17 include decisions of the War Labor Board      **License to Spill** Rachel Plotnick,2025-04-29 How everyday wetness from  
finger smudges sweat and spilled drinks to showering and swimming collides with consumers media devices designed to stay  
dry License to Spill investigates the everyday moments activities and spaces where media technologies and liquids collide  
from disastrous spilled drinks that corrode laptops and drops in the toilet that drown smartphones to the greasy finger  
smudges and sweat droplets that sully screens and glitch smartwatches Putting historical and present day case studies in  
conversation Rachel Plotnick considers how people s experiences with media devices inevitably encounter wetness and yet  
consumers not the companies who make the devices take the blame when leaks spillages and overflows occur Along with  
thinking about preventive measures and device caretaking License to Spill examines how water resistant and waterproofed  
technologies through their design and marketing imagine the brawnier and hardier of users meant to punish and abuse  
their tough devices granting them unfettered permission to get wet Examining a long history of torture testing and  
hyperbolic claims of imperviousness the book demonstrates how protective designs relate to broader cultural ideas about  
media use as sporty luxurious excessive or messy This context is especially relevant given that the market for water resistant  
bags cases coatings and seals has flourished over the past decade with new rhetoric about wetness as natural and digital  
technologies as ever present The book pushes us to attend to both the ideals and problems that arise when designing  
resilient devices ranging from the right to repair movement and lawsuits over ingress protection IP ratings to obsolescence  
culture and work from home activities in the wake of the COVID 19 pandemic      **LABOR RELATIONS REFERENCE**
