways that greatly reduce greenhouse gas emissions In this way much established industrial capacity and know how might be transitioned to help deliver the low carbon future that the world so desperately requires Presenting up to date energy policy recommendations with a focus on hydrogen from fossil fuels the book will be of considerable interest to policymakers and energy researchers in academia industry and government labs while also offering a

valuable reference guide for business developers in low carbon energy and for oil and gas industry analysts
