Talking to Adults Shoshana Blum-Kulka,Catherine E. Snow,2002-04 The focus of this volume is on how language is used between adults and children The results is a volume that will appeal to readers in language development and narrative discourse Has the potential to become a classic graduate level text reference

From Breakdown to Breakthrough Danielle Knafo,Michael Selzer,2023-11-22 As a clear and user friendly guide for clinicians who work with patients affected by psychosis this book challenges the false notion that psychosis is untreatable through talk therapy The authors contend that since psychotic symptoms are features of survival adaptation they naturally serve as a valuable source of information providing clues about the origins of people s psychic derailment along with a path to its cure The authors advise therapists not only to read and respond to the messages embedded in the symptoms but also to recognize and utilise the non psychotic aspects of the patient in facilitating recovery The overall aim is to recruit the patient as a collaborator in their treatment thus wresting a meaningful and redemptive narrative from the psychotic experience All aspects and phases of treatment from initial encounters through the middle

styles and theoretical persuasions described and explained the sessions they each conducted with the same couple. These sessions varied greatly; each has a distinctive focus. Two included family of origin members; one involved a co-therapist. Later, other therapists representing an even broader range of perspectives discussed their viewpoints and speculated how they might have approached the same case. In *ONE COUPLE FOUR REALITIES: MULTIPLE PERSPECTIVES ON COUPLE THERAPY*, the experience of attending this conference is recreated and expanded. The reader is first given the same background information about the couple that was supplied to the interviewers and is then presented with edited transcripts and commentary by Framo, Papp, Paul, and Sluzki about their own sessions. Further perspectives and approaches to the case are provided by a number of other teachers of therapy. Thus, the reader is invited to view the couple from over a dozen different perspectives, including psychodynamic, object relations, systemic, behavioral, feminist, contextual, and eclectic orientations. Perhaps the most fascinating perspective is provided by the couple, Larry and Jennifer, who in the last section of the book detail their reactions to the four demonstration sessions. Their stunningly candid and intelligent accounts, given soon after the original interviews and then again six years later, provide a compelling conclusion to the book. Most published cases are selected retrospectively to illustrate the power of the author's approach. By contrast, this couple was selected in advance; their case, ongoing at the time in a Boston clinic, seemed suitable for the demonstration interviews to be videotaped for the Harvard conference. The couple was bright and engaging. They and their families of origin were willing to participate. The interviewers agreed to document the sessions no matter how they turned out. This prospective method of case selection lent authenticity to the interviews, permitting the viewers and now the reader to witness clinical work as it might unfold in the office of any therapist. This volume is not intended to, and does not demonstrate, the superiority of one approach over another. Each of the four demonstration interviews represents careful, conscientious work, and each leads to a different reality about the couple. Only in a volume such as this can one see in high relief what each approach brings to light and what each obscures. All therapists interested in couples should find this book useful, as it stimulates readers to scrutinize their own theories and practices, consider how they might have approached Larry and Jennifer, and ponder what their own viewpoint may have caused them to overlook. Clinicians will appreciate the theoretical discussions and case analyses. The book is a natural supplemental text for courses in couple or family therapy. Teachers may learn much from the appendix, which addresses ethical and therapeutic aspects of using videotaped demonstration interviews, important issues that have been neglected in the professional literature. The book may also have personal resonance for nonprofessionals interested in exploring the complexity of one couple's relationship. All will find *ONE COUPLE FOUR REALITIES* accessible and thought-provoking. Through the lives of Larry and Jennifer, it addresses timeless and timely questions about the personal, familial, and cultural forces that create, shape, and strain the bonds that hold couples together.
