

YAMAHA XT250G

Introducing The Schoolboy Scrambler, A Street-Legal, Woods-Worthy Four-Stroke For Kids Of All Ages.

■ Motorcycle critics are "worldly" people. When Yamaha's research began "to pay off" when the specialists sold well and inspired imitations, our reporters said, in effect, "Fine." So Yamaha learned what most people think motorcycles should look like and build models that look like that, but what about the younger set? What about people who grow up with dirt bikes, who care about technology and the latest in motorcycles? What will all this research do about that, eh?

What it will do, it's done.

It's the XT250, a dual-purpose model with behind-the-seat four-stroke 250 Single, using the latest word in motorcycle engineering methods and sized to fit an option to the XT250.

The XT250 is not, repeat, not, a smaller version of the 250. Instead, it's completely different, really new, and may even hint at what the larger model will become.

Perhaps best of all, Yamaha has done some serious thinking about all this, and has given a few extra things to give the buyer what he wants and will appreciate.

First problem must have been using a four-stroke engine with the most-looked-for compression. All the extra gear on top makes the four-stroke bigger than a comparable two-stroke, and usually the need

for a separate oil supply means a separate oil tank or a wet sump again adding to weight.

Then, a new and different 250 four-stroke. With bore and stroke of 75 x 56.3 mm, the XT is well over-squared, but not much more than normal for the class. The Honda XL250 is 74 x 57.8 mm, the Kawasaki KL250 is 70 x 64. And the XT250 has a wet sump, while the XT500 uses the

frame backbones to stay cool. But the engine is otherwise just not built as small as a comparable
