Character and the Individual Personality in English Renaissance Drama John E. Curran, 2014-08-20 Character and the Individual Personality in English Renaissance Drama Tragedy History Tragicomedy studies instantiations of the individualistic character in drama Shakespearean and non Shakespearean and some of the Renaissance ideas allowing for and informing them Setting aside such fraught questions as the history of Renaissance subjectivity and individualism on the one hand and Shakespearean exceptionalism on the other we can find that in some plays by a range of different authors and collaborators a conception has been evidenced of who a particular person is and has been used to drive the action This evidence can take into account a number of internal and external factors that might differentiate a person and can do so drawing on the intellectual context in a number of ways Ideas with potential to emphasize the special over the general in envisioning the person might come from training in dialectic thesis vs hypothesis or in rhetoric ethopoeia from psychological frameworks casuistry humor theory and their interpenetration or from historiography exemplarity But though they depicted what we would call personality only intermittently and with assumptions different from our own about personhood dramatists sometimes made a priority of representing the workings of a specific mind the patterns of thought and feeling that set a person off as that person and define that person singularly rather than categorically Some individualistic characters can be shown to emerge where we do not expect such as with Fletcherian personae like Amintor Arbaces and Montaigne of *The Honest Man's Fortune* some are drawn by playwrights often uninterested in character such as Chapman's Bussy D'Ambois Jonson's Cicero and Ford's Perkin Warbeck and some appear in being constructed differently from others by the same author as when Webster's Bosola is set in
