Partnerships For Mental Health Narratives Of Community And Academic Collaboration:

Partnerships for Mental Health Laura Weiss Roberts, Daryn Reicherter, Steven Adelsheim, Shashank V. Joshi, 2015-09-10
This unique title richly tells the stories of partnership and collaboration. The narrative voice of each chapter derives from the people who tell their story: immigrants, survivors of torture, mental health experts, urban people, rural people, teachers, doctors, attorneys, students, and international leaders. These authors provide emotionally powerful tales that move, affect, and encourage readers. The collection of narratives is inspired by these individuals who believe that collaboration can bring authentic mutualism, promise keeping, and innovation to address the hardest problems we face as a world community. Partnerships for Mental Health Narratives of Community and Academic Collaboration is about the stories of innovation and collaboration occurring between community and academic partners who have undertaken among the very hardest of problems such as the care of veterans with ravaging posttraumatic stress disorder, the care of homeless individuals with HIV, addiction, and mental illness, the care of caregivers for Hispanic family members with Alzheimer's disease, the prevention of illness in impoverished vulnerable youth, and the rescue of profoundly mentally ill earthquake survivors. In addition, this title not only also tells the story of identity formation of early career physicians with a calling to work with distinct populations for whom suffering and stigma are immense, but also the stories of the special bonds that develop and are strengthened between community members and academic colleagues and ultimately between friends. A truly indispensable contribution to the literature, this captivating and novel title illustrates and inspires collaboration in order to bring about better health outcomes for people affected by mental health issues in communities throughout the world. Global Mental Health Training and Practice Bibhav Acharya, Anne E. Becker, 2023-07-20
The enormous health and social burdens associated with mental disorders have global reach and persist in the setting of unmet needs. To address these, the pipeline of global mental health trainees must be expanded and nurtured as the next generation of practitioners, investigators, and educators advance innovation in mental health prevention, promotion, and health delivery. This book offers a much needed introduction to the rapidly evolving field of global mental health. The editors bring their extensive expertise and experience in global mental health research, practice, and training, which includes working in academic and non-profit settings, building collaborations, and teaching hundreds of students and trainees. The volume's 12 chapters, authored by over 60 contributors from multiple disciplines, offer a breadth of content that comprises an introductory framework. This volume is an essential read for learners and educators who seek to explore or deepen their interest in the field of global mental health. Its orientation to fundamentals of practice and training, and contextualization with social science perspectives, will also be invaluable to health professionals, social scientists, policymakers, and other professionals who are invested in training the next generation of global mental health practitioners. **The Palgrave Handbook of Gendered Islamophobia** Amina Easat-Daas, Irene Zempi, 2024-04-25
