Considers implementing a national automobile emission standard Feb 13 and 14 hearings were held in Los Angeles Calif Feb 20 and 21 hearings were held in Detroit Mich pt 1 Considers S 780 the Air Quality Act of 1967 to establish a program of Federal air quality standards and assistance to state programs focusing on controlling automobile exhaust emissions Apr 3 hearing was held in Denver Colo and Apr 4 hearing in St Louis Mo pt 2 Considers status of ambient air quality criteria Includes the following reports a National Center for Air Pollution Control Current Status Report State and Local Pollution Control Programs May 1967 p 1160 1283 b New York City Council Air Pollution in New York City June 1965 p 1495 1568 c New York City Council Blueprint for Cleaner Air Dec 1965 p 1569 1624 pt 3 to provide efficient air pollution controls for industry and autos pt 3 Continuation of hearings considering S 780 to provide efficient air pollution controls for industry and autos pt 4      Automotive Industries ,1911      Future Automotive Fuels Joseph Colucci,2013-03-09 In October 1975 while the United States was still acutely feeling the aftermath of the 1973 Arab Oil Embargo the General Motors Research Laboratories held its nineteenth annual symposium The proceedings of this timely symposium on Future Automotive Fuels Prospects Performance and Perspective are reported in this book We hope that it will serve not only as a permanent record of the papers and discussions but also as a stimulus and inspiration for ideas research and development in the vital field of automotive fuels The economy of the United States and the lifestyle of her people are woven together with energy into a unique fabric Reducing the energy content of this fabric weakens it and can even destroy it The Oil Embargo stunningly demonstrated how easy it is to attack this fabric and exposed for all to see its greatest weakness reliance on imported petroleum Since petroleum is the only current source of automotive fuels and cars and trucks consume about 43 percent of the petroleum used in the United States the Oil Embargo had its most profound and dramatic on automotive transportation First there were long lines at service stations impact and then idle lines in car assembly plants and long lines at unemployment offices Against this grim setting we planned the symposium on automotive fuels for the future      **The Global Automotive Industry** Paul Nieuwenhuis,Peter Wells,2015-08-06 The automotive industry is still one of the world s largest manufacturing sectors but it suffers from being very technology focused as well as being relatively short term focused There is little emphasis within the industry and its consultancy and analyst supply network on the broader social and economic

impacts of automobility and of the sector that provides it The Global Automotive Industry addresses this need and is a first port of call for any academic official or consultant wanting an overview of the state of the industry An international team of specialist researchers both from academia and business review and analyse the key issues that make vehicle manufacturing still the world's premier manufacturing sector closely tied in with the fortunes of both established and newly emerging economies In doing so it covers issues related to manufacturing both established practices as well as new developments issues relating to distribution marketing and retail vehicle technologies and regulatory trends and crucially labour practices and the people who build cars In all this it explains both how the current situation arose and also likely future trajectories both in terms of social and regulatory trends as the technological marketing and labour practice responses to those leading in many cases to the development of new business models Key features Provides a global overview of the automotive industry covering its current state and considering future challenges Contains contributions from international specialists in the automotive sector Presents current research and sets this in an historical and broader industry context Covers threats to the industry including globalization economic and environmental sustainability The Global Automotive Industry is a must have reference for researchers and practitioners in the automotive industry and is an excellent source of information for business schools governments and graduate and undergraduate students in automotive engineering *Industrial Arts Index*, 1926

Economic restructuring has been a notable feature of so called mature industrial economies such as the UK and Australia in the last two decades with deregulation privatisation technological change and globalisation combining to reshape such economies Some industries have grown while others have declined Moreover while overall employment in the UK and Australia has grown many newly created positions require skills not found in the industries shedding labour or are in casualised and low paid occupations Many lesser skilled workers leaving declining industries are therefore at risk of long term unemployment or leaving the workforce entirely Both mental and physical health can be affected after redundancy It is therefore crucial that the measures put in place in many domains of social policy such as formal health policy employment assistance community development housing assistance and so on to adequately address the difficulties confronting this group This volume takes a closer look at the impact of manufacturing notably automotive plant closures in the UK Birmingham and Australia Adelaide in recent years and policy responses to those closures It attempts to tease out differences in policy response and effectiveness and attempts to identify areas where policy could be made to work better in terms of adjusting to large scale manufacturing change and resulting job losses In so doing it begins for the first time we believe to take a

comparative approach to understanding the impact of plant closures and policy responses This book was published as a special issue of Policy Studies     **Bulletin** ,1985     **Bulletin** United States.
